OREGON HIGHEST IN BANKER WORK

National Recognition By
Cooperative Farming
Activities.

Oregon State College.—Bankers of Oregon last year spent close to \$30,000 on agriculture projects, attended 152 meetings devoted to agriculture, and sponsored specific banker-farmer projects that involved 565 individual farmers or farmer boys.

This record was so far superior to that of any other state bankers' association that the Oregon organization has been given a national rating of "perfect plus" by the national agricultural commission of the American Bankers' association which conducts competitive scoring of farmer banker work each year.

"Banker-farmer work in Oregon carried on under the direction of the bankers' agricultural committee and the state may be proud," says Dan H. Otis, chairman of the agricultural commission. "These results have been accomplished through years of organized effort in which the state college has had an important part."

In recognition of the Oregon record, the A. B. A. has paid the expenses of Eugene Courtney, Woodburn, chairman of the agricultural committee; T. P. Cramer, secretary of the state association, and Paul V. Maris, director of extension, on a trip to the national convention in Virginia where they are putting on the only state display. In addition the major part of the national monthly bulletin for May is given over to stories and pictures concerning this state.

Card of Thanks

We desire to thank through The Press all who so kindly assisted us and gave other tokens of sympathy and kindness in our bereavement in the passing of our beloved mother, Mrs. Catherine Bell.

THE FAMILY.

Silver Star Theatre At Freewater Is Destroyed By Fire; Audience Safe

The Silver Star motion picture theatre at Freewater was destroyed and the Angerman Brothers Bakery damaged by fire Friday night which is believed to have started in the operating room of the theatre.

According to reports from Freewater the fire started at about 9:30 o'clock while the show was running. As soon as the alarm was sounded the patrons of the theatre fled out of the exits in an orderly manner.

Milton and Freewater fire fighting equipment were pressed into service and the Walla Walla fire department was also summoned. One truck rushed to Freewater from Walla Walla but the blaze was under control before it arrived.

Loss is undetermined, but it is believed that it will run to several thousand dollars. C. E. Walks was manager of the theatre.

Several months ago the only motion picture theatre in Milton was burned down. Friday night's fire now leaves the Twin Cities without a motion picture house.

Wagner Buys Ranch

Weston Leader: Ace Wagner, Umapine dairyman, has purchased the Charles E. Spence ranch located north of his present property. The place consists of 40 acres of valuable alfalfa land, most of which is now in hay and will be a valuable asset to Mr. Wagner in his dairying activities.

Mr. Wagner is one of the extensive dairymen of that district and will now be able to grow sufficient hay to take care of his growing industry. He is a son-in-law of J. P. Lieualten of Weston.

RUPTURE

Don't submit to avoidable operations or the use of antiquated trusses, as they all set where the lump is and where the opening is. The opening is seldom larger than a dime (no matter the size of the rupture), and all cases can be retained with the end of a lead pencil.

"The Spermatic Shield-Complex in combination with the Retainer-Simplex (Patent No. 747247 and other patents pending) — a scientific achievement in a highly specialized art. It will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Infinitely superior to any instrument, method or operation and producing results in no other way obtainable. All cases are secure a lifetime as against further trouble or expense. Large or difficult cases or incisional rupture (following operations) especially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions, with distinguished personal patrons of all nations."

"If you want done what the rest cannot do—see Sealey."
H. M. SHEVYAN—F. H. SEELEY'S EXPERT OF Chicago and Philadelphia will be at the Pendleton Hotel, Pendleton, Tuesday only, May 13th, from 9 a. m. to 5 p. m. He will be glad to demonstrate without charge or fit them if desired.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. SEELEY.
Home Office: 140 N. Dearborn St. Chicago.

TRACTOR RECORD IS ESTABLISHED

Notables Join in Ceremony
at End of 20-day Non-
Stop Run.

It took a governor, a senator and a college president to stop a farm tractor at Oregon State college after it had completed the longest endurance run in history, breaking every world's record by a little more than three days.

The record run was ended at a public ceremony on the campus at the end of 481 hours, 5 minutes of continuous operation, practically all of it under normal farm operating conditions—plowing, harrowing, disking and dragging. The demonstration test was conducted by the agricultural engineering department as a means of gathering scientific data on the cost and reliability of operation, track wear and other factors.

At the conclusion of the non-stop run Senator Charles L. McNary telephoned directly from Washington D. C. to President Kerr at the college congratulating those who took part in the affair, and the scores of pioneers present to witness the contrast between modern and ancient agricultural methods. An ox-drawn covered wagon at the scene gave emphasis to this contrast.

As President Kerr finished his cross country "chat" with Senator McNary he passed the word to Governor A. W. Norblad, waiting to silence the engine after its record run. As it stopped, recorders showed that the engine had made 37,421,098 revolutions and that the tractor had traveled 1011 miles.

Two Murders Committed Over Refusal to Use Cars

Two 15 year old farm boys were in jail in Clark county, Washington, and Polk county, Oregon, less than sixty miles apart facing charges of murdering three persons, two women and one man, in two separate counties on the same day for practically the same reason—the desire to drive an automobile.

One of the youths is Clifford Campbell, who Sheriff R. E. Crite of Clark county, said confessed that he fired the blast of dynamite which killed Benjamin Northrup, 55, and his wife, Mrs. Louise Northrup, 51, and reduced their modest farm home near Heisson, Wash., to splinters.

The other youth is Dale Lawson, who confessed to shooting Mrs. George Dickinson, 45, in her farm home in Polk county, near Independence, Ore. Young Lawson was held to the grand jury on a charge of murder. He told W. W. Harcombe, Polk county district attorney, he slew Mrs. Dickinson because she objected to his using the Dickinson automobile for a pleasure trip to Portland.

The blast which killed the Northrups in Clark county occurred just before midnight Wednesday and Lawson is said to have shot and killed Mrs. Dickinson Wednesday morning.

In the confession Campbell is said by Clark county authorities to have made, the youth declared he did not mean to kill the farm couple but to cripple them because they refused to allow him the use of the family automobile, a new small car.

Books on Aviation

Five new books at the County library deal with the history and romance of flying and four with its machinery and technique. The first are Amelia Earhart's "20 Hours, 40 Minutes," "The Aircraft Yearbook for 1930," "Air, Men and Wings" by George, "Conquering the Air" by Williams, and "Sky High" by Hodgins. The second group includes "The Airplane and its Engine" by Chatfield, "Practical Flying" by Jones, "Aviation from the Ground Up" by Manly, and "Simple Aerodynamics" by Monteith.

Wagontire Murder Fued

Ira Bradley, 62, Lost creek rancher of the Wagontire district, Malheur county was found shot to death in the kitchen of his cabin Saturday night by his son, Hofmer Bradley, and Jesse Pennington, a rancher. A soft-nose bullet had entered his forehead. The district attorney and sheriff are out on the desert, 125 miles northeast of Burns, investigating the murder. Officers believe the old Wagontire feud has broken out again. Bradley's son was killed three years ago, on the mountain.

Heppner's Artesian Water
Heppner's municipal water supply will shortly be furnished from the flow of an artesian well recently brought in at the forks of Willow creek. Saturday afternoon the well was capped and it showed a pressure of 36 pounds. The water flowing from the well has a temperature of 60 degrees and is of excellent quality.

Road Builder to Get Honor
A movement to erect a memorial to A. F. Alexander, "father of the Weston-Elgin toll-gate road," has been started and popular subscriptions will be taken. Mr. Alexander died in 1926. It is planned to build the memorial on top of the Blue mountains along the route of the mountain road.

Something NEW in a Truck

WAY from the harvester-thresher, loaded to the brim with ripe, yellow grain. Rubber tires rolling through the soft dirt and stubble. Across ditches. Up steep rises with a 60-bushel load! It makes no difference how deep down the bottom is, so long as the wheels can reach it, *this truck will bring every load through!* And on the hard highway it will give you more speed than you can use—safely controlled by 4-wheel brakes.

It is the modern answer to the rural haulage problem, a Speed Truck with two complete power

ranges, with six speeds forward and two reverse. It is International Harvester's famous "SIX-SPEED SPECIAL."

What the grain farmer does with this truck you can do with a capacity load of live stock, milk and cream, produce, fruit, feeds, building materials, or anything else. It is the market's best combination of *high road speed and pulling power.* It is a handsome quality product, strongly built, up to the minute in every detail. Let the Six-Speed Special tell you its own story. We will give you a thorough demonstration when you say the word.

JUST A FEW EXAMPLES

Of what the Oregon Press thinks of
Harry L. Corbett
Republican Candidate for Governor

"Should Oregon entrust its governorship to him (Corbett) it will be in mighty good hands." — Sheridan Sun.

"He (Corbett) says that the state will be advanced more by hard work than oratory." — Grass Valley Journal.

"The fact that Harry L. Corbett was the only senator in the 1927 legislature who refused to accept the extra pay which the legislators voted themselves should not work to his disadvantage in his campaign to procure the republican gubernatorial nomination." — Ashland Tidings.

"Searching through all of the utterances made by candidates we find in the Corbett platform a gem to consider." — Klamath Falls Herald.

"With Mr. Corbett Governor there should be no pyramiding of bond issues, but there would be ways and means devised for legitimate, safe development." — Malheur Enterprise.

"The sanest platform that has been issued by any candidate in this generation is the one put forward by Harry L. Corbett, republican candidate for Governor. If there is any 'bushwah' in it we have not been able to locate it and that is a most unusual thing for a candidate." — Corvallis Gazette Times.
