HERE'S THAT FAMOUS WOLVERINE WORK SHOE!

YOU'VE probably read the advertisements about these famous Wolverine Work Shoes in your favorite farm magazine. Now we've secured a stock of Wolverines in all styles, ankle lengths to knee highs. And we invite every work shoe wearer to come in and see the perfect work shoe.

We've investigated and tested this line—and every word they say about Wolverines is true. They do dry soft after soaking and stay soft despite all weather conditions. The uppers are almost impossible to rip and tear, for the 4-ply thread is sewed deep into the surface.

The uppers are also scuff-proof and stand up longer against acids than any work shoe we know. Last and equally important, Wolverines are made of Shell Cordovan Horsehide—a leather that outwears any other work shoe leather.

You'll be under no obligation if you wish to drop in and examine a pair. And once you try Wolverines, you'll never switch to any other grade of work shoe.
