

Fourteen Umatilla County Students Receive Diplomas at the U. of O. Commencement

Students from Umatilla county who are candidates for degrees from the University of Oregon this spring. Top, left to right, Nan Crary, Echo; Verne Dale, Helix; Ray Edwards, Milton; Beryl Harrah, Louis Harthong, Clara May Kirkpatrick, all of Pendleton; Bottom row, Donald McCook, Frieda Pahl, James Raley, Shirley Rew, Pendleton; Esther Saager, Freewater; Kathryn Thompson, Pendleton; Lower left, Mary Edith Winter, Pendleton, William B. Clark, Freewater.

University of Oregon.—Fourteen of the 677 students at the University of Oregon, who form the largest graduating class in the history of any institution in the state, are from Umatilla county. Nine students are from Pendleton, one from Milton, two from Freewater, and one from Echo and one from Helix. They are:

James H. Raley, Jr., Pendleton, is another candidate for the bachelor of science degree. He is a member of Phi Kappa Psi, men's social fraternity.

Frieda C. Pahl, Pendleton will be awarded the bachelor of science degree. She is a member of the Gamma Phi Beta national social sorority; was a member of the University orchestra and is listed for honors.

Clara May Kirkpatrick, Pendleton, is to receive the degree of bachelor of science. She is a major in education.

Louis K. Harthong, of Pendleton, will receive the bachelor of science degree.

Mary Edith Winter, Pendleton, will be awarded the degree of bachelor of science. She majored in history and is a member of Chi Delta, social sorority.

Shirley Rew, Pendleton, will receive her bachelor of arts degree.

Wm. B. Clark, Freewater, is a candidate for a bachelor of arts degree in business, and is associated with Sigma Pi Tau, local social fraternity for men. He was in the house

managers association and was on the YMCA cabinet.

Kathryn Collins Simpson, Pendleton, will be awarded the bachelor of arts degree. She is a member of Kappa Kappa Gamma and was a major in English.

Beryl Dale Harrah, also of Pendleton, will receive her B. A. She was majored in education; a member of Alpha Gamma Delta, social sorority, and was very active in sports, especially Junior week-end committee. She also was a member of the Y. W. C. A. and the Glee club group on the campus.

Ray G. Edwards, Milton, will receive a degree in bachelor of science. He majored in business administration and is a member of Phi Delta Theta men's social fraternity.

Esther Leadia Saager, Freewater, is a candidate for a B. A. degree. She was a music major, and was a member of the Polyphonic choir and of Orchestral music club. She is a member of Zeta Tau Alpha, social sorority.

Nan Crary, Echo, will be awarded the bachelor of science degree. She majored in Journalism and is a member of Phi Mu, social organization.

Verne W. Dale, Helix, will receive his bachelor degree.

Dr. Samuel Colcord, prominent internationalist of New York and peace worker, will deliver the commencement address at McArthur Court. He will speak on international peace.

THE DALLES MAY HAVE MINING BOOM

A Rich Ore Body Found On Property Owned By the Country Club.

The Dalles.—Prospecting operations extending over nearly a year have revealed that a quantity of extremely rich ore underlies The Dalles Country club property, and mining operations now will be started for its extraction, it was announced by Lester S. Harrison of Kellogg, Idaho, who has a lease on the mineral rights of the club.

The ore has been found to assay more than \$1000 to the ton, a figure declared almost unprecedented in western mining. It contains silver, gold, antimony, copper and lead, with the first named in the largest proportion, Harrison announced. Electrical prospecting and diamond drilling have proved that a sufficient quantity of this ore exists to justify sinking a shaft 300 feet into the ground on the club property, but the extent of the mineral deposit otherwise has not been determined.

The ore was first discovered when the Country club drilled a well on its property for water to irrigate its fairways. Drillers sent some of the mineral to an assayer, and later revealed the result of this test to Harrison, who is a mining attorney at Kellogg. He obtained a lease on the mineral rights of the club on a 10 per cent royalty basis last year, and since then has been engaged in prospecting.

Idaho mining men already have pledged sufficient capital to carry the project to completion, and no stock sale will be held in The Dalles, Harrison emphasized. It is expected that sinking of the shaft will start in the near future, and that actual ore shipments will be ready this fall.

Man Sees Wife, Daughter Die in Automobile Wreck

Pinned under the wreckage of his light truck near the body of his dead 12-year-old daughter and obliged to listen despairingly to the cries for aid of his dying wife E. L. Persons, forest fire ranger, was rescued by passing motorists on a seldom used stretch of the Sauk-Darrington road 45 miles from Sedro Wooley, Wash., after a 16 hour vigil.

The daughter was believed to have been killed instantly when Persons lost control of the car which plunged into a ditch. The accident occurred about 8 o'clock at night. Persons who caught under a heavy piece of wreckage and could not move, said that his wife died several hours after the crash.

Persons was taken to a hospital at Burlington where he lapsed into unconsciousness after giving a few meager details of the accident. Attendents believed he would recover. Persons was employed by the Washington Forest Fire Association.

New Loan Basis On 1930 Wheat Crop Established

Spokane.—Officers of the North Pacific Grain Growers Inc., cooperative marketing unit for the northwest, said that members of the organization would be able to borrow up to 85 per cent on their 1930 crop after it was harvested and warehoused.

The new loan basis is about 15 per cent greater than the possible loan through normal channel, they said. There will be no price guarantee, and the grower will be required to maintain about a 15 per cent margin of collateral for the loan.

The marketing set up made possible loans of \$1.13 per bushel at coast terminals on the 1930 crop.

Early Forest Fires

Forest fires in the western part of Lane and Douglas counties was out of control Tuesday and were burning fiercely in green timber. A brisk wind was fanning the flames. A pall of smoke hovered on the horizon east of Eugene from slashing fires in the Booth-Kelly Lumber company's cuttings above Wendling. The fire, however, was reported under control and employees of the lumber company are standing by with equipment.

Church of Christ

Charles A. Sias Minister

Sunday's morning's pulpit topic will be "A Text for Christian Thought and Meditation," evening, "The Christian Race," a sermonette. The Bible School opens at 9:30; the evening worship 8:00.

Urges Labor Relief

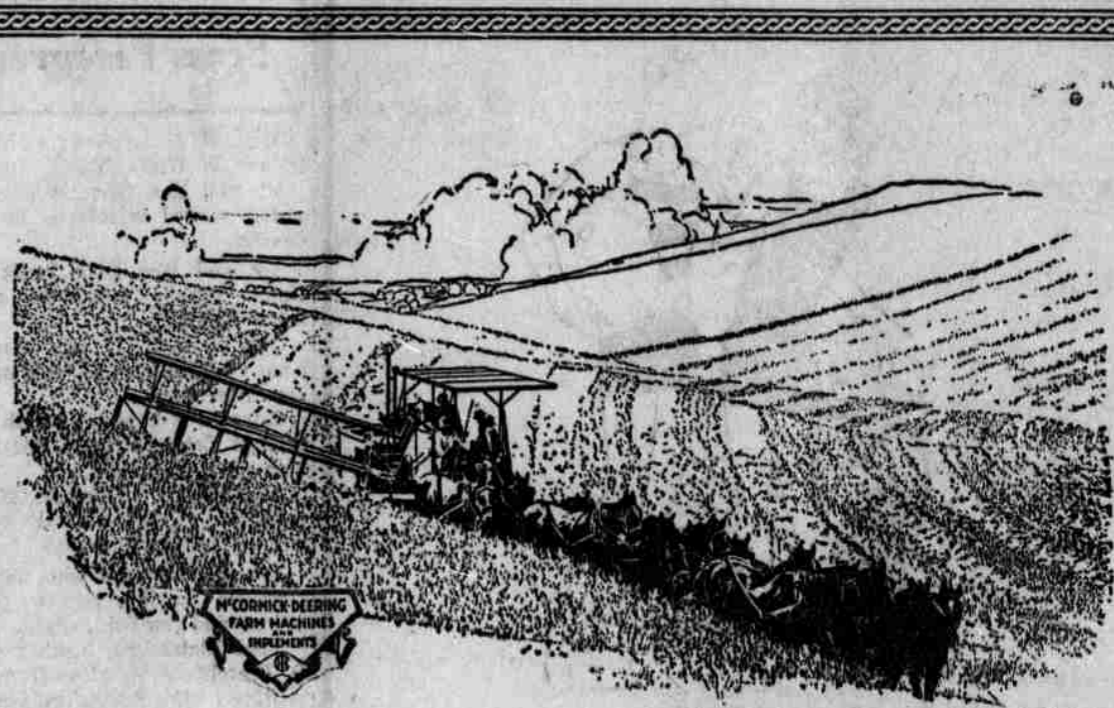

Asserting that hundreds of thousands of men were out of work and "muttering," William Green, president of the American Federation of Labor, told the house judiciary committee it would be "inconceivable that congress should adjourn without announcing some measures for the relief of this situation."

Death Thins Ranks

Death has cut the roll of the Grand Army of the Republic in the department of Washington and Alaska to 480 members. C. F. Wilson, of Bellingham, assistant adjutant, reported at the opening session of the 48th annual encampment. Ninety-five veterans died last year, he said.

LaGrande Gets Convention

Jack Ferris of LaGrande was elected new district governor of Oregon Lions Saturday as the state convention of the international organization started to wind up their two day meeting at Bend. LaGrande was chosen as the next convention city.

The roughest hills yield to the efficiency of this No. 7 Hillside Harvester-Thresher because it is equipped with a landing device that permits threshing on steep grades.

Hills or Hollows—Up or Down, the No. 7 Harvester-Thresher Gets All the Grain!

YOU can cut grain on a 65 per cent grade with the platform up hill or on a 40 per cent grade with the platform down hill. The platform remains parallel with the ground regardless of the angle at which it is working. It picks up down and tangled grain readily. The platform canvas and feeder convey the cut grain to the threshing cylinder where 90 per cent of the separation takes place at once. The threshing mechanism is kept level by power from the engine and the sieves of the shoe and recleaner are automatically leveled.

Here is the combine for hills and rough ground. Here is the machine that increases grain-growing profits by cutting harvest costs, by doing better work, and by threshing cleaner than the old wasteful methods. Come in and let us tell you more about this Hillside Harvester-Thresher—we can't begin here to tell you of its many fine features.

Oregon Land Described In Address By Oregon State College President

Oregon State College.—The radio audience of millions from Maine to California, heard of Oregon's agricultural resources Saturday from Dr. W. J. Kerr, president of this college, whose address was sent out from the San Francisco studios of the National Broadcasting company of which KGW is a member. His address, read by F. L. Griffen, '08 graduate and now on the staff of the University of California, was a part of the first regular Land Grant college program originating on the Pacific coast.

President Kerr said Oregon agriculture, now a little more than 100 years old, presents a greater diversity of factors and conditions than are to be found in the entire portion of the United States living east of the Mississippi and north of the Ohio river.

"Oregon, with a total area greater than the five New England states combined with New York, New Jersey and Delaware, possesses agricultural land from sea level to 5000 feet in elevation," he explained. "Rainfall ranges from less than 10 inches in semi-arid regions east of the Cascades to more than 130 inches in some sections of the coast counties."

President Kerr reviewed the development of agriculture in this state, referring particularly to farm crops, livestock, dairying, poultry and horticultural enterprises.

Florence Tucker a Bride

Miss Florence Tucker was united in marriage June 8, 1930, at Toppenish, Washington, to Mr. Hobart Hand, reports the Weston Leader. The ceremony was performed at the Baptist parsonage by the Rev. Mr. Holoman, in the presence of immediate relatives and friends. The bride is a daughter of Mr. and Mrs. Trajan Tucker, formerly of Weston, and the bridegroom a young farmer of the Yakima valley, the son of pioneer parents. Mr. and Mrs. Hand will make their home at Buena, Washington.

Hoover Approves Pension Bill

President Hoover has signed a bill increasing the pensions of all Civil war veterans. The bill increases to \$75 monthly the pension of veterans who formerly received \$65. Those receiving \$72 and \$90 will receive \$100 under the bill. Widows of veterans who formerly had to be 75 years of age to get \$40 monthly pension may get it at the age of 70.

Pendleton Man Suicide

Hans Soldwedel, 23, committed suicide by hanging at a ranch near Pendleton. Relatives said he had become dispondent over ill health. He was a native of Germany, and is survived by his parents there.
