

A BIG JOB, BUT ITS DEAD EASY

It would be a big job to tell one hundred people anything that would interest them in your goods, but its dead easy if done the right way. This paper will tell several hundred at once at nominal cost.

NOT ONE DAY CAN BE FOUND

in the week but that you do not need stationary of some sort or other. We furnish neat, clean printing at the very lowest rates. Fast presses, modern types, modern work, prompt delivery.

RESOLUTIONS PASSED AT PENDELTON

No Specific Candidates — The Dalles Favored For State Meeting Place.

Pendleton. — Without making a single mention of any possible nominee for governor, nine of the republican state committeemen from the 18 Eastern Oregon counties met in the chamber of commerce rooms here Monday night and cleared away the persistent smoke of mystery that had prevailed about the impending action of the committeemen since the announcement a week ago of Tom Elliot, Umatilla committeeman, that called the representatives of the counties here.

Reiterating his claim that the purpose of the caucus was not to commit anyone to the support of any given candidate, Mr. Elliot gained the concurrence of every man present to discuss only a few phases of the coming campaign that bear directly on the problems of Eastern Oregon.

In the preliminary discussion at the start of the meeting, however, several of those attending remarked that, while they were at present entirely open-minded on the matter, they believed the nominee to be selected at the next general meeting of the state committee should either be an Eastern Oregon man or one who had demonstrated his sympathy with Eastern Oregon affairs.

The Dalles loomed as a possible meeting place of the state committee when the committeemen present unanimously passed and signed a resolution recommending to the state chairman that he select the Columbia river town when the committee meets this month to decide upon who shall take the place left vacant by the recent death of George W. Joseph, nominated in the May primary.

Other resolutions numbered in the five passed last night include a refusal on the part of any committeeman to individually pledge his vote to any candidate or cause prior to the state meeting; a refusal to make any commitment before consulting other members of the central committee that come from this part of the state; that the committeemen from this territory will accept any candidate irrespective of his place of residence providing he is in sympathy with the aspirations of Eastern Oregon; that a place be selected for the meeting in some city outside of Multnomah county and preferably one which has no candidate for the nomination; a commendation of the delegation from Oregon in congress for its efforts to secure suitable legislation for the development of the Columbia river and other tributaries of the Columbia be included in the program of power and reclamation development; and that if the law governing the republican central committee is not clear on the question of selecting a candidate by a plurality or majority vote, the committeemen here will favor the adoption of a rule insuring that no nominee be designated by less than a majority vote of the committee.

The nine committeemen present at the meeting Monday night were A. D. Swift, Baker county; C. H. Bidwell, Union; Dr. R. W. Hendershot, Deschutes; Fred Bell, Hood River; Howard Turner, Jefferson; S. E. Norton, Morrow; E. D. McKee, Sherman; T. C. Elliott, Umatilla; and George F. Fitzgerald, Wasco. Mr. Elliott was chosen chairman of the meeting and Harold Warner, former state committeeman from here was secretary.

Two Records Broken

Two records were broken in connection with the Citizens' military training camp being held June 20 to July 19, it was discovered when enrollments of boys from Oregon and southwestern Washington were complete. One is, that it is the largest camp in the nine years' history of C. M. T. C. training at Vancouver Barracks. The other is that for the first time, every county in Oregon is represented by at least one boy. There are four from Umatilla county.

First To Harvest

Dillard York, living one mile west of College Place, was the first farmer in the Walla Walla valley to begin harvesting grain. He started up his machine Monday in what he reports to be a fairly good crop.

New Pool At Lehman

A new swimming pool is open to the public at Lehman Springs. The pool has just been completed and is 200 feet long by 50 feet wide, the deepest part being 9 1/2 feet.

Mrs. Bryce Baker and Mrs. Jennie Gross were Walla Walla visitors Monday.

Powerful Machine Here To Excavate New Well At the Legion Pool

The local Legion Post has been successful in bringing one of the county's big power shovels here to complete the excavation of the new well down at city park which will furnish the supply of water for the swimming pool.

The well yesterday was down 15 feet, the excavating so far has been done with scraper, pick and shovel, but now that the big shovel is in place, the work is expected to proceed rapidly.

It is understood that a centrifugal pump, powered with an electric motor will be used to lift the water from the well into the pool. For this week end the pool is freshly filled by water from the municipal plant. The leak which gave considerable trouble for a time has been permanently repaired after the cause was ascertained by "Pike" Miller, swimming instructor and caretaker at the natatorium. Miller found the cause to be the melting of the tar filling in the cavities in the floor of the swimming tank, by the sun's rays when the pool was emptied for cleaning and refilling in the day time. Now the draining of the pool is done at night and partially refilled before the sun warms the tank, and no water escapes.

Mr. Miller is prepared to receive a large number of swimmers this week-end. He will be at Bingham Springs today, and Arthur Crowley will have charge of the natatorium during his absence. Next week, the latter part of the week, Mr. Miller will begin to instruct beginners in the art of swimming.

Discovery May Clear Up Prospectors Fate

Press readers will remember the mysterious disappearance several months ago of R. H. Dehn and E. G. Scarberg, St. Helens business men, who went into the mountains for a day's prospecting trip.

The mystery of their disappearance may be solved through the discovery Sunday of a body on the banks of Sioux creek, in northern Clark county. The find was made by Dick Hodgson, who, with his brother, was on a fishing trip.

Hodgson had outwaded his brother and sat down on a log to wait until the other came up. While perching through the undergrowth, he found the body, apparently washed up by the water. The spot is about three miles up the creek from its confluence with the Lewis river.

Sheriff McCrite and the coroner left for the scene to recover the body and to conduct further search in that vicinity.

Dehn and Scarberg left for the upper reaches of the Lewis river shortly before Christmas on a prospecting trip and were last seen by a rescuer in that section. Later their automobile was found where they had reached the end of negotiable roads. In it was a rifle, the only firearm carried.

From that point on their trail was followed for a time by scores of searchers who came across remnants of campfires, burned matches and tobacco tins, only to be lost finally in the wilderness.

Both men have wives and children living at St. Helens.

Cornell Purchases Half Interest In Red & White

L. A. Cornell, who came to Athena from Malheur county several months ago and took over the Thompson Garage, and later sold it, has purchased a half interest in the Red & White store from Ed Montague.

Mr. Cornell is familiar with the business, having for a number of years conducted a general merchandise store at Lowden, Washington, before going to Malheur county, where he engaged in farming.

Mr. Montague states that the business volume of the Red & White had increased to a point where he was compelled to have additional help and that he believes that a partnership with Mr. Cornell is a most satisfactory solution.

Pendleton Man Wins Prize

Floyd Van Orsdal, employe at a Pendleton furniture store, received what he had won the \$25 prize offered by a window shade institute of New York city in a nation wide contest embracing Canada to obtain a suitable name for their trade magazine.

First Tomato Shipment

The first tomato shipment in carload lot will be made from the Milton-Freewater district about July 10. A number of carloads are already packed, and it is expected 200 carloads will be available during the season in that part of the county.

Garage Painted

Forrest Zerba's Athena Garage is receiving a newly painted front this week. Red, white and blue are the prevailing colors, painters for the Standard Oil company, doing the work.

Advanced in U. O. Personnel

These men are among the members of the administrative staff of the University of Oregon who received promotions in sweeping changes made in the university personnel the past week, as approved by the state board of higher education. Top row, is L. H. Johnson (left), who has been made comptroller emeritus after serving as comptroller for 23 years; and Karl Onthank, who is promoted from post as executive secretary to the new position of dean of personnel administration. Bottom row, is Earl M. Pallett (left), registrar, who has been made executive secretary; and Paul W. Ager, who has been promoted from assistant comptroller to full rank as comptroller.

University of Oregon, Eugene. — Creation of the office of dean of personnel administration, regarded as one of the most forward steps taken by one of the most forward steps taken by the university in recent years, is announced by Dr. Arnold Bennett Hall. Promotion of two other staff members to executive offices is also announced.

Karl W. Onthank, executive secretary of the University since 1917, is advanced to the deanship of the new department, and Earl M. Pallett, registrar here for the past three years, succeeds him as executive secretary. Paul W. Ager, who has been serving as assistant comptroller for the past year, becomes comptroller, and Louis H. Johnson, comptroller, is appointed Comptroller Emeritus.

Departments to Cooperate

Dean Onthank will be in charge of the various activities pertaining to personnel work, which include the bureau of personnel research, offices of the dean of men and dean of women, activities having to do with the collection of vocational information and placement service, faculty personnel work and organization of lower division faculty advisers.

"The mothers and fathers of Oregon have a right to expect that when they send their sons and daughters to the University of Oregon that they will receive the most intelligent personnel advice that it is possible for an educational institution to afford," said Dr. Hall in making the announcement. "Many of these boys and girls have not yet found themselves. They have not discovered their major interests. They do not yet know what vocation they wish to follow. Others perhaps have selected their vocations upon factors that are capricious, accidental, or irrational, and it is important that they soon discover and correct their mistakes. Others have not yet been able to adjust themselves to the social life of the community. Still others find themselves torn between conflicting interests and impulses of their own."

"Some students, more industrious and alert than others, need to be given tasks more adequate to their capacities, while backward students need sympathetic and intelligent guidance and analysis, to the end that they may not be unduly discouraged, and if possible their difficulties be discovered and remedied."

Personnel Work Improves

"When I came to the University almost four years ago, one of my first

acts was the appointment of a personnel committee. After a year and a half of careful study and deliberation, this committee evolved a splendid organization for the study of personnel problems. This organization, at the end of two years, has made some very helpful and constructive contributions to the problems of student personnel and student council."

"It is my desire that this work, built carefully upon a scientific basis provided by the Bureau of Personnel Research, should be definitely expanded and an organization created for the purpose of bringing it more intimately in contact with the lives of the students. To this end, the Personnel Council is being reorganized and enlarged to be more completely representative of faculty opinion and constructive criticism. The Bureau of Personnel Research is being strengthened and the office of Dean of Personnel Administration is being created. The purpose of the latter office is to provide the organization through which the work of the Personnel Research Bureau and the ideas of the faculty in regard to personnel problems can be more adequately translated into the actual administration of the University. It is hoped that by this means the new lower division advisory system can be made increasingly effective."

Students to be Advised

"More time and energy of faculty members will be devoted to the work of advising students and opportunities for closer contact between the research bureau and the students needing its special services will be established. Professor Howard R. Taylor will continue as director of the Bureau of Personnel Research, and Mr. Karl W. Onthank, for many years executive secretary of the University, will be dean of Personnel Administration. As a result of these changes and others to follow, it is hoped that a greater emphasis will be placed upon personnel work with the students and that ultimately there may be developed a program of student counselling and advising as adequate, as scientific, and as wise as it is humanly possible to provide. The public must not expect too much too soon."

"This whole movement, scientifically speaking, is still in its infancy and progress here, as in all scientific efforts, must be slow. Every effort will be made, however, to give to our student body the soundest and most wholesome advice that circumstances will permit."

Governors Told of Plans To Secure Aid From the Federal Government

Plans for obtaining additional federal highway appropriations under the recently-enacted Colton-Oddie bill for government roads across public domain were presented to the Western Association of State Highway Officials at Salt Lake City by Henry H. Blood, its president and chairman of the Utah State Road commission.

Blood pointed out that there became available the largest federal authorization ever made in any one year for highway building and added "prospects are that during the next year more money will be spent and more miles of highway constructed than during any like period in the past."

He called upon the state highway departments to prepare information for presentation at congressional hearings on appropriations under the Colton-Oddie bill, showing location of main highways through public lands, which he said would entail searching of records in the government land offices.

He said "it probably can be shown the public land states can absorb up to \$2,500,000 or even \$3,500,000 a year as a continuing authorization until the highways through this class of lands have been constructed" and urged that the west provide for representation in Washington when these matters are under consideration.

On the basis of the former figure he estimated receipts of each of the various western states under the act of Arizona \$381,500, California \$215,500, Colorado \$84,750, Montana \$117,500, Nevada \$565,500, New Mexico \$23,250, Oregon \$115,000, Utah \$286,000, Washington \$35,250, Wyoming \$202,500.

Local Folk Have Good Time at Bingham Springs

Mr. and Mrs. Fred Pinkerton and Dean were Sunday visitors at Bingham.

Mr. and Mrs. Will Campbell and daughter Myrtle and son Robert spent the week-end at their summer homes here.

Mr. and Mrs. Jenkins and children Doris and Dale, visited at the Will Campbell home over the week-end. Bernard D. Carnim of the Photo section and Niels Anderson of A. C. 23 squad, Luke Field, T. H. Hawaiian Island were visiting Sunday at Bingham Springs.

The J. C. club of the Helix neighborhood held a picnic at Bingham, Sunday. The following members attended: C. C. Garden and wife, E. E. Tate, wife and little daughter, Nevt Newton and family, Dick Newton and family, W. J. Doran and wife, Mr. and Mrs. Jens Newton, Mr. and Mrs. Ferguson and family, Norman Fendergast and others.

Mr. and Mrs. J. A. McKenzie and children were visiting Mrs. McKenzie's sister, Mrs. J. A. Winn, Sunday at Bingham.

Christian Missionary Society

The July meeting of the Christian Missionary society was held Wednesday afternoon at the home of Mrs. J. W. Pinkerton, with twenty-two members and guests present. Mrs. C. A. Sias led the program with Mrs. Lew McNair reading the Scripture lesson. Mrs. Maurice Frazier, Mrs. Berlin, Mrs. G. R. Gerking gave short readings, Mrs. L. R. Pinkerton a musical reading and Miss Juanita Crawford a poem and Mrs. Louis Craw reviewed a short missionary story. After the program an auxiliary to the society was formed, embracing all members of the church or friends who desire to cooperate, into an organization for home missionary or benefit work, to meet the third Wednesday in each month. The August meeting of the regular missionary society will be with Mrs. L. Sherman, with Miss Juanita Crawford leading. Visitors were: Mrs. and Miss Crawford, Mrs. Jesse Smith, Mrs. McCollough and Mrs. Garner.

Oldest Mason Dead

Uncle Jim Whitford, believed to be the oldest Mason in point of years in the country, died at the Masonic and Eastern Star home on the Base Line road Sunday morning, at the age of 103 years. Hearty and well up to six months ago, Uncle Jim was showman for the big home. He was born at Shandege Four Corners, N. Y., October 30, 1827, while John Quincy Adams was the sixth president of the United States.

Here From Salem

Mr. and Mrs. P. E. Clayton (Mildred Winship) were in the city yesterday from Salem where they reside. Mr. Clayton is a detective on the Salem police force. While in the city, Mr. and Mrs. Clayton were guests at the homes of Mr. and Mrs. W. J. Ghelson and Mr. and Mrs. Otho Reeder.

Has Radio In Automobile

Forrest Zerba has installed a radio set in the family car. He can bowl along over the highway in his big Hudson sedan, enjoy the scenery and at the same time listen in on what the world is doing.

Fourth To Be Glorious American Legion Event Today At Walla Walla

Walla Walla.—The committee on the Fourth of July celebration has its plans all completed to make the day one of the most spectacular of any in which the American Legion has taken the lead.

Some fifty-two entries will be in the parade the night of the Fourth at 6 p. m., among which will be both patriotic and humorous numbers. Prizes of \$50 for first place, \$25 for second place and \$15 for third place have been announced by the Legion parade committee consisting of Paul Colvin, chairman, George W. Roberts and William Boldman.

Decorations for the city streets were inaugurated Monday and continued until completed. Frames for the set pieces of fireworks displays have arrived and are ready to set up today.

The fireworks program includes thirteen major set pieces and twelve minor ones. There will be 71 aerial displays, six dozen one pound exhibition rockets and five gr.-ss of large exhibition candles.

At a meeting of the joint committee of the American Legion, definite plans were consummated for the races to be held at the fair grounds July 5 and 6. Up to date sixteen entries have been made for the speed events. All of these cars will appear in the street parade tonight at 8 p. m.

There will be seven events daily. The time trials will start at 1:30 and the final races promptly at 2:30. Cars will be classified into three classes, A, B, and C, according to speed qualifications in the preliminaries.

This is probably the largest number of actual racing cars ever entered in a racing program in the Northwest. Since Monday the track has been watered and rolled and will present a cemented appearance by the time of the races.

Two Working Crews Are Here Remodeling Lines

Two crews of workmen are here remodeling the Pacific Telephone & Telegraph company lines. They have followed a former crew that spent several weeks working on the lines in the Adams-Athena-Weston district.

One of the crews now here is in charge of Foreman Fred Ritzinger, and it is at present engaged in resetting poles between Athena and Weston.

Foreman James Ensign's crew is stringing new wire from Athena junction to LaGrande. This portion of the system is to be retransposed throughout and will have two complete circuits when finished. The two crews comprise a personnel of 16 men.

Mavericks Scalp Indians In Game At Penitentiary

The Mission Indians, champions of the Blue Mountain league and who also recently defeated the Yakima All-Stars by the score of 6 to 0, journeyed to the penitentiary at Walla Walla, Sunday and was trounced by the Mavericks to the tune of 7 to 0. The game was played in 1 hour and 23 minutes.

Bettles, southpaw chucker for the Indians, held the Mavericks scoreless until the fifth but could not stand the pace and the inmates garnered a total of eight hits in the remaining innings. The masterful chucking of the veteran Schultz of the Mavericks was the feature of the game.

The Mavericks are undefeated this season after tangling with the stiffest competition in Oregon and eastern Washington. Score:

R. H. E.	
Mission Indians	0 2 5
Mavericks	7 10 1

To Hold Clinic Here

A clinic will be held for children up to 6 years of age, Thursday afternoon, July 10, under the direction of Miss Helen Sampson, county health nurse, in the domestic science rooms at the high school between the hours of 1 and 3 p. m. Particular attention will be given to children who will begin school work this year. Anyone interested in the clinic may confer with Mrs. E. C. Rogers.

Peas and Beans

Both the bean and pea crops in the Athena-Weston district begin to look flourishing and give evidence of a healthy growth on the high lands where the plantings have been made this year. Full crews are maintained at this time to keep the fields in a high state of cultivation.

Gas Well Brought In

The eighth well drilled by the Walla Walla Gas, Oil and Pipeline company in the Benton fields was brought in Tuesday. A. A. Durand of Walla Walla, who has been drilling the well, predicted it would be the largest producing well in the field. It will be several days before an estimate is obtained.

GROWERS WARNED TO CUT ACREAGE

Department of Agriculture Predicts Below Average Prices In Seven Years.

Washington.—Warning the American farmer to think in terms of a domestic market, the department of agriculture predicted world wheat prices in the next seven years will average appreciably lower than those of the last seven.

The warning was made in connection with the 1930 world wheat outlook report.

Extensive adjustment in wheat acreage including substantial reduction in cost per bushel, must be made if wheat production is to be profitable to growers generally in the next six to 10 years, the report said.

"This is necessary," it explained, "to meet intensified competition in world markets."

In the face of increasing exportable surpluses in Canada, Argentina, Australia and the Balkans, per capita consumption of wheat and wheat products shows no tendency to increase, the report said.

"Wheat prices in the United States," the report said, "are likely to share in the downward trend of the general price level, the extent of the decline depending in part upon the action of wheat growers in this and other countries."

"A curtailment in the production of export wheats would not only tend to raise the world wheat price level but would also improve the relation of domestic to foreign market prices."

Surplus Wheat Storage

Walla Walla.—Some difficulty may arise this fall in finding places to accommodate the storage of wheat if something is not done with the amount that is still left over from the crop last year. About a million and a half bushels remain from last year's yield and it is expected that the yield this year will be somewhere between five and six million bushels.

The granaries and elevators in the Walla Walla district will hold a little over four million bushels and the combined total of this year's grain and that of last year will be considerably over this amount. Local experts say that it is probable that a good deal of wheat will be shipped to other markets.

Norblad Will Not Run For Office of Governor

Portland.—Governor A. W. Norblad announced he would not be a candidate for republican nomination for governor to succeed the late George W. Joseph.

Joseph was nominated May 16 with a plurality of about 5,000 votes over Norblad, his strongest opponent. Joseph died June 16.

The republican state central committee is to meet in the near future to select the party leader. Many of Governor Norblad's friends had urged him to submit his name as a candidate.

A Real Fishing Trip

Mr. and Mrs. Glenn Dudley, Mr. and Mrs. H. H. Eickhoff, Mr. and Mrs. Vern Dudley Mr. and Mrs. Glenn Stater formed a party that took a real fishing trip over last week-end. The party left Dayton, Washington, by automobile and went to a ranger station in the Twin Buttes district of the forest reserve. From there the remainder of the journey was negotiated with saddle and pack horses. Real fishing was experienced by the men folks, fine, big trout being caught in abundance.

Rev. McConnell Returned

Carl F. McConnell, for four years pastor of the Marvin Memorial Methodist church, will return to Walla Walla for a fifth year, it was announced following action taken by Bishop Arthur J. Moore at the annual conference of the Methodist church, South, concluded in Corvallis, Oregon, Sunday. The Rev. McConnell is one of the three five-year men in the conference.

Wheat Alarm Sounded

C. W. Warburton, director of the extension service of the department of agriculture sees no cause for alarm in the world wheat situation. "While there is a surplus of wheat in this country from last year," he said, "it is not as large as a year ago. The situation is not as alarming as some people would have you think."

Get Pilot License

Laurence Tharp was one of five applicants to be granted airplane pilot license at Walla Walla this week, after flying tests were given by Captain E. V. Potts, U. S. bureau of aeronautics inspector.
