MEYERS RESIGNS PENITENTIARY POST

Says State Has Been Benefited by Regime, Strove to Better Charge.

Salem.—Henry W. Meyers, superintendent of the state prison, Monday afternoon announced his intention to resign effective June 1. The announcement followed published rumors that he was contemplating such a step.

In announcing his intention he said: "I reached the decision to step out after numerous conferences with friends. I believe this action is for the best interests of the institution and officials who are connected with it. I'm fully aware that continuance in office as superintendent in the face of the fight being made upon me by Governor Meier could only be detrimental to the institution."

Meyers sent the following letter to the board of control: "In dealing with a most trying situation, errors are bound to occur. We are all human and subject to mistakes, yet one can be honest in his intentions. My sole purpose during the past four years as administrator of the Oregon state penitentiary has been to remove the stench which has surrounded this institution covering a period of these many years, and to elevate the same to a degree so it could compare favorably with more modern penal institutions. If any progress has been made, it speaks for itself. A study of conditions and my record should indicate to every right thinking taxpayer of the state the extreme interest manifested to build and improve not only the physical plant but the incarcerated individuals as well, providing better food, cleanliness and sanitary surroundings. My efforts to install service and vocational training program within the walls of the prison for the betterment and needs of rehabilitating the prisoner have met with defeat.

"The unimportant indiscretions mentioned that may have been committed are most trivial. If one should measure and could realize the beneficial results obtained by permitting the prisoners to have other recreation than as provided by and under the usual prison environment there would be no criticism, but a hearty commendation pertaining to outside enjoyment, even though private interests benefited nominally.

"To counterbalance the minor use of state trucks and prisoners, the same has been more than equalized and the state has benefited and was compensated by the fact of the institution gaining by the use of my privately owned automobile covering a direct period of my first two years' incumbency, when transports were inadequate to meet conditions periodically for the past 24 months, without one cent cost to the state, yet privately owned autos used in the state business are entitled to 6 cents per mile.

"Also, my personal investigation and inspection of San Quentin, Folsom, Walla Walla and Westminister prisons at no cost to the state whatsoever, the expense incidental thereto being paid personally and the information obtained and derived from such inspection has been applied in the interest and benefit to the state of Oregon."

Dr. Dan Poling Gave Talk to School Pupils

On Tuesday afternoon the high school was very agreeably surprised with a special assembly. Dr. Dan Poling of Oregon State college gave a very interesting and inspirational talk.

Throughout the course of his lecture he stressed the importance of a college education. He said that not all students could profit by a college education but all who could profit by this specialized training should get it.

The point was made that this is a day of competition. The only way to get away from it is to take specialized training and carry it beyond the degree to which the majority of one's competitors have the willingness or ability to go.

Dr. Poling said that any student could work his own way through college if he had the determination.

Proclamation Issued for Child Welfare Week

Conforming to the joint resolution of congress which proclaims May Day as child health day, Governor Meier has issued the following proclamation:

To the People of Oregon:
The annual, nation wide observance of May first as Child Health Day and the week thereafter as Child Health Week, shows a growing appreciation of the importance of sound physical endowment and proper opportunities for nurture and development.

Good health is not merely a matter of individual concern; it is a matter of public importance. It requires community of purpose and united effort.

This year the White House Conference on Child Health and Protection has added an incentive and a program for the conservation of the nation's human resources by renewing interest in childhood and youth. It has brought us to a fuller realization of the fact that the foundation for a better future generation must be laid during the impressive years of childhood.

I hope that the people of Oregon will cooperate in an observance of Child Health Day and Child Health Week which will bring the objectives of the White House Conference into Oregon and that we may, during this week, make an investment of interest in child health which will bring rich returns throughout the year and for the future.

Yours respectfully,
JULIUS L. MEIER, Governor.

TOM KAY STRICKEN AT BOARD SESSION

State Treasurer Collapses as Meeting Ends, Death Follows.

Salem.—State Treasurer Thomas B. Kay, suffered what was believed to be a paralytic stroke during the meeting of the state board of control here Tuesday.

Kay and Governor Meier had been arguing, and the state treasurer was on his feet, gesticulating, when he suddenly slumped to the floor.

Dr. C. J. Robertson, Salem, said that he treated Kay for a similar ailment about two years ago, and that Kay's condition was "serious."

Kay was removed to his home in an ambulance and died during the night. The board of control had been considering the resignation of Henry W. Meyers, superintendent of the Oregon state prison, and had just reached an agreement to make the resignation effective as of May 10 instead of June 1 as proposed by Meyers.

The meeting was held in Governor Julius L. Meier's office and Kay rose and started toward the governor's desk but collapsed. He was taken to his home and medical aid summoned, but he failed to rally.

Kay had long been identified with the republican party in Oregon.

In 1902 he was elected to the Oregon house of representatives and served in the house from 1903 to 1905. He was chairman of the ways and means committee.

In 1907 he was elected to the state senate and served there for two years.

He was first elected state treasurer in 1910 and in 1914 he was re-elected and continued to serve until January 6, 1919.

Kay again was elected to the lower house of the legislature in 1920. In 1924 he sought again the office of state treasurer and was elected by a large majority. He was re-elected in 1928.

Kay was born in Trenton, N. J., February 1864. The family moved to Oregon that summer.

Kay is survived by his widow, a daughter and one son.

Appointment of an interim successor is in the hands of Governor Meier.
