

ACCESS TO FORESTS BENEFIT TO HUNTERS

Restrictions Preclude Hunting in Small Area of the National Parks.

Salem.—Restrictions relative to access to forest areas at the opening of the hunting season on September 20 were outlined here in a statement issued by the co-operative forest protective agencies of Oregon. The statement was released by Lynn Cronemiller, state forester.

"At present," the statement read, "less than 5 per cent of Oregon's 26,000,000 acres of forest land is closed to all entry and all forms of use. Closures of this character have been made on account of the extreme hazard resulting from the blowdown occurring in April, and also in certain snag areas and other special hazards."

"An additional 2 per cent of the total forest areas is subject to entry only through permit. These permits may be obtained by anyone desiring to enter restricted areas. The permit may specify any or all of the following requirements:

"To build no fires except in places designated as safe in said permit.
"To have as a part of his or her

equipment tools suitable for extinguishing fire.

"To refrain from smoking except in places designated as safe in said permit."

"Restrictions of this character applying to specific areas cannot be removed until sufficient rain has fallen to reduce this fire danger materially. Two general restrictions apply only to national forests. These precautionary measures require that a permit be obtained for all camp fires except at designated camp grounds and that the public refrain from smoking while traveling. These measures do not affect entry on forest areas, but provide rules of conduct designed to prevent fires and are effective until heavy fall rains end the danger caused by the use of fire in the forests."

"On the remaining 93 per cent of the total forest area, there are no restrictions limiting entry for hunting or other lawful use of the forests areas by any person. No additional restrictions will be applied anywhere in the state either before or after September 20 unless the fire hazard existing in any particular locality may make them essential, to prevent loss of the state's forest resources."

"Closure to entry and all forms of use for areas of special hazard will affect only a small percentage of the total forest areas. The permit system, however, may be applied over more extensive areas, but restrictions of this character do not prohibit hunting or other use. They simply establish certain safety measures for the use of fire on forest land. No general closure affecting statewide areas will be made."

"If, with the widely scattered and increased use which will occur with the opening of the hunting season, care with fire is exercised, it probably will be unnecessary to make any further restrictions in the use of forest areas."

Dempsey Turns Down Offer of Walla Walla

Not to be outdone by an unanswered telegram offering Dempsey \$2500 and 50 per cent of the expenses, Carl Nelson, Walla Walla V. F. W., promoter, sent another raising the offer to \$3000 for the Manassa Mauler's four-round exhibition here. In reply to this Nelson received the following telegram from Leonard Sacks, Dempsey's manager, last week:

"Many thanks but sorry my plans will not permit us to make your city this month. Perhaps later. You can get in touch with me at permanent address. Regards.—Leonard Sacks." Keen observers believe that this precludes any possibility of Dempsey's showing at Walla Walla.

Alleged Rustlers Held
Travis McCulley and Herbert McCulley, residents of the Butter creek section, are held for Morrow county officials on charges of horse stealing. Officers allege the two men are heads of a rustling ring said to be taking horses from Morrow county ranchers and selling them to Portland firms manufacturing fox feed.

Mel White who resides near Umapine made business calls here Tuesday.

TULE LANDS TO OPEN FOR ENTRY

In October 4700 Acres Will Become Available to Settlement.

Klamath Falls.—The seventh opening of lands in the Tule lake reclamation area will be held some time in October, it was revealed by B. E. Hayden, superintendent of the project, who spoke before the Rotary club here. The formal opening has not been announced yet by the government.

Drains and structures have been completed for 69 new units, comprising about 4700 acres, and will be offered for settlement as soon as funds are provided for the placing of two new drainage pumps. This pumping plant has been authorized and plans are being prepared in the Denver office for the construction.

The openings are held in October, in order that settlement may be completed in time for raising a crop the following year. The opening to be held this year probably will be the last one for some time due to the depleted condition of the reclamation fund.

A considerable amount of log wood is coming from the mountain.

"Save the Surface and You Save All," applies to the use of—

ACME QUALITY HOUSE PAINT

for Beautifying and Protecting all kinds of Structures

We carry a full stock including: House Paint, Granite Floor Enamel, rapid drying Enamel-Kote, Interior Glass Finish, Varno-Lac, No-Lustre, etc.

ROGERS & GOODMAN

(A Mercantile Trust)

Athena High School Notes

Elected Senior Head

A senior class meeting was held Monday afternoon and the following officers were elected: president, Glenn McCullough; vice president, Leland Jenkins; secretary treasurer, Goldie Miller.

Junior Class Officers

In a meeting held Monday, Helen Barrett was elected president of the junior class; Fred Singer was elected vice president and Marjorie Montague secretary treasurer.

Sophomore Officers

At the sophomore class meeting held Friday afternoon Mary Jane Miller was elected president; Ralph Moore, vice president and Nylene Taylor, secretary treasurer.

Freshman President

The freshman class met with their advisor, Mr. Tilley, Monday afternoon and the following officers were elected: president, Mildred Alkire; vice president, Aaron Douglas; secretary treasurer, Arleen Foster.

School Note Editor

Thursday, September 10, the junior class elected Helen Barrett, editor; Fred Singer, assistant editor; and Lowell Jenkins sports editor of the school notes which appear weekly in The Press.

Assistant Band Director

The band held its first rehearsal in the school year, Friday, September 11th, and elected officers for the first semester. Marjorie Douglas was elected assistant director and Ralph Moore, librarian. Mr. Tilley has ordered new books for this year. After two weeks of developing, the band will start rehearsing on some new music, among which will be a light overture.

Glee Club Gets Early Start

The first rehearsal of the glee club was held Monday at 12:40 under the supervision of Mrs. Bloom. Many of the last years members were present and several new ones signed up. Mrs. Bloom announced that work was to be started on three new songs: "Swing Along," "Strumming," and "Boats of Mine." The Glee Club will also learn some new songs to be sung in assemblies.

Assembly Held

The first assembly of the school year was held in the auditorium Friday morning, September 11th. Mr. Bloom gave a short talk and said that the rules would be the same as last year. Three songs were sung: "Columbia, the Gem of the Ocean," "Old Black Joe" and "Smiles."

Student Body Meeting

The first student body meeting of the year was held by the Athena high school on Friday afternoon, for purpose of determining student body fees and electing a transportation manager. Fees were fixed by vote, at fifty cents per student a semester.

Ralph Moore was elected transportation manager because of the absence of Howard Reeder who was elected to this position at the regular election in the spring.

The student body president gave a gentle reminder to the freshmen of the welner roast coming to the upper

classmen; and to the sophomores a hint of the initiation.

General Mathematics

A course of General Mathematics is being offered in place of algebra in the ninth grade this year.

General Mathematics is a course in which the simple principles of arithmetic, algebra, geometry, statistics, and numerical trigonometry are taught. At present the class, largely of freshmen, is working on the measurement of lines and angles.

Athena Plays Mac-Hi Today

The Athena football players spent most of last week learning the fundamentals of football. The team as a whole is progressing rapidly and today, the Athena boys are ready to meet their first opponent.

Today the Athena boys journey to the Mac-Hi gridiron where they will play their first game of the season.

Grade News

Billy Hunter from Weston has enrolled in the second grade.

Dorothy Martin was absent from school Monday on account of illness. The Rhythm Band is being organized this week under the direction of Mrs. Milligan.

Miss Calif reports that there are seven third graders and 13 fourth graders in her room.

A new sand table and bookcase are being constructed which will add much to the pleasure of the room.

The fifth and sixth grades have an enrollment of 24 pupils. There are 13 pupils in the sixth grade and 11 in the fifth grade.

There are 27 pupils in the seventh and eighth grades this year. Mr. Miller reports that most of the students are showing keen interest in their work.

Personals

Miss Cameron, one of the high school teachers, has returned to resume her position of teaching again this year.

A group of Hi students and alumni motored to Milton, Saturday night to charrivari Esther Berlin Vaughn.

The following students were Walla Walla visitors Saturday: Mildred Hansell, Bernice Wilson, Marjorie Montague, Ralph Moore, Lowell Jenkins, Walter Huffman and Roland Richards.

Arleen Myrick and Betty Eager were in Pendleton Saturday.

Iva May Arkell visited friends in Pendleton Saturday who returned home with her to spend the remainder of the week-end.

Doris Street was a Freewater visitor Saturday.

Goldie Miller had as a visitor Sunday, Marguerite Moore from Walla Walla, who went to school in Athena at one time.

Solista Pickett was in Pendleton Sunday.

Best Has New Tractor

The Braden-Bell Tractor company of Pendleton has been informed by the manufacturers that a new caterpillar tractor will be put on the market. Mr. Bell states that the new tractor will be model 50, a size in between the 30's and 60's and they expect to have one for display the latter part of next month.

Writing Life Insurance

J. V. Milligan has taken the Athena agency for the Kansas Life Insurance company. Announcing his appointment to the agency here, Mr. Milligan has an advertisement in today's Athena Press.

Oregon Jersey Cow Sets New World But- ter Fat Record Easy

Another world's record has been completed by an Oregon Jersey cow. This time it is in the junior 2-year-old class in the 305-day division and the cow is Lilac's St. Mawes Susy 358501 owned and bred by Harry D. Iliff, Independence, Oregon.

Of the 18 world's class records above Oregon has held ten, or more than half against the entire world, and the new record gives Oregon 11 out of a possible 18 world's class records. This also gives the Iliff farm 4 out of the 18.

"Susy" entered test at a few days past 2 years old and during the following 305 days she produced 689.33 pounds of butterfat. This record displaces the record of Observer's Queen of 677.42 pounds fat owned by Longview Farm, Mo.

The Iliff farm is noted for its world's record as this is the fifth such record that has been made. It now holds the world's record in the senior yearling 365 days class with St. Mawes Lad's Lady, record 829.09 pounds fat, entered test at 1 year 11 months of age. This cow also produced 1032.97 at 4 years 2 months of age.

Junior Banister, who spent the summer with his grandfather, Bern Banister near Freewater, has returned home and entered the grade schools.

ACROSS THE CONTINENT

by UNION PACIFIC Stages

You can schedule your trip thru to the east or stop over en route. Coaches comfortably heated. Dependable service. Skilled drivers. Sightseeing advantages unrivaled. Examples indicate the economy.

LOW FARES TO EASTERN POINTS

	One Way	Round Trip
Denver.....	\$33.25	\$62.70
Omaha.....	41.00	73.80
Kansas City.....	41.00	73.80
Minneapolis.....	45.00	81.00
St. Louis.....	45.00	81.00
Chicago.....	48.00	86.40
Memphis.....	49.00	93.10
Detroit.....	51.60	93.60
Cleveland.....	55.20	100.80
New York City.....	65.70	121.95

Correspondingly low fares to other eastern points. Also big saving on commutation tickets between local points.

AMERICA'S ONLY REFINER OF
GERM PROCESSED OIL OFFERS....

\$10,000 IN CASH PRIZES

FOR THE BEST ANSWERS EXPLAINING THE

MYSTERY OF THE "HIDDEN QUART"

AND TELLING HOW THIS QUART BENEFITS MOTORISTS

Fact No. 1—Thousands of motorists and service station men have observed that after a car has been given its first fill of Conoco Germ Processed Motor Oil and is driven 200 to 350 miles, a look at the crankcase gauge shows that about one quart of oil is apparently missing.... but

Fact No. 2—These same people have noticed that on the second and later fillings with Conoco Germ Processed Motor Oil, scarcely a drop of oil will disappear during the first 350 miles and practically none at 500 and up to 1,000 miles!

THE above facts have been checked by actual tests with cars that use six quarts of oil for the crankcase, cars in good mechanical condition and driven at ordinary rates of speed. These facts will also prove true for your car, in proportion to the amount of oil your

crankcase usually holds, your car's mechanical condition and the speeds at which you drive.

What becomes of the "hidden quart"? The answer is easy if you study the Facts given above and keep in mind the things that only

Conoco Germ Processed Motor Oil can do. The explanation of the whereabouts of the "hidden quart" is simple—no technical knowledge of motors or oil is necessary.

Remember—The "hidden quart" of Germ Processed Oil does not escape through leakage... does not burn up, wear out nor evaporate. It is "present but unaccounted for." Fact No. 2, given above, proves all this.

After you've found where the "hidden quart" goes, you can easily see the special benefits it gives the motorist—advantages that no other oil can give.

Ask at any Conoco Station or Conoco Dealer for free entry blank, which contains information about Conoco Germ Processed Motor Oil that may help you win. Conoco Station and Dealer employees will gladly answer your questions. Remember, you do not have to buy anything to enter this contest.... Any Conoco Station or Conoco Dealer will give you, free of charge, a convenient Official Contest Entry Blank for writing your answer.

THE QUESTION

"What becomes of the 'hidden quart' and how does this quart benefit the motorist?"

Answers written on one side only of any plain white paper will be accepted as accredited entries in the contest. But we recommend that you secure an Official Contest Entry Blank, which gives valuable information about Conoco Germ Processed Motor Oil and its operation in motors—clues about the "hidden quart" that may help you write an answer that will win a prize.

COMPLETE RULES OF CONTEST

- Answers may be any length not exceeding 200 words; length of answers will not determine winners. Write answers on Official Contest Entry Blank, preferably, or on plain white paper. Conoco Stations and Dealers will give you an Official Contest Entry Blank free. Elaborate presentations of answers will not count in your favor.
- Write your answer in plain, simple language. Technical terms or special scientific knowledge will not influence the judges.
- Contest closes midnight, Sept. 28, 1931, and no entries bearing postmarks after midnight, Sept. 28, 1931, will be accepted.
- Contest open to everybody except employees and executives of the Continental Oil Company, Conoco Stations, Conoco Dealers and the Company's advertising agency, and their families.
- In case of tie, both contestants will receive full amount of prize tied for.
- You do not have to use or purchase Conoco Germ Processed Motor Oil or other Conoco products to compete for prizes.
- All entries submitted, whether or not they win prizes, become the property of the Continental Oil Company and may be used in advertising without payment, and none can be returned to senders.

CONTEST CLOSING MIDNIGHT, SEPT. 28, 1931
