Skinny's Finish

Having a little short of material this week, we asked the devil to write us a short article against the use of slang. He did. Here it is:

If there is anything that gets our Nanny it is the use of slang. Some guy spills too much of that kind of dope that it is hard to get wise to their spid. Kids should be put next to their parents until they are old enough that couldn't put over straight stuff. I would watch the lining out of the lobster. Skirts are shinny, proper, when...underwear and gown. The Fox is a dish of prunes when it comes to slang. He bawls me out to a fare as well and I am in Dutch from the time I come on the job till laying time in the evening. This is the first thing I have ever broke and I don't show up in the rag. I know it is a fliver proper. SKINNY.
