

Meet and Compare.

The Oregon Voter makes a good suggestion relative to the advisability of road supervisors' conventions. It says:

"Oregon's road supervisors and other road officers should meet in a state convention once a year to compare experiences as to methods of road construction, and to gain the mutual advantage of what they could learn from each other and from a few visiting experienced road builders. Taxpayers' associations, or the boards of county commissioners, should pay the supervisors' expenses for attending such a conference.

Here we are, spending \$5,000,000 a year for roads, nearly as much as we are spending for schools, and we do not have any road institutes or conventions such as have been of such great value to our common schools.

Within a single year, the increased efficiency of road supervisors would make possible a heavy saving to taxpayers, and, what is of equal importance, would increase the value obtained from the money spent."

Klamath Falls is reducing fixed charges to get lower taxes.

With all the colleges teaching sociology, science of government and community civics, why do taxes go up?

Notice to Taxpayers

You are hereby notified that second half payment of your tax will be due on or before September 30, 1915. Beginning October 1, 1915, said tax will become delinquent, and a penalty of 10 per cent and interest at the rate of 12 per cent per annum will be added until paid.

Where no part of the tax has been paid, a penalty of 1 per cent per month for each calendar month, or fraction thereof cumulates during the period, beginning April 1, 1915, and ending August 31, 1915. On September 1, 1915, a penalty of 10 per cent replaces the cumulative penalty heretofore charged, and further interest at the rate of 12 per cent per annum from September 1, 1915, is added.

On or as soon as practicable after October 5, 1915, the tax collector shall proceed to collect all taxes upon personal property, which shall not have been paid before said October 5, 1915, together with penalty and interest, and shall levy on and take said personal property into his possession, or so much thereof as to satisfy said tax, and sell the same at public auction . . . or he may charge the tax on personal property against real prop-

erty . . . and said tax shall be a lien on said real property, and shall be enforced in the same manner as other real estate tax liens.

The above statement is in accordance with Chapter 233, Laws of 1915, and Sections 3682, 3683 and 3687, Chapter 184, Laws of 1913.

THE GOOD JUDGE GETS A LINE ON THE RETIRED JUDGE.

VERY INTELLIGENT LOOKING OLD GENTLEMAN--TOO BAD HE'S HARD OF HEARING.

HE WAS THE BEST JUDGE THIS STATE EVER HAD. IT WOULD DO YOU GOOD NOW TO HEAR HIM TALK THE MERITS OF THE REAL TOBACCO CHEW.

MAYBE you're one of these reformed grinders yourself and know how they like to meet and talk about the little chew that satisfies. When you meet a non-member puddling a big wad in his cheek don't you feel like stopping him and giving him the facts about *the Real Tobacco Chew?*

A little chew of pure, rich, mellow tobacco--seasoned and sweetened just enough--cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW "REAL TOBACCO CHEW"--CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

“Notice how the salt brings out the rich tobacco taste.”
