

Ashamed of her bad complexion

If you, too, are embarrassed by a pimply, blotchy, unsightly complexion, nine chances out of ten

**Resinol Soap will clear it**

Just try Resinol Soap for a week and see if it does not make a blessed difference in your skin. It also helps to make red, rough hands and arms soft and white.

In severe or stubborn cases, Resinol Soap should be added by a little Resinol Ointment. Both are sold by all Druggists.

**NEW COOPERATIVE CREAMERY**

Farmers and State College to Cooperate in Manufacture of Products.

Corvallis, Or.—For the purpose of manufacturing and marketing butter, cheese, ice cream and other dairy products, the Oregon State College and a number of dairymen and farmers nearby have organized a cooperative creamery. Another purpose of the cooperative plan is to secure a supply of milk and cream to students of dairying in sufficient quantities that they may be able to operate the college creamery on a commercial basis. Although the college has a few herds of high producing dairy cows it has not enough cows to provide milk in quantities sufficient to supply a large and successful commercial creamery, and it believes that only in this way can adequate training be given students of commercial dairying.

Dairymen that sign up as members of the cooperative association agree to supply milk from a stated number of cows and to exercise such care in management of cows and handling of milk and cream as to comply with the Oregon laws governing the operation of commercial dairies.

The college agrees to receive the milk and cream, test and grade them, and make them into dairy products for sale. From gross receipts of the sale will be deducted all operating expenses, including depreciation and upkeep of dairy machinery. It will then divide the net profits among the dairymen in the proportion of amount and grade of butterfat provided by each, making monthly payments. It will also keep its books open for inspection during office hours and send complete monthly statements with payments.

**The Old and Reliable Dr. Isaac Thompson's EYE WATER**

Is both a remedy for weak, inflamed eyes and an ideal eye wash. Keep your eyes well and they will help keep you.

25c. in all drug stores or sent by mail on receipt of price.

**GALE PLAYS HAVOC AT SAN FRANCISCO**

One Killed, Many Injured and Property Damaged.

GALE BREAKS RECORD FOR 27 YEARS

Plate Glass Windows Shattered and Business Signs Blown Away—Apartment House Falls.

San Francisco.—Life, limb and property paid tribute here Sunday night to a storm said by the weather bureau officials to be the severest that has visited San Francisco for 27 years. Seventy-five miles an hour was the velocity of the wind at 5 o'clock off Point Reyes, and 50 miles an hour off Point Lobos, one of the portals of the Golden Gate.

Henry Chilson, of Los Angeles, was killed here by the storm. Chilson and his wife came here to visit the Panama-Pacific exposition and were to have returned to Los Angeles. He was knocked down by a falling advertising sign, suffered a broken spine and fractured skull and died half an hour later.

Numerous injuries were reported from flying signs and other debris blown loose by the howling southerly gale.

The wind was especially severe on plate-glass windows, more than 100 of which were reported as having been blown in. One window, on the 17th story of an office building, was blown from its frame and struck like a jack-knife in a door at the opposite side of the room.

The storm kicked up a heavy sea on San Francisco bay and ferry traffic was maintained with difficulty. In several cases whole seas swept the lower decks of the ferries, and many of the passengers became seasick and others engaged themselves in prayer.

Several coasters that tried to put to sea turned back after getting a taste of the wind's velocity outside the heads.

The property loss caused by the storm included the destruction of an untenanted two-story frame apartment house, which collapsed under the pressure of the wind. There were no casualties.

**Thirty Warships of Allies Land Large Force on Grecian Soil**

London.—A dispatch from Athens reports the arrival in the Gulf of Orfano (an arm of the Aegean Sea), of 30 large transports full of troops, which began to disembark immediately.

An Athens paper says martial law will be declared January 15, and that the Chamber of Deputies has been summoned to meet on the 17th to ratify the proclamation thereof.

The Athens correspondent of the Daily Mail has had an interview with King Constantine. The king said: "There never was any reason for the suspicion with which we were treated. There were a number of small difficulties with the French and English, but we will do all possible to bring about a complete understanding with the allies. We have no desire but to accord you every facility. The possible umbrage which I felt at some of your actions has quite passed as a result of the harmony prevailing at Saloniki. But I will not be forced out of my neutrality."

**Seattle Coaster Is Killed When Sled Hits Auto; Tacoma Coasters Hurt**

Seattle, Wash.—One boy was killed and several others were injured Sunday as the result of coasting accidents on Seattle's steep snow-covered hills. Russell Marvin, 11, was killed when his sled ran into an automobile.

Sidney Greenberg, 11, suffered a broken leg as the result of a collision between two sleds.

Tacoma, Wash.—Three serious accidents on one hill, all occurring within an hour Sunday night, resulted from the first coasting this season in Tacoma. Two of the accidents resulted in broken legs and the third in a fractured knee cap. Those injured were James Davison, A. M. Cook and Russell Knowland, all young men.

**Huerta's Illness Serious.**

El Paso, Tex.—General Victoriano Huerta, ex-provisional president of Mexico, who underwent an operation here Sunday, was pronounced in a serious condition by his physician, Dr. M. P. Schuster. General Huerta, who had been ill for some time with what the physicians described as jaundice, was operated on for gallstones. It was announced after the operation that the physicians found symptoms of a more complicated disease than formerly disclosed, and expressed fear for his recovery.

**Chicago Thieves Bustle.**

Chicago.—One million, five hundred thousand dollars was stolen in Chicago during 1915, according to figures compiled from police records. This was a \$300,000 more than the tribute levied by thieves on Chicago's public during the year preceding.

Chief of Police Healey has asked the council for 1000 additional patrolmen, and he is confident there will be a considerable decrease in crime if his request is granted.

**NORTHWEST MARKET REPORTS; GENERAL CROP CONDITIONS**

Portland—Wheat—Bluestem, \$1 per bushel; fortyfold, \$1; club, 97c; red Fife, 95c; red Russian, 95c.

Butter—City creamery, cubes, extras, selling at 28c; firsts, 26c; prints, and cartons, extra. Prices paid to producers: Country creamery, 22@26c; butterfat, No. 1, 28c; No. 2, 26c.

Veal—Fancy, 11c@12c per pound. Pork—Fancy, 7@7c per pound.

Hops—1915 crop, 8@10c per pound. Wool—Eastern Oregon, 18@25c per pound; valley, 25@26c; fall lambs' wool, 26c; mohair, Oregon, 28c.

Cascara Bark—Old and new, 3c@4c per pound.

Cattle—Market steady. Steers, choice, \$7.25@7.50; good, \$7@7.25; medium, \$6.50@7; cows, choice, \$5.25 @5.75; good, \$5@5.25; medium, \$4.75 @5; heifers, choice, \$5.50@6; good, \$4.75@5; bulls, choice, \$5.50@4.50; stags, choice, \$5@5.25.

Hogs—Market steady. Prime light, \$6.15@6.25; prime strong, weights, \$6 @6.10; good to prime mixed, \$5.65@5.90; rough heavy packing, \$4.85@5; pigs and skips, \$5@5.25.

Sheep—Market steady. Choice spring lambs, \$7.25 @ 7.50; common spring lambs, \$6.25@6.50; choice yearling wethers, \$6.25@6.75; old wethers, \$6@6.25; choice light ewes, \$5.25 @5.50; good ewes, \$4.75@5.25; common heavy ewes, \$4.25@4.75.

**Tacoma's Apple Crop Nearly Gone.**

Tacoma.—Home-grown apples are about gone for the season, say local commission men. Supplies on hand now are going at a better price and this increases the sales of Eastern Washington apples, which were held back earlier in the season because of low prices of the home product. The crop of local apples was a good one this season and many apples were sold, the dealers and growers both benefiting. Eastern Washington apples hold steady.

Grapes are reported gone for the season. The holiday trade cleaned up what supplies were on hand and dealers say the weather is too cold now to bother with such a commodity. This season saw more grapes sold on the local market than ever before. There were many varieties offered and all were of an exceptional quality that was maintained throughout the season. One of the features of the season was the way in which the grapes were packed for the holidays, some coming in cork-packed kegs and others in lug boxes.

Vegetables with the exception of the root varieties are gone and there is no damage to be expected from cold weather. Shipments of tomatoes from California are becoming smaller. Sweet potatoes are arriving regularly. Netted Gem, spuds are firm at \$23 a ton.

**Creamery Butter Drops.**

Tacoma.—Fresh Washington creamery butter declined this week 3 cents a pound. The drop is attributed to a heavy production of second grade butter. Many of the factories in Washington that have been closed down for weeks for repairs are again in operation. The demand is steady and no further change in prices is expected soon. Fresh Oregon butter is quoted at about the same prices as the Washington product. Washington butter is offered at 29@30 cents a pound and the Oregon commodity at 28@30 cents.

**Market Oats in East.**

There was a fair prospect for a time that Pacific Coast oats, as well as wheat, might be marketed in the East. It was this possibility that caused the recent firmness in local markets, but with the weakening of Eastern prices, most of the gain was lost here. Prices, however, are close to the point that would make such shipments possible, and with a little advance in the East sales of the best Northwestern oats may be made for shipment there.

**That Reo Factor of Safety Is More Than a Mere Sales Term**

50% OVERSIZE IN ALL VITAL PARTS is your guarantee under all conditions.

SOMETIMES WE WONDER if prospective buyers appreciate the full significance of the famous Reo slogan quoted above—or if, perchance, some value it as lightly as they probably do some other mere advertising terms.

YOU NEVER HEAR of a Reo car developing a weakness in any vital part.

YOU KNOW REOS for their marvelous uniformity of excellence in performance and for their economy of upkeep.

YOU'VE BEEN IMPRESSED by the fact that every Reo owner you know is enthusiastic about his Reo—none of that diversity of opinion you've found among owners of some other makes of cars.

BUT HAD YOU STOPPED to analyze the condition and to discover the reason?

SATISFACTION—YES. But that alone is not all. Uniform satisfaction—unanimous enthusiasm among Reo owners—those who use their cars reasonably and equally those who abuse theirs, as you know.

**FIREMEN STUDY FIRST AID**

Mine Rescue Station at University is Utilized to Train City's Workers.

University of Washington, Seattle.—Seattle's city firemen and the employees of the city lighting department are being trained in methods of first aid to the injured, resuscitation and the use of oxygen apparatus at the United States Bureau of Mines rescue station on the campus of the University of Washington.

Last month 20 firemen from different stations in the city were given the course of instruction, and 20 more are registered this month. Night classes are conducted for those whose hours of employment prevent day attendance.

A recent student in the rescue station was Mr. R. A. Dye, a member of the Bureau of mines staff, who was on his way from Washington, D. C., to Alaska, where he will be the assistant of Sumner Smith, United States inspector of mines.

The station is adding to its equipment a lamp testing gallery similar to that used in the Pittsburg station operated by the government. In this gallery various mixtures of explosive gases and air will be made, and with the aid of fans to give velocity the gas will be driven against sundry types of safety lamps in an endeavor to determine under what circumstances an ignition and explosion will follow. The attempt is to duplicate varying conditions in mines where sometimes a concussion following the falling of rock and the subsequent rush of air may force gas into the lamps and cause disasters. Methods of testing for the presence of gas will be taught in connection with the use of the new apparatus. The gallery will occupy a space 8x10 feet.

It Comes to Him Then. The man who isn't used to public speaking always remembers the speech that he intended to say just after he sits down.

In Haste. Willie—Dad, what do the lawyers call a man that's been sued?  
Dad—A pseudonym, William. Can't you see I'm busy?

**Self-Lighting Smudge Pot for Orchardists.**

By the invention of a simple thermostat controlling device, a Los Angeles man has developed an ingenious apparatus for rendering the smudge pots used by orchardists self-operating. The January Popular Mechanics Magazine in an illustrated article. The appliance, which may be fitted to any standard type of pot, is regulated by a small copper rod. When the atmospheric temperature drops to a predetermined point, the contraction of the rod is sufficiently great to release a cup containing an acid. The liquid is poured into a small chamber provided in the smudge pot. This holds a chemical substance which burns upon the addition of the acid, producing a flame that ignites the crude oil used in the pot. The thermostat may be adjusted so as to release the acid when the temperature falls to any specific degree. With this apparatus in use, an orchard may be protected from frost without personal attention being given it.—Popular Mechanics Magazine.
