The Last Act.
Into the jeweler's shop came a simple-looking old chap, with a quaint, old-fashioned kitchen clock under one arm.

"I want you to look at it," he said, as he laid the timepiece on the counter. "and tell me what's wrong."

The jeweler removed the dial of the clock, screwed his magnifying glass into his eye and poked about in the clock's interior.

"Nothing wrong with it now," he announced presently. "It's sufferings are over."

"Well, what do I owe you?" asked the customer, thinking he had repaired the clock.

"Nothing," replied the shopman. "You're mistaken. This isn't professional treatment. It's a coroner's inquest."—Philadelphia Public Ledger.

A Cancellation.
A telegraph clerk in an outlying district of the Sudan found the desolation getting the better of his nerves and telegraphed to headquarters: "Can't stay here, am in danger of life; surrounded by lions, elephants and wolves."

The hard-hearted clerk at headquarters wired back: "There are no wolves in the Sudan."

The next day the desolate one replied: "Referring to my wire of the 15th, cancel wolves."—Philadelphia Public Ledger.

Better Ways.
Progress is no monopoly of the cannon makers. In one issue of the "Electrical World" we note that the Columbus (Ohio) Railway Power and Light company has set out to make its buildings safer. Fire escapes, standard doors, and other improvements have been added along with a rigid system of inspection to prevent the accumulation of waste and grease, so that in three years fire risks and insurance rates have been cut nearly in half. In Johnston, S. C. F. M. Boyd, manager for the Carolina Public Service company, has devised a new type of twenty-five-foot pole with a twelve-foot mast-arm sticking out on the street side so as to keep the poles lined up on the curb but get the wires away from the beautiful old elms and water oaks that are the glory of Johnston's highways. Anyone who has seen the ruin and mutilation left by fanatical tree trimmers will appreciate Mr. Boyd's device. The Ohio Electric Light association reports that its members have saved from three to five cents per ton on all coal handled at certain of their power houses by putting in an eight-hour day for firemen. This ought to interest the old-timers who think twelve hours' toil an inalienable right for engine-room workers. These three items cover vital subjects and are only part of the gist in one issue of a live technical journal. That's how our United States goes along—Colliers.

Then I decided to black the stove myself, and right in the midst of it who should call but Mrs. De Style." "What in the world did you do?" "Just put some more blacking on my face, went to the door and told her I wasn't in. And off she went, saying she would call again."—Boston Transcript.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sensitive Wash I am fully cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these distressing ills; it contains what is needed to restore woman's health and strength.

PRESIDENT CALLS MILITIA FOR DUTY
Troops To Be Sent to Mexican Border for Immediate Service.

WAR VESSELS ORDERED SOUTH

Carrazza's Demand for Withdrawal of Pershing's Expedition Brings Crisis in Border Trouble.

Washington, D. C.—Virtually the entire mobile strength of the National guard of all states and the District of Columbia was ordered mustered into the Federal service Sunday night by President Wilson. About 100,000 men are expected to respond to the call.

They will be mobilized immediately for such service on the Mexican border as may be assigned to them. General Frederick Funston, commanding the border forces, will designate the time and place for movement of guardmen to the international line as the occasion shall require.

In announcing the orders Secretary Baker said the state forces would be employed only to guard the border, and that no additional troop movements into Mexico were contemplated except in pursuit of raiders.

Simultaneously with the National guard call, Secretary Daniels, of the Navy department, ordered additional war vessels to Mexican waters on both coasts to safeguard American lives.

Within the last two weeks, however, tension has been increasing steadily. The crisis presented by General Carranza's note demanding the recall of General Pershing's expeditionary force has been followed by a virtual ultimatum served on the American officer by General Trevino, the Mexican commander in Chihuahua. To this was added Sunday the possibility that American and Mexican troops had clashed across the border from San Benito, Texas.

Militia of Every State in Union Called for Guard Duty on Border

Washington, D. C.—President Wilson has called out the militia of every state for service on the Mexican border.

In announcing the President's decision late Sunday, Secretary Baker said the militia would be sent to the border whenever and as fully as General Funston determines them to be needed.

Brigadier General Alfred Mills, chief of the division of militia affairs, estimated the minimum militia force which would respond to the call as 100,000 men.

Oregon Guard Mobilizing.
Salem—Immediate mobilization of all the units of the Oregon National guard was ordered Sunday night by Governor Withycombe, who notified Adjutant General White to proceed with mobilization upon receipt of an urgent message from Secretary of War Baker, requesting such action.

In his message to the governor, the Secretary declared that he was instructed by the President to request the mobilization of all the National guards of the different states.

Washington Militia Gathering.
Seattle—Adjutant General Maurice Thompson, of the Washington National guard, received orders early Sunday night for the mobilization of the Washington militia. The Washington militia will mobilize at American Lake, south of Tacoma.

Adjutant General Thompson immediately issued orders to the various company commanders to assemble their companies at their home stations and to recruit to full war strength of 142 men for each company.

Idaho To Be Ready in Three Days.
Boise, Idaho—Adjutant General P. H. Crow said Idaho will mobilize 1000 guardsmen within three days. The men are to be brought together at Boise. Lieutenant Governor Taylor issued the call for mobilization shortly before midnight Sunday.

Mexico Asks Volunteers.
Chihuahua City, Mex.—Fervent efforts to bring every unit of the Carranza army of the north to the greatest possible strength for service in the event of hostilities with the United States are being pushed here. A message from General Obregon, Mexican minister of war, directed General Trevino, commanding the northern division, to urge patriotic citizens to volunteer "to fight the American army, in case of a rupture of relations," and to prevent "the further raiding of American territory by armed bandits."

War Declared in Redding.
Redding, Cal.—About 50 Mexicans who are employed on an irrigation ditch construction gang near here engaged in a street fight with several Americans here Sunday night in the restricted district. After the disturbance was quelled by the police, aided by deputy sheriffs, 15 Mexicans were placed in jail, many of them severely injured. Knives, stones, clubs and bats were the weapons used by the fighters. Six men were stabbed.

GIANT POWDERS
Lift them out

Ordinary powders and dynamites waste much of their energy by shattering and pulverizing. To get the best results in land-clearing operations the explosives should disrupt, crack, split and heave the stumps and at the same time lift and remove the roots for easy handling. The explosives that do this are

GIANT FARM POWDERS
STUMPING—AGRICULTURAL

—made by a Western Company especially to meet Pacific Coast conditions. More than 2,000,000 pounds used every year for stump blasting in Washington and Oregon alone.

There are two Giant Farm Powders—Giant Stumping Powders for wet soil and Eureka Stumping Powder for blasting in dry soil. They do their work at the lowest possible cost.

Test one case. Compare it with any explosive that you have ever used. After you have blasted a dozen stumps you will understand why those who have once used them always continue to use Giant Farm Powders.

It tells how to save money in land-clearing. It shows how to make land-clearing easier by using Giant Farm Powders. Live on \$8 a Month.
University of Washington, Seattle—Those who frut and stey over the high cost of living received an awful jolt this semester, when two students and two alumni of the university admitted that their total individual living expenses for the semester, including telephone and electric lights, averaged \$8 per month. The men live in a co-ty furnished houseboat on Lake Washington, close to the campus. They do their own housekeeping and cooking and have cut their expenses to the minimum, although enjoying most of the comforts of home.

Each man takes his turn week by week at doing the work, and friction is unknown.

WONDERFUL HOW RESINOL STOPS SKIN TORMENTS

The soothing, healing medication in resinol ointment and resinol soap soothes and cools the irritated skin, and usually stops itching at once. The resinol treatment speedsily heals eczema, ringworm, and similar eruptions, and clears away disfiguring pimples even when other treatments have been almost useless.

Resinol is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for twenty years. Every druggist sells resinol ointment and resinol soap.—Adv.

"ANURIC"
The Latest Discovery in Medicine.

Why Suffer From Backache, Lumbago, Rheumatism?

It is now asserted with confidence that these painful effects due to uric acid in the system are entirely eradicated. A remedy, called "ANURIC," has been discovered by Dr. Pierce in his hospital practice, which he believes is thirty-seven times more potent than lithia, and is the cause of a drainage outward of the uric acid with which it comes in contact within the body. It will ward off backache, headache, and the darting pains and aches of arthritis or muscular rheumatism—of those diseases which are caused by too much uric acid, such as gout, asthma, sciatica, or sore, stiff, aching joints.

When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, nervousness, drowsiness, irritability. "ANURIC" purges the blood.

because old people usually suffer from hardening and thickening of the walls of the arteries, due to the excess of uric acid in the blood and tissues.

Dr. Pierce, chief physician at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of overworked and weakened kidneys. The relief obtained by sufferers has been so satisfactory that he determined to place "ANURIC" with the principal druggists in town where people could get this ready-to-use medicine.

"ANURIC" is not harmful or poisonous, but aids nature in throwing off those poisons within the body which cause so much suffering, pain and misery.

If you want quick relief buy it now—or send Dr. Pierce 15c. for trial pkg., or \$1.00 for full treatment. This will prove to you that "Anuric" eliminates uric acid from the system as hot water melts sugar.

Pete, the hired man, was known for his prodigious appetite. One morning he had eaten a normal breakfast of oatmeal, buckwheat cakes, toast, fried potatoes, ham, eggs, doughnuts, coffee and the usual trimmings, and gone to the neighbor's to help with extra work.

Pete arrived before the family had risen from the morning meal.

"Well, Pete," hospitably inquired the farmer, "had breakfast yet?"

"Aw," drawled Pete in a wheedling tone, "kinda."—Everybody's Magazine.
