## The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

**Silence of Operation**—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

**Decimal Tabulator**—A help in billing and calculating. There is no extra charge for this convenience.

**Variable Line Spacing**—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in clerical work.

**Faster Ribbon Feed**—Insures new place of impact for each typeface.

**Choice of Carriage Return**—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable pattern, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

L. C. SMITH & BROS. TYPEWRITER COMPANY

Factory and Home Office, SYRACUSE, N. Y., U. S. A.

207 MORGAN BUILDING  
PORTLAND, OREGON.

Considerable planking has been laid in front of the Ferguson store and new tie posts placed where they will be convenient.

Cady and Pegg have opened a sale this week which will be an eye opener to the buying public and will prove a fair competition with the big sales of Portland.

The Misses Alice and Jennie Watts entertained the members of their Sunday school classes last Wednesday afternoon. The time was spent in playing games in the basement of the church and on the lawn. Refreshments were served during the afternoon.

### First Prohibition Drink Canned.

After a long period of inactivity the city hotel was opened long enough the other evening to receive a guest who had over indulged in the forbidden cup. The man detained gave his name as Peter Thomas and was apprehended after he had stolen groceries and a shot gun from some Italians. Among the things taken was a bottle of good old Italian wine, and the wine was his undoing. He drank it to the last drop and it got the better of his faculties and before he could board a car he was caught, or rather picked up and placed in in the city bustle. Later he was taken to Hillsboro where the Grand Jury will indict him and turn him over to the Circuit Court on a charge of robbery.

### Ice Cream Social.

A delightful ice-cream social was held Sunday evening on the lawn at St. Cecilia's church. Due to the coolness of the evening the crowd was not large but otherwise the event was very successful. Games and refreshments were the diversions of the evening.

Attorney H. T. Bagley of Hillsboro was in Beaverton calling on friends last Thursday.

Dr. Carlens has just completed a fine new garage on his property on Floty Hill.

M. Welter is building a new barn on the place which was formerly occupied by W. C. Warren.

Matt Zimbrick of southwest of town is spending a few weeks with his brothers at Sodaville, Oregon.

W. H. Trayer of Hillsboro, father in law of G. W. Baker of Beaverton, is reported as being in a critical condition.

FOUND—Dark bay mare star forehead weight 700 lbs. Owner can have same by paying for adv. and feed bill.
