New Road Proposed.

A new and direct route for a wagon road to Portland has been proposed with a great likelihood of the project being carried through to completion within the year. The proposed highway will begin at Beaverton at a point on the east side of the Oregon Electric Railway to track and continue to the S. P. crossing where it will follow the right of way by Motts and connect with the Raleigh road. From Raleigh it will assume an easterly direction practically paralleling the S. P. tracks till it meets the Multnomah county road on the east.

The Multnomah officials have promised to hard surface their part of the road over the hills to the county line, and there is good assurance that the highway when completed will be accepted as a state thoroughfare and receive state aid.

County Judge Reasoner has stated that he is heartily in favor of the new road. A committee has been appointed to gain the necessary signers for the petition and as soon as possible work will be commenced.

When this part of the highway has been completed the remainder will be opened along the S. P. track west to Hoodville where it will meet the main Hillsboro road and thus will avoid the many twists and turns made by the present highway.

Although Washington county will not hard surface a new method of laying the rock will be employed which promises a very substantial and long lasting finish, and later on it is hoped that hard surface may be laid.

Among the many advantages of the new road will be the absence of heavy grades the steepest

age grade being 5 per cent and less. This will also afford one of the most direct routes from the valley into the city and will, no doubt, encourage the Portlander to establish his home on this side of the hills and ridor to and from his work in the city.

The local Chamber of Commerce held a meeting last Thursday evening to discuss and plan the new work and it is more than likely they will take a very active part in securing the road.

All the small boys around town are having a bully time these days down in the "old swimmin' hole."

NEWS LOCAL AND PERSONAL

A Portland paper has discovered that there are very few perfect feet among the girl students of one of our colleges and another paper has discovered a girl with perfect feet. Probably because the first woman was made of a man's rib.—Ed. More than likely what we should like to know is what business a newspaper editor has looking for perfect feet and feet.

Otto Erickson drove Clyde & Pegg's new delivery car in from Portland last Tuesday. This is the second car of this description which Otto has placed with local firms this season.

Carl Spies and Bill McCallen of Elmtonia were in town Monday on business. At one time these two were heavy tag-team men and are still in the ring.

G. L. Thompson has some fine geese; looks like they will taste pretty good by Thanksgiving.

Considerable hay was caught in the heavy rains of the past several days.

Miss Matilda Kamberger of Castle Rock, Wash., spent Saturday in Beaverton, visiting the new Kamberger twins. After looking over the foregoing which was handed in to us we understand better why John shaved off his mustache—he was celebrating.

Chas. Jones our municipal artist takes quite a fancy to the collection of different species of butterflies, millers and moths and is quite an authority on the butterflies of Oregon.

Harry Barnes baritone soloist of Beaverton Band entertained his many friends of the west end with his choicest solos every evening.

George Hughson and wife have moved into their home in this town. It seems nice to live in the city.

W. E. Pegg reports that his new auto hours has arrived, and it is certainly a beauty.

James Hunter of Hillsboro is the champion rock breaker of that section for the season 1915.

Joe Corrieri has one of the fine home gardens in the city. John Yrachuel Jr. was elected school director in Beaverton.
