Lost in London.
Patriotic Scots Lady (patrolling Vic-
toria line station to assist any of her
stranded countrymen arriving from the
front)—Can I help you in any way?
Perplexed Scot—Thank you, ma'am.
Is the train for France the station?
—London Punch.

Poor Pickling.
"What's the matter?" asked the
first flea. "You looked starved."
"They are making these top dogs
so natural," explained the other flea,
"that I arranged to summer on one of
them by mistake."—Louisville Courier-Journal.

Good, No Matter What.
The Officer (after a complaint)—
This tea's all right. What's the com-
plaint?
Tommy—It ain't tea, sir; it's stool!
The Officer—And very nice stool!
—London Sketch.

Optical Astonishment.
"Feeling as believing," said the ready-
made philosopher.
"Not always, when you are looking
at the movies."—Washington Star.

Falling in Line.
"I am going to a preparedness meet-
ing, my dear, of our club."
"All right, William. You had better
leave me all the loose change you have
about you."—Baltimore American.

About Oregon

Survey Begins Soon

Under the supervision of Thomas G. Gordon, head of the Northwest Division of the United States Geological Survey, preliminary arrangements are now being made to make the permanent survey of the Clatsop quadrangle, which includes the north limit of the map will be in the vicinity of Olney, and the whole will cover an area of 600 square miles. So far as possible, previous government surveys in connection with local irrigation projects, and national forests and other land matters, will be utilized. The maps are of great value to the nation, covered, as they show all natural features, including contours, and are made with the utmost accuracy.

Willow Factory Thrives

Oregon—Oregon has a thriving up-to-date willow factory. About a year ago, upon solicitation, Harry Johnson came to Oregon and started the enterprise, and in one year's time has proved it to be a successful venture. He now has orders for baskets and furniture calling for immediate and future delivery and is then obliged to reject many orders. The enterprise has proved that it is a new source of a living can be made by raising first-class willows for a factory trade, and working all second and third grade willows into rough wood and market baskets.

Mill Capacity Doubles

Astoria—F. W. Swanton, manager of the Astoria Flouring mill, announced this week that the capacity of the company's mill is to be increased to 1800 barrels per day. This means that the output of the local plant will be more than doubled in capacity when the party rates go into effect at the mouth of the Columbia river. The machinery necessary will be ordered at once.

When the mill was constructed, provision was made to install a new line of machinery without disturbing the operation of the plant.

Corn Grain Yields Heavy

Salem—Standing oats that reach to the shoulders of a man on horseback and that yield more than 180 bushels to the acre when threshed are not uncommon in the Coos Bay country, according to J. A. Moorman, a farmer of that section, who visited the state-house recently. Barley has produced 80 bushels an acre, while a small planting of wheat showed better than 125 bushels to the acre. Mr. Moorman's farm is river bottom land with a heavy deposit of leaf mulch on the surface.

Two Get State Pensions

Salem—The State Industrial Accident Insurance commission has made provision for beneficiaries under the compensation act. For Ambrogio Tomba, an employee of the Pacific Lumber & Gypsum company, who sustained a broken back June 10, 1915, when he fell off a truck car, \$7074.55 was held in trust. If he lives out his expectancy he will receive \$14,156. The widow and two children of G. W. Sanders, who died last month, are entitled to \$18,618 if Mrs. Sanders does not marry again and the children attain the age of 16.

Linn Plans Fine Display

Albany—Linn county will have a splendid exhibit at the State Fair this fall. This has been decided upon by the County Court, and County Commissioner Irvine has been delegated to collect and prepare the exhibit. For several years preceding last year Linn county did not exhibit at the State Fair. One was entered last year on a small scale but this year the county has engaged more space in the exhibit pavilion and proposes to make a first-class display.

Neighbor Packing Grows

Hood River—The community packing house system of handling apple crops continues to grow in the Hood River valley, and no less than a half dozen such institutions will be in operation this fall. The latest community organization was formed recently by O. B. Nye, A. H. Barry, Medford Reed and A. Canfield, who have secured a centrally located building on the West Side, where they will install a large grading machine and handle their apple crop co-operatively.

Many Want New County

Bend—Unexpected success is being met with by the circulators of the county division petitions, according to reports brought in to Chairman J. S. Ekins, of the local committee. Many signatures are being secured in the Sisters-Taraboon sections by volunteer workers, while locally the number of signatures increases every day. The petitions will be presented to the county court at its September meeting.

Peppermint Growing Is Success

Salem—The peppermint growing experiment made during the past year on several Ankeny Bottom ranches promises to produce satisfactory results, according to Ralph Wells, who is interested in the venture. A company has been formed and a still for extracting the oil now awaits the first crop. Something more than 50 acres have been planted.
