Congressman W. C. Hawley Entertained

Most of the business men were the guests with Congressman Hawley at a luncheon given him last Tuesday noon in the dining room of the Commercial Hotel.

Following the meal Mr. Hawley was called upon to elucidate some of the questions which are being agitated during the present campaign. He responded with a talk upon Federal Banks, Rural Credits, and Free Trade.

During the course of his speech he said that tariff was no longer an issue, and stated that it was not because there was no longer any doubt in the minds of the American people concerning it. The need of a protective tariff is a recognized necessity.

Judging by the reception given Mr. Hawley the business men are lining up on the right side.
