**ASTOUNDING REPORT
FOR BEAVERTON**

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-I-ka benefited her INSTANTLY. Because Adler-I-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICK-EST action of anything we ever sold. L. R. Dean, druggist.

IDAHO IS A BIG STATE

Larger Than All New England With Maryland Added.

To those of us who remember Idaho in our school geographies as a small pink block, shaped like an easy chair facing east, it may be of interest that this state, which in 1890 added the forty-fifth star to the constellation of the flag, is nearly as large as Pennsylvania and Ohio combined and larger than the six New England states with Maryland included for good measure. It is divided into thirty-three counties, the smallest of which is half as large as the state of Rhode Island and the largest greater than the combined area of Massachusetts and Delaware.

Idaho covers an area of 83,888 square miles, divided principally between the Rocky mountain region and the Columbia plateau, only a small part in the southeast corner of the state lying in the great basin. In elevation above sea level the state ranges from 435 feet, at Lewiston, to 12,078 feet at the summit of Hyndman peak. It is drained mainly to the Columbia through the Snake river and its tributaries and has an annual rainfall of about seventeen inches, the range in a single year at different places being from six to thirty-eight inches.

The industries of the state are chiefly agriculture, stock raising and mining. Hay, wheat, oats and potatoes are the principal crops. A large area is cultivated by irrigation. The mineral production includes gold, silver, copper, lead and zinc.—Geological Survey Bulletin.

Both Died as They Wished To.

Tennyson, who was a shy, reserved man, could never understand Robert Browning's love of society. He had been heard to remark that Browning would die in a white choker at a dinner party. The two poets died as they would have wished to die—Robert Browning in the grand Palazzo Rospigliosi, with his son by his bedside, and Lord Tennyson in his beloved Surrey home, surrounded by his loved ones.
