Gasoline, Oils, Tires, Tubes, and a Full
Line of Accessories—Ladies' Rest Room

Three strong reasons urge you to buy the Ford car: First, because of its record of satisfactory service to more than fifteen hundred thousand owners; Second, because of the reliability of the Company which makes it; Third, because of its large radiator and enclosed fan, streamline hood, crown fenders, front and rear, black finish, nickel trimmings, it is most attractive in appearance. To these must be added its wonderful economy in operation and maintenance—about two cents a mile; likewise the fact that by reason of its simplicity in construction anyone can operate and care for it. Nine thousand Ford agents make Ford service as universal as the car.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Young Musician Gives Creditable Recital

A. P. Carlson, the young musician who gave a recital in the Grange Hall before a well filled house Monday evening, showed considerable talent and gave a very interesting program produced entirely by himself. His rendition of several difficult pieces was excellent and the familiar strains of the old time fiddlers jigs brought back memories to the older members of the audience.
