OTTO ERICKSON

Authorized Ford Agent

Service Station

Gasoline, Oils, Tires, Tubes, and a Full
Line of Accessories--Ladies' Rest Room

Three strong reasons urge you to buy the Ford car: First, because of its record of satisfactory service to more than fifteen hundred thousand owners; Second, because of the reliability of the Company which makes it; Third, because of its large radiator and enclosed fan, streamline hood, crown fenders front and rear, black finish, nickel trimmings, it is most attractive in appearance. To these must be added its wonderful economy in operation and maintenance--about two cents a mile; likewise the fact that by reason of its simplicity in construction anyone can operate and care for it. Nine thousand Ford agents make Ford service as universal as the car.

Touring Car \$360; Runabout \$345; Coupelet \$505;
Town Car \$595--f. o. b. Detroit

BEAVERTON TIMES
EVENING TELEGRAM

1 Year \$5.25

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

BEAVERTON ASTONISHED BY MERCHANTS STORY

A merchant relates the following: "For years I could not sleep without turning every hour. Whatever I ate caused gas and sourness. Also had stomach catarrh. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-ka relieved me INSTANTLY." Because Adler-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. L. R. Dean, druggist.

Scholls Telephone Company Elects.

At the annual meeting of the Scholls Telephone company January 18, J. W. Raynard was re-elected a director for three years and Carl Pfahl of Cornelius was the new director selected. Other directors composing the board are E. C. Mulloy, Ferd Groner and J. A. Mott, the latter of Beaverton. Officers of the past year have been E. C. Mulloy, president; and J. W. Raynard, secretary-treasurer, and the election means no change of officers. The company during the past year has made many improvements.--Independent.

Three of the local young men left last Monday for Billings, Montana, via private car. Their intentions when they left were to go eastward and meet spring on its way west. Their friends are all wishing them good luck. The party was composed of Archie Ferguson, Arnold Clasen and Edward Hinchey.

Summons

In the Circuit Court of the State of Oregon for Washington county.

Fillie Ekin, plaintiff, vs. J. M. Stone and Mary Stone, his wife, E. L. Patterson, defendants.

To J. M. Stone, and Mary Stone his wife, and E. L. Patterson defendants.

In the name of the State of Oregon: You are hereby required to appear and answer the complaint filed against you in the above entitled court and cause within six weeks from the date of the first publication of this summons, to-wit: on or before the 15th day of March, 1917, the last day of the time prescribed in the order for the publication thereof; and if you fail therein the plaintiff, for want thereof, will apply to the court for the relief demanded in said complaint, viz: For a decree that plaintiff recover judgment against defendants for \$390.00 and interest thereon at 8 per cent per annum from June 6, 1915, and \$50.00 attorney's fees and costs and disbursements. That the mortgage dated June 6, 1914, securing said debt be foreclosed; that defendants and all persons claiming under them be barred and foreclosed of all right, title, interest or claim in and to the mortgaged real property situated in Washington county, Oregon, to-wit: The west half (W1/2) of tract numbered 168 in Beaverton Resdville Acreage; that said real property be sold and the proceeds applied on said judgment and judgment over for deficiency, and for such other relief as may seem equitable.

This summons is served upon you by publication in the Beaverton Times, a newspaper printed, published and having a general circulation in Washington county, Oregon, in pursuance of an order duly made and entered by the Hon. Geo. R. Bagley judge of the above entitled court, dated January 29, 1917, directing that the same be published in said paper once a week for six weeks, and the date of the first publication is Feb. 1, 1917.

C. A. APPELGRIN,
Attorney for Plaintiff.

701 Chamber of Commerce,
Portland, Oregon.

Notice to Creditors.

Notice is hereby given that the undersigned has been by the County Court of Washington county, Oregon, appointed executor of the last will and testament of Anton Barandun, deceased, and has duly qualified as such.

Now therefore, all persons having claims against said estate are hereby required to present the same to me with proper vouchers at the law office of H. T. Bagley, in Hillsboro, Oregon, within six months from date hereof.

Dated this February 1, 1917.
GEORGE KIEN, Executor.
H. T. Bagley, attorney. 45t5

RIVERS FROM GLACIERS.

These Ice Born Streams Gush Forth Milky White in Color.

Some rivers are formed by a rather slow process. Fed by springs or small ponds, they issue forth as mere rivulets to be re-enforced by other streams until they have reached a size that entitles them to be termed rivers. Some, like the St. Lawrence, having their source in some extensive lake, pass through an intermediate state, but proceed as full fledged rivers directly upon their course to the sea.

Others emerge with a rush and roar from the heart of glaciers located far up on the sides of lofty mountains. The waters of these glacier born rivers are not crystal clear, as many suppose, but are milky white, due to the lava dust and powdered scoria contained in the ice mass. This color the waters retain for miles as they flow through the lowlands, proclaiming their parentage to the observant eye.

From the rugged sides of Mount Rainier, which rises to a height of over 14,000 feet and which John Muir declares America's noblest mountain, twenty glaciers radiate like the arms of a gigantic starfish. From each of these springs a river.

The great Nisqually glacier, one of the largest on the mountain, is 400 feet in height. From a cavern in the ice mass a large stream, called the Nisqually, bursts forth with a boom and goes rushing down the valley and finally empties into the waters of Puget sound. It is seldom indeed that one witnesses the formation of a river under such favorable surroundings. James G. McCurdy in St. Nicholas.

A FLOATING FORTUNE.

The Right Kind of Whale Is Heavily Freight With Wealth.

First let us dispel the popular idea that a whale is a fish. It is not a fish, but an animal. It feeds its young with milk. And even though it lives in the water it can be drowned. A fish extracts oxygen from the water and takes it through its gills. But the whale has to rise to the surface and get a supply of oxygen from the air. When it does this it spouts water to make room for air, and the fishermen say, "There she blows!"

A whale has a large, flat tail, about eighteen feet across. Every fish has an upright tail. That is because fish need their tails only to act as rudders. But a whale, when he needs oxygen, has to beat down the water and get to the surface in bounds. That's the reason his tail is flat.

The balen, or whalebone whale, carries all the whalebone in his mouth. It hangs down from his upper jaw in a vast network. He eats the smallest sort of jellyfish, etc. Having no teeth, he swims right into a shoal of thimble.

Cent Washington personally undertook this conversion. After pointing out to the farmer what advantages he would reap from having the government for a neighbor the great man concluded:

"But for this opportunity, Mr. Burns, you might have died a poor tobacco planter."

"Aye, mon," snapped Burns, "and had ye no married the Widder Custis, w' all her nagurs, ye'd ha' been a land surveyor the noo and a mighty poor one at that."

However, when he learned that unless he accepted the liberal terms offered him his land would be condemned and seized at an appraisal probably much lower Burns met the president in quite another mood and to the final question, "Well, sir, what have you concluded to do?" astonished every one by his prompt response:

"Whatever your excellency wad hae me."

On one of his fields now stands the White House, and an adjacent lot became Lafayette square.
