Gasoline, Oils, Tires, Tubes, and a Full  
Line of Accessories--Ladies' Rest Room

Three strong reasons urge you to buy the Ford car: First, because of its record of satisfactory service to more than fifteen hundred thousand owners; Second, because of the reliability of the Company which makes it; Third, because of its large radiator and enclosed fan, streamline hood, crown fenders front and rear, black finish, nickel trimmings, it is most attractive in appearance. To these must be added its wonderful economy in operation and maintenance--about two cents a mile; likewise the fact that by reason of its simplicity in construction anyone can operate and care for it. Nine thousand Ford agents make Ford service as universal as the car.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**GIRL'S STATEMENT WILL  
HELP BEAVERTON**

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. L. R. Dean, druggist.

Shark Stories.

A shark is very tenacious of life, and Dr. Gunther, the ichthyologist, pointed out in one of his contributions to the literature of his subject that "wounds affect fishes generally much less than higher vertebrates. A Greenland shark continues to feed while his head is pierced by a harpoon or by a knife as long as the nervous center is not touched."

A Norwegian antarctic explorer, H. J. Bull, gives a startling word picture of a shark's tenacity of life. This man-eater was caught at the Iceland cod-fishery. His liver, heart and internal arrangements were removed so as to put a period to his career, and the thus mutilated body was then cast into the sea. He simply gave a leisurely wag of his tail and swam rapidly out of sight.—Chambers' Journal.

No Wonder.

Mrs. Crabshaw—Don't cry, Willie, I'm not going to punish you this time, for you hurried when I called you, Willie—Boo-hoo, mamma! I fell down stairs!—New York Times.

Good Talker.

"You talk well on the subject in which you are most interested," said the impertinent girl.

"And what is that?" asked the man, scenting a compliment.

"Yourself!" said the impertinent girl demurely.—London Answers.

**Blossom Time in  
the Golden State**

A friend just back from Southern California says: "The weather was fine, in fact too warm for heavy clothes. Many were bathing at the beaches. Oranges were ripe in the valleys, while the mountains nearby were covered with snow."

With warm sunny weather it will not be long before the blossoms on the trees will be everywhere announcing that spring is here.
