

HONOR GUARDS AND WAR WORK

Many young ladies throughout this country are giving of their services freely to the war work of America. Oregon is no exception and throughout this state hundreds of devoted young women are giving freely of their time to make lighter the suffering which war brings to fighting men and waiting women.

HELP THEM IN THEIR WORK TODAY

The Beaverton Times, recognizing the merit of the work these young women are doing in Beaverton, has offered to give one-half of all subscription money secured by these young ladies to the fund which enables them to carry on their work. The response from these young women has been so unanimous and spontaneous that we have decided to extend it to all the state and surrounding districts.
