**War Savings Department.**

The objects of the Thrift and War Savings campaign are to promote systematic saving and self denial on the part of every American so that labor and materials now employed in the production of things which are not essential to our daily life may be used in the production of war materials, and supplies, to encourage economy and thrift in the community to raise money for equipping our boys at the front so that the war may be brought to a speedy close and liberty and free government "shall not perish from the earth."

Oregon's apportionment is seventeen million dollars during 1918—\$584,000 is the share of Washington county. This means that we must get on a basis of \$44,500 War Savings per month. Our sales up to April 23 were \$88,711, or about 50 per cent of our requirements to be up to schedule. The eyes of the nation are on Oregon and the eyes of Oregon are on Washington county on account of the magnificent work in the Third Liberty Loan. Every loyal citizen ought now to put his shoulder to the wheel and get Washington county right up to schedule on War Savings.

The Junior Rainbow Regiments have been formed in Oregon. Boys and Girls who have sold \$50 or more of W. S. S., Washington County has: 10 members in the first regiment; 29 members in the second regiment; 36 members in the third regiment; 75 boys and girls who have been out "winning the war."

If you haven't started buying war savings stamps "do it to-

day." Buy a 25 cent stamp every day.

**The Right Kind Of A Man For SENATOR**

R. N. Stanfield.

**Robert N. Stanfield**

FARMER, STOCK RAISER AND PRODUCER.

The State is entitled to the active services of a man who knows how to work, work for the State generally and work for the people of the State, both individually and collectively.

Oregon does not need any orators for orators are a drug on the market, and like constitutional lawyers, they do not get anything.

The Federal Government needs all the assistance Oregon can give, but it is not receiving it because it has not been put up to the department on a business basis.

Today business men are having more to do with the government affairs than ever before. We are spending twenty-four million dollars a day and the people who will pay this money are the people who actually create wealth, the farmer, the producer and the toiler.

Our prosperity depends upon our continued industrial activities and every one of these should be maintained at maximum capacity.

The prosperity of the small farmer, the small producer and the small manufacturer is as essential to the State and the Nation as the prosperity of the big man; every one of our occupations should be given equal consideration regardless of the amount produced.

Every encouragement must be given to increase production and this can be obtained only through assurance that the small farmer as well as the big man is going to receive his proportionate share of the war expenditures, and that there will be a market for his products and a profit to him for his work, based proportionately upon his cost of production.

There must be an equality in all phases of our State and National industry, and the small fellow must not be forgotten, overlooked, or crowded out through the rush for big things, big orders and big accomplishments.

If the people of this State want a business man, a worker, a man who knows, is thoroughly acquainted with every phase of the industrial situation in Oregon, a man who is capable, honest and fearless, a man who has by his own labor and through his advancement aided in the progress and development of Oregon, they want
