THIS IS YOUR INVITATION TO ATTEND.

Local Dealer Has Fordson Tractor Agency for County

(Continued from Page One.)

the farmers, so will the Ford tractor prove its worth in the time of the nation's need.

Otto Erickson is just the man to put them in use here and the farmers will not be slow to respond to the announcement that the makers of the utilitarian Ford car are putting out a practicable tractor to meet the needs of the farmer in this season of war stress, especially when it is backed by a firm with the standing of the Otto Erickson Co.

The Ford Tractor will be a practical machine for the small farm and two or three of them will be equally as practicable for the larger farm. Just as the Ford is the utility car for the farmer and businessman who wants to do his hauling and delivering cheaply and well, so is the Ford Tractor the premier economist for farm labor. You will make no mistake if you buy a Ford tractor for your farm work. They are built for the needs of the American farmer at war and they will not fail him in his hour of need. And you will make no mistake by buying this reliable tool through the recognized agency of the Otto Erickson Co., who have established themselves in this county by years of careful, upright and unquestioned fair dealing.

TEACHERS ELECTED AND WOOD CONTRACT IS LET

W. F. Desinger Will Supply Fuel
and Miss Gladys Legg and
Mrs. Wilson Instructors

The school board has held two meetings recently and on July 8 elected Miss Gladys Legg of 785 East Main Street, Portland, to teach domestic science and art

and such other subjects as may be assigned to her at a salary of \$100 per month.

At the same meeting the bids for wood were opened and the contract to supply the district with fuel was awarded to W. F. Desinger, his bid being the lowest submitted. A proviso of the award is that no stick of wood be of over 10 inch face.

Another meeting on July 6, elected Mrs. Belle Wilson to teach the seventh and eighth grades at a salary of \$90 per month and instructed A. A. Pike to secure new grates for the furnaces in the grade school building.
