The Ford automobile engine, illustrated here, like all internal combustion engines, requires an oil that holds its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust.

ZEROLENE LIGHT fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

"Zerolene is the Best"

—Say leading motor car distributors, because the records of their service departments show that **ZEROLENE**, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

Most cars are now lubricated with **ZEROLENE** because their owners have learned through experience that there is no better oil.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

The National Food Administration mathematicians have figured out the number of teaspoons one should limit himself to under the new allowance of two pounds per person per month. There are just a little over six level teaspoonfuls daily for each consumer. This amounts to one and one-fifteenth ounces. If you save even the fraction over your six spoons, this goes into the reserve. You can measure your patriotism by the spoonfuls you don't use.

Two Wars to Win.

"Both wars must be won, against germs here and Germans over there; keep the enemy on the run."

This is the slogan of the second annual Northwestern Tuberculosis Conference, representing Oregon, Washington, Montana, Wyoming, Utah and Idaho, which will be held at the Hotel Davenport, Spokane, September 27 and 28 under the auspices of the National Tuberculosis Association. The general objects of the conference are to discuss matters of special interest to the northwestern states; to bring the facilities and aid of the National Tuberculosis Association to bear more closely on local problems and to provide a place of meeting and attend the annual meetings of discussion for those who cannot attend the annual meetings of the National Association.

The Way to Buy.

"Buy until it hurts," "Give until it hurts," are two expressions that are often used, the one referring to the purchase of Liberty Bonds and the other to contributions to the Red Cross or the Y. W. C. A. or kindred work.

Both are fundamentally false in meaning. They should be sent to the scrap heap of rubbish and supplanted by "Buy until it helps" and "Give until it helps."

Do not for one moment vainly gloriously think that this means until it helps the country or the Red Cross or the Y. M. C. A. organizations. It means buy or give until it helps YOU and gives YOU a clearer understanding of your responsibility.

"Buy until it helps" you by broadening your vision of the war and the struggle to save civilization.

Buy Liberty Bonds not out of the surplus which you can spare without feeling.

Buy not merely because the strengthening the nation's power to fight.

But buy because your soul

needs the quickening influence of a wider conception of liberty and humanity and civilization. And the more freely you buy the greater will be the ennobling of your own soul. You will be helping yourself, and in that way you will at the same time be helping the nation and civilization.

It is no act of charity to buy Liberty Bonds. It is merely contributing a moiety out of your ability, great or small as it may be, for the purchase of the engines to stop the conflagration which, having swept over much of the world, is sweeping directly toward your house, and you must save your house by your own work, or else recreantly throw upon your neighbors the responsibility of saving you, while you stand off and shirk your duty.

Buying Liberty Bonds is to save YOUR wife, YOUR mother, YOUR daughter, from the last degradation which women can suffer, as in Belgium and France, and to save your property and your nation from destruction.
