Writing from the front in the new offensive under date of the 26th of September, Vincent Fitzpatrick tells his sisters, Misses Mary and Jennie Fitzpatrick of the local post office, that he, Leon Davis and James Emmons have been sent back to the front with their battery after a very short rest. The battery was filled up with new recruits to replace the casualties and all of the rest period was filled with drill to instruct the new men who had never been under fire.

They have now fought on four fronts, the Soissons, Alsace-Lorraine, Chateau Thierry and the Marne.

They have recently met Frank Rossi, Phillip Holsheimer and Richard Underwood, Beaverton boys who are in another company on the same front.

LOST—An old gray horse. Notify Chas. Bernard, Beaverton, if you find it. 43

Clerk C. E. Hedge has received word from Prof. J. D. Brehaut that he will not accept the superintendency of the local schools which was tendered to him. The result is that another selection will have to be made. Several applicants have been here to see the Board the past week.

The Times is in receipt of a communication from Thomas E. Parker in response to a letter sent out by the Fourth Liberty Loan committee. It is one of many which come from those loyal sons of America whom circumstances have forced to buy their liberty bonds where they work rather than where they live. He has bought bonds of both the Third and Fourth loans and is working hard to help build ships for Uncle Sam. He has a brother in France, two more in cantonments here and a third in an officers training camp. The Times would print this communication but for the fact that it is like many others, a sort of reply to the letter of the committee. When men do their duty as T. E. Parker has done, the Liberty Loan committee wants to know only the facts and we mention this only that it imparts the good news that Mr. Parker has asked for a transfer and will be here again soon with his family and working in a Portland shipyard.

## 'OLD GLORY' FLIES ON GERMAN SOIL

Here is an American commander in Alsace accompanying a French general in his review of a Yankee contingent billeted in a town where the trench line in the Vosges has invaded territory under the German flag when the war began.

## Remember to stop your clock an hour Saturday night.

Officially this should be done Sunday morning at 1:00 o'clock, but those who do not care to sit up until that hour may safely turn the clock back before retiring tomorrow night and rest assured of waking up in time with the world Sunday morning.
