Experts Say

"ZEROLINE IS BETTER"

—because it holds better compression, gives better protection to the moving parts and deposits less carbon.

Zerolene is the correct oil for all types of automobile engines—the correct oil for your automobile.

STANDARD OIL COMPANY
(California)

The "T" Head type engine, illustrated here, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the cylinders and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.
