FORMER GROVE GIRL IS MARRIED IN NEW JERSEY

From the Montclair, New Jersey, Times, we take the following item concerning the recent marriage of a daughter of Dr. and Mrs. W. N. Ferrin, formerly of Forest Grove:

Miss Livia Ella Ferrin, daughter of Dr. and Mrs. William Nelson Ferrin, was married to Dr. Francis Paul O'Brien on Friday afternoon of last week at the home of the bride's parents, No. 142 Watchung avenue. The ceremony was performed by Rev. Allen Ferrin, uncle of the bride, in the presence of a number of friends and relatives.

The bride wore a gown of blue georgette over silver with silver trimming. The house was decorated with marguerites and Dorothy Perkins roses.

Miss Ferrin took her master's degree at Columbia University and during the war assisted Dr. Thorndyke in government statistical work.

Mr. O'Brien took his doctor's degree at Columbia, and has charge of Americanization work in New Brit-

in, Conn., where he and Mrs. O'Brien will live.

Dr. and Mrs. O'Brien will spend July and August at their summer home in Northern Pennsylvania. —Washington County News-Times.

NEWSPAPERS IN ART CLASS

Newspaper printing is to be included in the art displays at the Oregon Land Products show at Gresham September 15-20. A critical study of some of the best Oregon newspapers show that the artistic balance, contrast and composition, especially of the front page, justify the action of the show committee. Other papers lay more stress on utility in both typographical style and make-up. —O. A. C. Press Bulletins.

There are more luxuries in France than in this country. Where anthracite coal is \$80.00 a ton, butter \$1.40 a pound, beefsteak \$1.00 and up, eggs \$1.60 a dozen and milk 20 cents a quart, these must all be reckoned as luxuries.

A bumper wheat crop is being harvested in this section.

COUNTY AGENT NOTES.

THE FIFTH MOLE PELT POOL JULY 21-26

The fifth mole pelt pool of the season will be held July 21st to 26th, says County Agent Jamison.

On those dates mole pelts will be received at the office of the County Agent for shipment to the best markets, as were previous pelts.

Eastern buyers still complain of a number of the shippers who do not take the pelts off "open" and who do not spread them in the oval shape. Some trappers still persist in taking off the pelt wrong and out or "cased" and then spreading them open, while the proper method is to first split the pelt from the chin to the root of the tail then taking it off skin side out over the legs cutting these off at the first joint and cutting the feet off last after the pelt is removed, the pelt is then spread fur side down, using the 16 pins to insure a good stretch. No preservative is added and during hot weather should be dried in the shade under a screen.

Pelts are increasing slightly in value and a higher average price is expected than for previous pools.

COUNTY WILL ERADICATE CANADA THISTLES

Avigorous campaign all over the county is to be undertaken against the Canada thistle which is fast becoming a serious weed pest to the farms in this section.

The Court has devised an efficient reporting system which will keep them advised as to farms containing the thistles and whether or not any thing has been done in way of control. Notices are being sent out daily to farms on which it is known there are thistles, asking the co-operation of the owner or occupant in the eradication of this weed.

The laws enacted by the last legislature make it possible for the Court to go in on the land and remove the thistles where no action has been taken by the owner or occupant and the cost of this work may be charged against the land in the form of a lien, it also provides that persons owning, possessing or having charge of any land improved or unimproved, inclosed or uninclosed who knowingly permit the Canada thistle to stand until the blossom falls and its seeds begin to form shall be subject to a fine of not less than \$25 or more than \$50 for the first offence, and for the second not less than \$50 or more than \$200.

It is believed that it will not be necessary to take action as provided by the law in this county as the seriousness of the situation is becoming well known and the property holders will be more than willing to assist in the prevention of the further spread of this weed. Should it be necessary, however, the procedure as authorized will be taken.

Watch Out For Fires

The warm dry season is coming on. Clean up your premises by cutting the weeds and clearing out all rubbish and thus assist in preventing fires.

Until the luxury tax came into effect, perhaps you did not know that candy and ice cream and chewing gum and face powder were luxuries. You will not, however, entertain any doubts on this head for some time to come.

FOOD PRICES ARE HIGH IN THE EAST

It may be of interest to News-Times readers to review some of the food prices that now prevail in the East and compare them with those obtaining at home. In the Montrose, New Jersey, Times, a copy of which is before us, we note the following prices:

Strictly fresh eggs, 75c. per dozen; Leghorn broilers, 62c. lb.; Plymouth Rock broilers, 65c. lb.; R. I. Red broilers, 68c. lb.; roasting chickens, 46c. lb.; fricassee chickens, 44c. lb.; turkeys, 48c. lb.; guinea hens, pair \$2.25; squabs, pair \$1.15; ducks, 3 lbs. to 3½ lbs., each, 45c. lb.; geese, 42c. lb.; year old roosters, 32c. lb.; roast beef, 37c. lb.; sirloin steaks, 37c. lb.; shoulder of lamb, 34c. lb.; bacon squares, 38c. lb.; new potatoes, 35c. lb.; cauliflower, 18c. and up; green beans, 10c. quart; navel oranges, 28c. dozen; bananas, 30c. and up; cantaloupes, 10 cents and up.
