

#### Don't Delay Home Canning

The United States Department of Agriculture again urges housekeepers not to neglect nor delay home canning, drying and preserving. Fruit, sugar, and containers may be expensive, but even at the prices being charged for them a saving in household expenses can probably be made by filling the pantry shelves while there is an opportunity to do so. There is no indication that the usual margin of difference in cost to the consumer of home and commercial products will be lessened. Moreover, a well-stocked pantry now assures a more varied, attractive and wholesome diet next winter.

Home demonstration agents and club leaders of the department and the State agricultural colleges will give all possible assistance. Housekeepers who desire copies of the department's canning directions may obtain them immediately and without cost by addressing the Division of Publications of the United States Department of Agriculture at Washington, D. C. Canning directions may also be obtained in many cases from the State agricultural colleges.

Teddy the Second does not like the Bolsheviks. He has adopted the slogan of "Meet 'em Head On."

## WORLD JEWRY AT GREATEST CRISIS

Leaders in America Striving to  
Save Race in Europe From  
Destruction.

**MUST SEND AID QUICKLY.**

Children Are the Most Pitiful Sufferers  
From the Cataclysm That Has  
Ruined a Once Prosperous  
People.

The Jews in almost every country of the world except America are in a state more dire and terrible, perhaps, than any in which they have found themselves since the fall of Jerusalem. Briefly, the Jewish race in much of Europe is on the verge of annihilation.

The countries in which the plight of the Jews is the worst are Poland, Czechoslovakia, Yugoslavia, Rumania, Serbia, Galicia, Palestine, Turkey, Greece and Siberia. In Vilna, a typical town of Poland, the Jewish population has been cut down by starvation, typhus and other diseases in the last five years from 90,000 to 45,000. Nearly half of the survivors are dependent upon relief supplies sent by their co-religionists in America. Warsaw, Kovno, Constanza, and many other cities throughout Central and Eastern Europe tell the same tale.

American Jews, aroused by the reports that first filtered through after the signing of the armistice, immediately organized under the American Jewish Relief Committee, of 15 East 40th Street, New York City, to save their race abroad. They sent some 20 commissioners to various foreign countries to investigate the truth of these reports. Almost all these commissioners have now returned and the first-hand information that they have brought back is more alarming than the early unsubstantiated reports. Such men as Nathan Straus, Henry Morgenthau, Julius Rosenwald, Jacob H. Schiff, Felix M. Warburg, and many other prominent members of this committee are now bending every effort to arouse America to the great need abroad and rush the food and supplies across the ocean which, if sent quickly, will save the Jewish race from destruction.

Saddest of the victims of all this woe are the children. Tens of thousands of pitiful youngsters who are seven or eight years old have gone so long undernourished that they are little further developed than normal infants of one or two years. In the Polish cities orphaned children wander about the streets, homeless and unable to get into the orphanages. These are already overcrowded and depend primarily upon American relief funds to keep them going.

### JEWISH RELIEF WORK IS NOW WORLDWIDE

Christian as Well as Jewish Sufferers Are Aided by Organization That Covers Many Countries in Europe and the Orient.

Quietly, and practically without publicity of any sort, the Jews of America have built up, through the American Jewish Relief Committee and other official agencies, a machine for the organization and distribution of relief to war sufferers of their own and other races that is now practically worldwide. The headquarters of the Committee are at 15 East 40th Street, New York. Expenditures for this work now aggregate more than \$2,000,000 a month, and by means of state-by-state campaigns to be held

this fall a total of \$35,000,000 is to be sought to finance the work through the coming months.

An enumeration of the countries in which relief efforts are being made is indicative of the scope of the work. Representatives of these Jewish agencies are to be found in Poland, Czechoslovakia, Yugoslavia, Galicia, Serbia, Rumania, and other Balkan states, Greece, Turkey, Palestine and Siberia. Small groups of refugees, cast up by the backwash of war, are being assisted in Holland, Japan, China and other isolated parts of the globe.

All told, many million Christians and more than 6,000,000 Jews in countries other than the United States are being directly aided by American Jewish relief funds. The major portion of this humanitarian work is of course carried on in Eastern Europe. It is there that the bulk of the world's Jewish population lives. The fact that these same nations have been perhaps hardest hit by the late war, explains why World Jewry is at the greatest crisis in its history.

But though the Jews of America have set out to save their race from destruction, they are not forgetting that their own people are not the only sufferers in these lands. The significance of the whole undertaking becomes apparent when it is known that the relief supplies which have been purchased and shipped largely with Jewish funds are distributed without discrimination to Christians as well as Jews. Barriers of race and creed have been submerged in the flood tide of suffering throughout much of the earth, and the efforts of American Jewry to aid in the great crisis of today have become as broad as humanity itself.

A dollar saved is a dollar made.

#### WORK ON NEW CHURCH NOW IN PROGRESS

The work of excavating for the foundation for the new Congregational Churchbuilding in this city which is to succeed the one which was destroyed in the disastrous conflagration which occurred here on Sunday, July 20th, when a \$75,000 fire swept the town, was commenced today.

The new structure is planned on the same lines as the Sunnyside Congregational Church of Portland and is to cost about \$25,000, much of the money for which has already been pledged.

The new church building is to occupy the public square in about the same position as the one recently destroyed, but being set back about forty feet from the street.

The Forest Grove Congregational Church is one of the oldest organizations of its kind in Oregon, and the church which was destroyed last July was the second one to be burned down.

E. E. McClaren, of Portland, is the architect, and the erection of the building will be under the direction of J. S. Loynes, a local contractor and builder.

Those in charge of the work of building have purchased the brick which were left in the ruins of the Odd Fellows building, an agreement having been reached whereby the church secures all the brick for \$1,100. They will be cleaned and piled up ready for the brick masons. It is hoped that the weather will remain favorable so that the work of construction may be well advanced yet this fall.

Mr. Loynes is an excellent builder and has some of the best buildings in the city to his credit. He was the superintendent of the construction of the new auto garage recently constructed by Wiles Auto Co. and Chalmers & Wilson Co.

Those in charge of the securing of funds are pushing the work rapidly forward and feel certain that sufficient money will be available to build a church edifice that will be a credit to the church it represents and the community in which it is to be erected. Quite a number of business and professional men not connected with the church have signified their willingness to contribute liberally to this good cause.
