#### LET THE PRODUCER PRODUCE

Greater production is a crying need  
of the day, and because of the devas-  
tation in Europe the bulk of this bur-  
den falls upon America.

We must increase our production.

We must feed the world and we  
must eat at the same time. We must  
furnish the implements of cultivation  
and manufacture, and we must have  
them for our own use. Greater pro-  
duction alone can do this.

Future disagreements between cap-  
ital and labor should be settled "out of  
court"—in other words, without re-  
course to the paralyzing results of a  
strike.

Surely the government and congress  
can devise some tribunal which will  
have the authority to settle all dis-  
putes and enforce its decisions on  
both sides alike, doing equal justice  
to all and injustice to none.
