

MARVELSEAL

Marvelseal Liquid Roof Cement is a weatherproof compound for protecting, preserving and renewing roofs and metal siding. Just one coat is needed on any surface.

Marvelseal is made from tough, elastic gums, waterproof oils and pure Canadian long fibre asbestos, the fibre is the same as used in making fireproof theatre curtains or fireproof mats. This is the pigment used to give the cement body and to form a mat which prevents the cement from cracking or running no matter how steep the roof or how hot the sun.

The oils are a combination of gilsonite gum, vanish, heavy pine pitch and preservatives.

The cement adheres firmly to the entire surface, forming a tough tenacious coating, and will renew the roof for at least ten years.

A new roof treated with Marvelseal as often as ten years or thereabouts will make the original roof last as long as the building.

For any kind of Roofing, Marvelseal gives service and protection on crete, canvas or gravel roofs. On porous concrete roofs, wood shingles or old composition roofing that has become spongy through injury, wear or neglect, it enters the pores and acts as a powerful preservative, at the same time providing a tough, durable and weathertight coating.

Out They Go!

Silly city ward-healers like to kid themselves about "delivering the farmer vote." In Ontario they had notions like that last fall—and the farmers took the bit in their teeth, kicked the politicians out and elected a farmer government. Now, at the beginning of an election year, is a good time for our own politicians to take a leaf out of the Canadian notebook, says

The COUNTRY GENTLEMAN

For the farmers of America are united in thought and action as never before.

Consider the National Farm Bureau Federation—no politician can lead those men by the nose! Pulling together, they have determined, in effect, that the farmer shall no longer be the national goat. Acting together, they can prove that the farmer is not a profiteer, and they can have about anything they want. Every farmer should know what the united farmers are doing these days. And so he should read the Great National Farm Weekly—THE COUNTRY GENTLEMAN. A year's subscription will cost you only \$1 and it will keep you up to date on every farm question.
