

**What H. C. L.
Really
Means!**

Town folks think it's High Cost of Living. Farmers know it's High Cost of Loafing—not on the farm, where the day is sixteen hours long, but in factories and shops, where the workers want to quit after six or seven hours. This H. C. L. plus the H. C. S.—the High Cost of Spending—are the sky-rockets that keep prices up, says

The COUNTRY GENTLEMAN

I wish you'd read about The High Cost of Loafing in the Great National Farm Weekly. It would be worth the subscription price of \$1.00 a year to you!

Farmers need to get together to combat these city-bred notions that the high cost of living originates on the farm, and they can do it better through THE COUNTRY GENTLEMAN than by any other means. The fair-minded town folks need to reconstruct their silly ideas and find out

what H. C. L. really means, and they can complete their education for \$1.00 by subscribing now for THE COUNTRY GENTLEMAN. I'm selling the greatest reading bargain on the market today—32 big, interesting, helpful weekly issues of THE COUNTRY GENTLEMAN for only \$1.00.
