CENSUS TAKER

USE AIRPLANES
Everything from aeroplanes to snowshoes is being used by the agents of Uncle Sam in taking the 1920 census of the United States. About the only modern method of transportation either on, over, or below land or water that has not been employed in enumerating Uncle Sam's niece and nephews seems to be the submarine. Aeroplanes have come in handy in enumerating the dwellers on the islands off the coast of Florida; yachts and rowboats have been used in the harbors of the country; native canoes have been in demand among the Hawaiian Islands; "Zivvers" are being used everywhere; the tried and trusted mule team has carried the census takers out on the desert regions; and snowshoes have become the trusted aides of the census gatherers in the northern states and Alaska.

In the central part of New York state, near Oswego, a few days ago an enumerator making his rounds on snowshoes arrived at an isolated farm dwelling only to find that an able-bodied man was needed more than a census gatherer as the man of the family had been sick in bed for several days and the farm animals were suffering for lack of food and water. The census man, like any

Where to Find Us.

The Times office has been moved to the old bank building between the Beaver Garage and Hardware Co. and the W. P. McGee stores, just east of the post office. There you will find Mr. Carruth at all times, ready to do your printing. The Times will have an office with him and as soon as we are able, we expect to have someone in charge of it. In the meantime, Mr. Carruth will receipt for subscriptions, receive advertising and news copy, or provide you with desk, tablet and pencil so that you can write copy for the paper. As Mr. Carruth has his own work to do, we respectfully ask our patrons to refrain from asking him to write about items. If you want to tell us about news, write it out and leave on our desk, or call Mrs. Jonas on the telephone.

BIG PROFITS

Perhaps you have been interested in Mr. Boyd's article which has been running for the past two weeks and is concluded in this issue. It is really a good tip to anyone who is not already a devotee of good gardening. But the thing that has interested us most is that this is only one of the big opportunities for making profits in Beaverton.

The other morning we rode down to Forest Grove on the train with Walter Harris, superintendent of the electrical equipment on the Southern Pacific lines here. He told us that the shops' payroll in Beaverton is about \$6000 per month; that seven or eight men, who work there are living elsewhere because they cannot get suitable houses here in which to live; that at least half a dozen trainmen live up here at night and sleep and get their meals as best they can; that the other evening a new operator arrived in town; that he found suitable rooms almost impossible to secure and so took his family back to town. Mr. Harris told us more of conditions at the shops, but this will suffice. Now the point is this. These men will spend at least 75 per cent of their earnings in Beaverton if given the opportunity. They would be steady renters of small modern houses if we had the houses to rent. What better inducement could one ask to invest a reasonable amount of money in the right kind of houses?

Dozens of people are already making reasonably good profits on poultry. A cannery would find a ready market for its product and a big territory of rich lands to furnish it raw material. A small cannery here, properly managed, would be a profitable venture for a man who knows the business. There is no jeweler in Beaverton.

On Monday morning of this week, March 1st, your Uncle Samuel, by direction of his humble servant, Woodrow Wilson, President of the United States, acting under direction of Congress, by official proclamation returned the railroads of the country to their original owners after having taken them over and operating them as a war measure during the past year. The passenger train schedule remains as it has been heretofore, except that the train run which formerly stopped at Orenco has been extended to Forest Grove, arriving here at 10:30. This train will carry baggage cars from Portland with merchandise freight, allowing delivery at 7 A. M., as formerly arranged before the war. Another train leaves Forest Grove at 10:50 P. M., arriving at Portland at 12:05.

OREGON WEATHER AGAIN PREVAILS IN THIS LOCALITY

This vicinity has experienced a very unusual winter, say the oldest inhabitants. There has been but little rain compared with the ordinary Oregon winter and we have had many cool frosty nights and mornings. The dry spell was broken Monday night when a slight skiff of snow fell. This was followed by rain on Tuesday and Wednesday and we are now experiencing some real Oregon weather with the gentle rain coming softly down. With just a little more moderation of the temperature the weather will be ideal. It will mean goodbye to the "flu" grip, pneumonia and colds.

O. A. C. CLUB ORGANIZED

Last Saturday a group of former O. A. C. students (mostly graduates of that institution) met in the Commercial Club Rooms in Hillsboro and organized an O. A. C. Club. The object of the club is for the encouragement of higher education, and to promote sociability among its members. All graduates and former students of O. A. C. are eligible to membership. The following officers were elected: President—J. C. Leedy, Beaverton. Vice President—Mrs. M. E. Hoff, Scholla. Sec. -Treas.—C. L. Bump, Forest Grove. It was decided to have a Jolly-up Meeting the 20th of March, and all graduates, former students and present students of Washington County are most cordially invited to attend. The following committee was named to make all arrangements for the meeting: N. C. Jamison, Miss Johnston, A. J. Schott, and Carl A. Johnson. Further notice will be given when details are arranged.

BE CONTENT WITH A REASONABLE PROFIT

"One of the reasons that Huber and Aheia are building faster and more property is changing hands than at other towns in the county is that lots may be had close to the station at a reasonable figure," remarked a well-known resident of that section to the Times publisher the other day. There is truth in his assertion. Too much of our property is held at figures much above what the owners honestly know it to be worth. A lot that cost \$100 a year ago is not reasonably worth \$600 today. A house that could have been bought last season for \$1000 is making at least a fair margin of profit if it sells for \$1500 today. Here is work for the Commercial Club. If the properties for sale here were listed, fair valuations placed on them by impartial judges, based on distance from station, desirability of location and probable future value and these lists made available to the prospective investor for his protection, it would go a long way toward convincing local property holders that a reasonable profit is enough and it will in time inspire confidence with outside people and redound to the benefit of the town.

RADICALS PLUS RADICALS

Look at Russia—a nation in the hands of radicals! Would you like to live in Russia? Would you like to see this country transformed into another Russia? Radicalism made Russia what it is today—radicalism on both sides. The czars of Russia have been the greatest radicals of modern times—probably of all time. Their radicalism was all in favor of plundering the poor in favor of the rich and favored class. Now the czar is rotting in an unhonored grave—murdered by another set of radicals—the peasant bolsheviks. The rich and favored are no longer rich or favored. They are being plundered and murdered by a few short months ago. A case of dog eat dog. But take a look at our own country. View the situation without malice and without passion. Capitalistic greed and radicalism are fomenting a dangerous radicalism among the laboring classes. Radical labor leaders are continually stirring up strife and enmity toward all capital. Each wants to swallow the other at a gulp, and neither is willing to meet the other half way and adopt a conservative basis of adjustment or difficulties. There are brains and common sense among both the capitalists and the laborers. But in both camps radicalism makes a big noise and conservatism dances to the music. Throw out the radicals on both sides and we Americans will be able to view bolshevistic Russia with pity rather than with apprehension. A radical is a radical, in whichever camp you find him.
