POISONING GOPHERS

To Western Farmer:

I have read a great deal in Western Farmer regarding the poisoning of gophers. Being an old farmer myself, I have had some experience in this work and send you my plan, which is as follows:

When plowing in the spring I take a vaseline bottle containing poisoned wheat and drop some in every hole that goes down. I also have some t. n. c. and mix it with what is left of the food they have saved up for the winter.

This may be of some value to the readers of Western Farmer, so I pass it along.—Silent Observer, Hoff, Or.

HANDKERCHIEFS ARE DE-CREED SQUARE BY ROYALTY

Did you ever know that handkerchiefs are square by royal decree? There used to be a time when they were made in whatever shape the user fancied. But this sort of irregularity greatly displeased Queen Marie Antoinette who made the suggestion one evening at Versailles that better taste would be evident if they were all made in uniform shape. Louis XVI promptly issued a decree in the early days of 1785 that all pocket handkerchiefs must be cut with right angle edges.

Young man, do not be contented to farm as your father farmed. He did not have your opportunities, nor did he have your markets nor your resources. Live up to your opportunities.

THIS IS A DEMOCRACY HELP TO SPREAD ITS GOSPEL

Government is so much the concern of every citizen of the United States that in these days of distracting speeches, the need of KNOWING the Constitution of the United States has made itself felt. The POSSESSION of such knowledge is the best possible antidote for any loss of faith in the ideals of our Nation. The knowledge of the Basic Law on which our Government rests today puts even the newest citizen in a position to sift out fact from mis-statements.

MARRIAGE SALARY SET BY BANK AT \$125

Book of rules for employees of the Federal Reserve Bank of Chicago circulated a few days ago, says: "No male employee receiving less than \$125 a month will be permitted to marry while in the service of this bank, without first taking the matter up with the chief clerk."

WARNS NATION OF RED PERIL

U. S. Department of Justice Urges Americans to Guard Against Bolshevism Menace.

CALLS RED PLANS CRIMINAL

Press, Church, Schools, Labor Unions and Civic Bodies Called Upon to Teach True Purpose of Bolshevik Propaganda.

Washington.—Calling for the patriotic support of all true Americans in its fight to protect their homes, religion and property from the spreading menace of Bolshevism, the United States Department of Justice has issued a warning against the insidious propaganda of the "Reds" during the new year. It reads:

"It would be extremely helpful to the cause of good government, the maintenance of law and order and the preservation of peace and happiness in our country if the people on this New Year's day would resolve to study, understand and appreciate the so-called 'Red' movement. They can counteract it most effectively by teaching its purpose through the press, the church, the schools, patriotic organizations and labor unions, all of which are within the range of its insidious attacks.

"Red" Theories Criminal.
"The 'Red' movement does not mean an attitude of protest against alleged defects in our present political and economic organization of society. It does not represent the radicalism of progress. It represents a specific doctrine—namely, the introduction of dictatorship the world over by force and violence. It is not a movement of liberty-loving persons, but a distinctly criminal and dishonest movement. Lenin himself made the statement at the Third Soviet Conference, 'Among one hundred so-called Bolsheviks there

Chas. Berthold

is one real Bolshevik, thirty-nine criminals and sixty fools." It advocates the destruction of all ownership in property, the destruction of all religion and belief in God. It is a movement organized against Democracy and in favor of the power of the few built by force. Bolshevism, syndicalism, the Soviet Government, sabotage, etc., are only names for old theories of violence and criminality.

Russian Labor Crushed.
"Though their adherents in this country are advocating and fomenting strikes, Lenin and Trotsky forbid strikes, and trade unions are being broken up and completely subordinated to the will of the few demagogues in control in Russia. This Bolshevik experiment on the living body of the Russian people has not proven in any sense of the word an experiment in Democracy. The Bolshevik leaders frankly repudiate democratic principles as we understand them. It has been a gamble which meant for Russia, and, indeed, for the whole of humanity, enormous losses in lives as well as in material resources. The Bolsheviks have run up a colossal bill which the Russian workmen and peasants will have to pay.

"Reds" Menace America.
"Having lived at the expense of the Russian people for two years, these speculators in human lives and other people's earnings are trying to move to new fields to the east and to the west, hoping to take advantage of the economic distress and confusion of mind in which humanity finds itself after the terrific strain of five years of war.

"Its sympathizers in this country are composed chiefly of criminals, mistaken idealists, social bigots and many unfortunate men and women suffering with varying forms of hypersthesia. They are enemies of the government, of the church and of the home and advocate principles which mean the abolition of all three of these safeguards of civilization.

Would Rob Everybody.
"Twenty million people in this country own Liberty Bonds. These 'Reds' propose to take away 9,830,000 people in the United States own farms and 3,833,000 more own homes, which they would forfeit; 11,000,000 odd people have savings accounts in savings banks and 18,000,000 people have deposits in our national banks, at which they aim. There are hundreds of thousands of churches and religious institutions, all of which they would abolish. In other words, 110,000,000 hard-working and saving people who own property, love liberty and worship God are asked to abandon all the ideals of religion, liberty and government, which are the outcome of the struggles of their fathers and their own development, and to place themselves, their homes, their family and their religious faith in the keeping and their property under the domination of a small group of Lenins and Trotskys.

Protection Premised.
"This department, as far as existing laws allow, intends during the forthcoming year to keep up an unflinching, persistent, aggressive warfare against any movement, no matter how cloaked or dissembled, having for its purpose either the promulgation of these ideas or the excitation of sympathy for those who spread them. The movement will not be permitted to go far enough in this country to disturb our peace and well-being or create any widespread distrust of the people's government. It will fall away before the light of popular knowledge and appreciation of its aims and purposes."

ENOUGH OF A WARNING

Wife—Well, dear, I shall have to do the cooking now. Cook left without warning this afternoon.

Husband—Not exactly without warning. She told me this morning I had bring home some disappais tablets this evening, but I didn't quite understand what she meant.

Many a young man whose home is on the farm gets the idea that the city offers greater inducements to him, much greater than the old farmstead. This is, indeed a sad mistake, as is seen in thousands of cases. Many a boy has spent a number of years of the best part of his life "chasing rainbows" before he awoke to the realization of the fact that after all the farm was the place for him.

THANK GOD FOR WORK

In order to be able to look our grocer, our butcher, our coal dealer and our ice man squarely in the face, we are obliged to work, and in spite of the fact also that occasionally we look at our plutocratic and proletarian neighbor with envy, we are most of the time in a state of mind where we simply and reverently thank God for WORK.

The world—and that simply comprehends the mind of man—is in a ferment.

St. Paul knew life, he knew what he was talking about when he said, "Let him that stole steal no more; but rather let him labor, working with his hands the thing which is good, that he may have to give to him that needeth."

After all of the wise men have proclaimed, after all of the teachers have taught and the preachers have preached, after all of the Socialists have socialized and the idealists have idealized, after all the demagogues have fooled and the slackers have slackered, to their hearts' content, we will some day get back to the common sense of things and realize that God Almighty knew what was best of mankind when he said to Adam, "In the sweat of thy face shalt thou eat bread."

Mrs. A. H. Ellerson received a bad fall recently when she stepped on a slippery board near the barn.

The Corner Grocery Club met at McGee's Store Monday night. Under the heading "Who is Who," one of the brothers wanted to know if a "Dutchman knew Sour Croust?" He said that his old time friend, Pete Van Dehey, was presented with a jar of sour croust and told him to come back for more as he was afraid some would spoil, so Pete got another jar; later another, and the other evening the cook said, "Say, Pete go in and help yourself!" so Pete went in the cellar and brought out a jar, started for home, when the cook said, "Hold on, let me have a look at that jar"—it was apple sauce!

The next order of business was a short talk by one of the oldtimers on "Corn." He said the Corn crop had control of the matrimonial question. Sweet corn represented the "courtin' days," pop-corn "poppin' the question" and broom-corn "sweepin' the ole man out of the door after the honeymoon."

About this time a stranger dropped in. He said, "Say fellers I had some hard luck tonight, while going through the woods just outside of town with a keg on my shoulder, I stumbled over a log, the keg got lost in the brush. Will you help me find it?"—the meeting adjourned.

means of prevention of the various tractor troubles, including lubrication, ignition, and motor timing. Accordingly, a three day tractor school was arranged in January 1919, in co-operation with the department of Farm Mechanics of the Oregon Agricultural College and the various county tractor dealers. Fifty eight tractor owners or prospective owners attended this school. One of these men stated that the information he secured was worth a hundred dollars to him. Others expressed themselves in like fashion and it was voted to make this school an annual event. Difficulty in securing a suitable place in which to hold it made it impossible to stage the school this year, however.

Just now Mr. Jamison is busy with plans for the Jersey Jubilee and is seeking the assistance of local organizations and individuals in making it the feature of the livestock industry this year.
