Accountants employed by the state to conduct an audit of the books and records of the state treasurer's department will complete their work this week, according to unofficial announcement. The report will be submitted to Attorney-General Brown, who will send it to the Marion county grand jury. The grand jury recessed nearly two weeks ago, but it is believed the body will be reconvened this week when the investigation will be resumed.

Members of the Oregon Jersey Breeders' association will hold a three days' jubilee in the Willamette valley beginning May 3. The purpose of the tour of the valley is to ascertain at first hand what is being accomplished along the line of improving the Jersey breed.

The Astoria Amateur Wireless association, with E. P. Hawkins, president; Carl Josephson, vice-president; E. A. Smith, secretary and treasurer, and a charter membership of 18, was reorganized April 1. The former organization was discontinued at the outbreak of the war.

The Oregon State Bar association, through its grievance committee, has filed proceedings in the supreme court asking that George A. Hall, an attorney of Portland, and John N. Selva, an attorney with offices at Oregon City, be disbarred from practicing their profession in Oregon.

Pine Valley residents are making another effort to divide Baker county. It is proposed to cut off what is called the Panhandle, once a part of Union county but later annexed to Baker, and form a new county. The great distance from the Panhandle to Baker, the county seat, is the source of dissatisfaction.

Reports from the Long Creek and Muddy Creek districts in Baker county are to the effect that a second winter is being experienced, and hay is becoming so scarce that there is a real possibility of a severe loss of stock if the winter lasts much longer. Because of the snow, all farm work has been discontinued.

Practically all the laws passed at the special session of the legislature last January, with the exception of those vetoed by Governor Olcott and others contingent upon approval of the voters at the election to be held on May 21, will become operative April 17, according to announcement made by Sam A. J. G. This was done at a cost of \$98,475, or approximately \$10 saved to \$1 spent. County agents were employed in 23 of the 38 counties of the state last year and three additional counties have employed agents this year.

Opinions of attorneys have extinguished hopes of members of the Hood River Anti-Asiatic league, who had proposed that an exclusive initiative law for Hood River county be invoked for preventing Asiatics from owning land in the case of failure of state or national legislation regulating the land tenure. While the initiative, as result of an enabling bill enacted by the last legislature, may be invoked for the regulation of officials' salaries, municipal or special legislation pertaining particularly to the counties, attorneys declare land tenure of a general nature.

By far the highest prices in the history of the industry on the Columbia river will be paid for Chinook salmon during the season which opens at noon on May 1, if the demands of the fishermen prevail. The Columbia River Fishermen's Protective union has set the price at 14 cents a pound for small or canny fish, those weighing less than 12 pounds each, and 19 cents a pound for large, or cold storage fish, those weighing 12 pounds each or over. This is an advance of 2 1/2 cents per pound for small fish and 4 1/2 cents a pound for large fish over the figure which prevailed last year.

52¢ How would YOU like a raise like this?

—and for 34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plan, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

SIGNS OF THE TIMES

Have you noticed the sign that appeared this week on the Main street of Beaverton? It stands right out from the building and is nicely painted on both sides. It's a home product and was painted by E. E. Swenson, and is a neat specimen of work. It now tells everybody that "JOB PRINTING" is done at our shop, and is a standing invitation to you to come in and get your printing done here.
