Frank Pritzlaff Seriously Injured One hundred dynamite caps exploded in the hand of Frank Pritzlaff, aged 28 years, early Monday afternoon, while he was trying to route a squirrel from its hole on the old Austin Buxton farm now owned by Ernest Ruster. The left eye was put out and 60 caps were driven into the body. Pritzlaff had put a cap on a fuse and was putting the fuse in the squirrel hole when it went off prematurely and the jar exploded in his hand. An ambulance was summoned and he was rushed to a Portland hospital. He is getting along.

Mr. Morris Weil, who has been in the hospital at Portland for the past three weeks, underwent an operation Tuesday of last week, and seems to be getting along nicely. Morris went to France with Base Hospital 46, and one of the surgeons who operated upon him was in his command, Dr. Yenseny.

Monday, April 26th, was the 101st anniversary of the institution of the Odd Fellows lodge and on Saturday night the event was celebrated by a musical and social program. The families of the members were invited. One interesting feature of the program was the presentation of the veteran jewels to members who had belonged to the lodge 25 years. Those who were at this time presented with them were C. Jack, Jr., E. L. McCormick and G. A. Wehrung. The evening was a very pleasant one to all present.

Louis Humberg, of Forest Grove, has formed a partnership with W. S. Guyta in the Main Street blacksmith shop. Mr. Humberg worked here several years ago, so is no stranger in this city.

The engagement of Miss Janet Hoefel, daughter of Mr. and Mrs. L. C. Hoefel, of Witch Hazel, a former High School girl, of this city, was recently announced, to Dr. Leo L. Kinney, a prominent dentist, of Portland. The wedding will occur some time this spring.

Tualatin Chapter O. E. S. entertained, at their regular meeting Tuesday night of last week, about forty-five members of Forest Chapter, of Forest Grove. Two candidates were initiated, after which a most pleasant social time was enjoyed.

THE CAPITOL

News of General Public Interest at the County Seat.

Mrs. M. N. Lewis has purchased the office room, formerly occupied by the Electric Company, and has given the county nurse the privilege of occupying it for a year, free of charge. The Northwest Power Company, that owns the land, has agreed to allow the building to remain where it is for a year. The Hillsboro Community committee of the health association, has taken it upon themselves to see that it will be properly furnished.

The death of Mrs. Ruhanna Prosser, of Albany, came as a shock to her many friends in this city, for although they knew that for some time she has been in poor health, they little dreamed the end was so near. She was a daughter of the late John Landeen, and was born at Scholls, October 20, 1855. She was married to W. E. Prosser, Dec. 31, 1885, and to them four children were born, two dying in infancy, one son killed in action in France, and one daughter, Mrs. Helen Thorp, of Newberg, living, besides her husband. Her remains were brought here for interment in the Mountindale cemetery.

Henry Schlegel, who has been in the battery service, has retired from that business and gone into the repairing and making of automobile tops, as there is great demand for business along that line.

Dr. L. W. Hyde, surgeon general of the Spanish American War Veterans association, was called to Seattle last week on business pertaining to that organization.

Mr. Cady, who for some time has been running the Willard Storage Battery Service Station in this city, has sold out to Mr. Ennis, of Portland, and Mr. Wortman, of McMinnville. Mr. Ennis will have charge of the management. He has had a great deal of experience along the line of storage battery, having been in charge of one of the Willard Sub Stations in Portland for the past two years.

swered in a practical way by Dr. Geo. R. Varney, former farmer, now advertising expert and instructor in purchasing and selling at O. A. C.

"Systematic advertising has built up a big business for a wealthy Oregon stockman of my acquaintance," he says. "He deals in thorough-bred cattle, and uses the local paper to tell his neighbors about them.

"I had to learn the value of printers' ink by hard-bought experience in farming myself. I was brought up in Maine, where we had to haul our produce 27 miles to market. Had I known it then, we could have placed a dollar ad in a local paper and saved the big expense of marketing."

Once using local advertising a farmer will always use it, thinks Dr. Varney. The difficulty is to convince him that it pays. He will place a blackboard in front of his farm and advertise three-year-old pigs or hay or grain in hopes that a few persons passing along the road will read it.

"By placing his ad in his home paper he could reach 20 times as many buyers, and probably be sold out before the ad appeared again," says Dr. Varney.

Dr. Varney, an enthusiast in the production of blooded rabbits, has had many years of experience in farming.

"I practice what I preach," he declares, "and it has brought me results. I create a market for my rabbits, and sell all I can produce."

And practicing what he preaches is a religion with Dr. Varney. He is pastor of the Baptist church at Corvallis.

FARM REMINDERS AND HOW THEY BENEFIT

The following are seasonal suggestions on things often overlooked, as noted by the State College, of O. A. C.

Dairy: Quality in dairy products will govern price this year more than ever before. Keep milk and cream clean and cold and protect from contamination of any kind.

Food will be scanty in August and September so provisions should be made now for feed to carry the cows over this period. Plant or sow some crop that will be ready to cut green at that time.

Farm Crops: How about planting clover or alfalfa this month? Begin to cultivate the soil frequently—at weekly or 10 day intervals. This is the only way to kill off those weeds and to keep the soil in good condition. Don't make the mistake of disking just preceding sowing time as it will give the weeds a chance to grow and get more moisture and will bring a new supply of weeds to the surface.

Farm Management: The shortage of farm hands will prevail this year. Now is the time to start that labor exchange circle. Good farm hands require good farm wages.

Poultry: The farmers of Oregon can save \$1,000,000,000 a year by feeding more green stuff to poultry. It is recommended that kale, alfalfa, lawn clippings, clover, cabbage, sugar beets or mangels, oats or vetch be used.

ELECTION, MAY 21

STATE ROADS

Vote 302 X Yes For 4% State Road Bond Limit

BALLOT TITLE IS AS FOLLOWS:

302 X Yes CONSTITUTIONAL AMENDMENT—Refered to the people by the Legislature. LIMITATION OF FOUR PER CENT STATE INDEBTEDNESS FOR PERMANENT ROADS.—Purpose: To amend Section 7 of Article XI of the Constitution of the State of Oregon so as to permit the creation of debts and liabilities for the purpose of building and maintaining permanent roads to the amount of four per cent of the assessed valuation of all the property in the State of Oregon, instead of one per cent as now provided by law.

303 No NO PROPERTY TAX—NO DIRECT TAX NO INCREASE IN AUTO LICENSE FEES NO INCREASE OF GASOLINE TAX

Keep these three facts in mind. The present auto license fees and gasoline tax will pay both the principal and interest on all the bonds under this amendment, and will yield an annual surplus besides for other state highway work. No additional taxation of any kind.

FEDERAL FUNDS MUST BE MATCHED

Oregon must have sufficient Highway Funds to match Federal apportionments for Oregon cannot get the benefit of Federal money for Oregon Roads. Increasing the constitutional limit is a necessity. Unless limit is increased, neither state roads cannot be completed for many, many years, or must be financed by direct property taxation. This measure avoids direct property tax for state highways and makes every cent of the Federal money available for the roads built now.

Increase from Present Sources Sufficient to Pay Principal and Interest. The fact that revenues from auto license fees and gasoline tax, without increase of present rates, will be sufficient to pay principal and interest on these bonds, is a fact set forth by official figures in the State Pamphlet, mailed to every taxpayer's door. Refer to State Pamphlet for verification. Examine the table carefully. It proves that no property tax is required and that present rates for auto license fees and gas tax will reduce principal and interest and yield surplus besides.

For Latest Tables, Pamphlets or further information, write to OREGON ROADS AND DEVELOPMENT ASSOCIATION, C. L. EPSON, General Executive Committee, 211 1/2th Street, Portland, Oregon.

The Moral Risk

When the time comes to seek credit, a bank will want to know what you ARE as well as what you HAVE.

That's where the moral hazard comes in.

And you can't establish credit overnight. Rather, it is a matter of becoming KNOWN at your bank, of establishing confidence by the way in which you have kept your account, regardless of the amount you have to your credit.

Get acquainted—that's the first thing. Then develop that acquaintance into friendship. It will stand you in splendid stead when the time comes. Remembering also, that this bank offers you a complete banking service.
