Business has been greatly hampered in Hillsboro by the shortage of gasoline. Farmers have been unable to come to town and even essential local industries have not been able to secure sufficient for actual needs. A plan has been proposed to have a gasoline administrator appointed and at a meeting of the Commercial Club with garage men and representatives of the two oil companies in attendance, B. W. Barnes, Superintendent of the Hillsboro schools, was unanimously chosen for the place. He has tentatively accepted and if proper support can be assured from the garage men and other business men, he will apportion the gasoline on a card system. A fee of 50 cents will be charged for each card to meet the cost of administration and any filling station may sell the gasoline but the card must be punched for each sale to prevent duplicate sales.

**WHY NOT OWN A  
DORT**

You'll never get more for your money and you might spend a lot more and not get anything as good as the Dort.

I wouldn't be a bit surprised if a lot of you right now are driving cars that represent a lot less value for each dollar expended than the Dort represents.

And one beauty about the question of buying a Dort is that you can get one now. You don't have to wait for deliveries.

You can get at the parts of the Dort. You can see what your car is doing and keep things from going wrong. That keeps down bills and prevents depreciation.

Really, there's no argument about it. You'll want one some day. So come in and talk to us now and you will see why you really need a Dort.
