CO-OPERATIVE GROWERS SELECT NAMES

The Oregon Growers' Co-operative Association has selected its trade names. The principal name to be used is Mistland. A second name which will be used on some of its products, especially on dried and canned goods is Fritland, and a third name that will be used is TruWest. These names are now being registered. California has capitalized the sun. Northwestern fruits are of superior quality due to a happy combination of soil and climate. In every valley of Oregon especially in the spring and fall thin veils and banks of fog and mist drift down against the hills. It is a scene that every Oregonian is familiar with. Oregonians are often afraid to mention the fact that we have a little rain and mist occasionally. This mist, however, is one of the great assets of the country west of the Cascades and contributes to its richness, its great output, and the high quality of its fruits. Hence Mistland seems to be a very appropriate name.

WAGE INCREASE TAKES ROAD'S DIVIDENDS

The effect of the wage award upon the pay rolls of Pacific Coast Railroads is indicated in estimates made at the general offices of the Southern Pacific Company, that the added bill for all that Company's lines alone would approximate \$17,500,000. The exact figures remain to be determined but it was said that the figure quoted was believed to be nearly correct. Officials pointed out that stockholders of the Southern Pacific last year received in dividends \$17,478,480, so that this one recent wage increase distributed among the Company's employees equals the amount that the stockholders got altogether. There are over 80,000 employees on the Pacific System lines.

At the same time it was pointed out that the Southern Pacific's annual report recently published showed that the increase in wages and cost of materials used in operation in 1919, compared with the year previous, amounted to \$18,833,500, or an increase of almost one and one-half millions of dollars more than the stockholders received.

J. L. Van Kirk, rural route mail carrier on Route 2 out of this city, claims the world's record for his doe Belgian hare. The animal has just brought into the world nineteen little Belgian hares, which is said to be the record for the world. The female is a full-blooded-Belgian crossed with a Flemish male.

ENTHUSIASTIC ROAD MEETING REPORTED AT TIMBER

Timber, Ore., July 24, 1920. Editor Beaverton Times: A well attended and enthusiastic road meeting was held at Timber by the Double Loop Inland Highway Club this evening, and it was brought out that the Forest, Gales Creek, Timber route, Portland to Astoria, was far better in all ways, than the Banks, Buxton route. The beautiful country through which the Timber route passes, both in fine farms and scenic views, far exceeds anything in the state. Miles and miles of the roads have already been graded down to a point of perfection that strikes the thousands of tourists who pass over the road with wonder and astonishment. Where does all the money come from to perfect such a road as this, "Ah" Mr. and Mrs. Reader Silence answers, it "Comes."

The Banks and Buxton Route will do fairly well for automobiles two or three months of the summer, provided, one occupying the auto is well and safely strapped in, while on the Timber route, so smooth and nice macadam, the auto may glide along at a 40 mile clip, with the infant sitting therein, as quietly and serenely and not a murmur, except of joy unconfined. Give us the Timber Route, we ask no more.

W. E. G. G. WESTINGHOUSE, Timber, Ore., July 24th, 1920. At a meeting of the Double Loop & Inland Highway club, held at Timber, Oregon, on July 24th, 1920, the following resolutions were adopted: Whereas—It is a well-known fact, that the people of Reliance, Doty and Cochran are entirely without Roads of any kind in or out of their respective communities, and Whereas—Washington County receives a large portion of its taxes from the territory, now without Roads, therefore be it Resolved, That we heartily endorse the movement already underway to have the one mile of road built by Washington County to connect with the two miles to be constructed by Tillamook County, to afford these people, some 700 or 800 in number, an outlet.

JOHN RAINES, Sec. G. E. WESTINGHOUSE, Chairman. Mr. and Mrs. Chas. Brown, of Beaverton, and their guests, Mrs. Mosley, of Evansville, Indiana, and Mr. and Mrs. S. E. Brown, of Portland, motored to Gladstone last Sunday to hear "Billy" Sunday.
