E. E. Swenson,

The Reaktor of Beaverton

Beaverton, Ore., Aug. 23, 1929.

We, the undersigned, having been appointed JUDGES in the fruit contest staged by E. E. Swenson, the Reaktor of Beaverton, Oregon, have this day carefully examined all the fruit left there in the contest, and hereby respectfully award prizes as follows:

- No. 1, the first prize \$2.50, Malissa Merrill.
- No. 6, the second prize, \$1.50, Florence Gleason.

We will gladly say that all the fruit in the contest was a credit to the camera.

Very respectfully,
MRS. WM. E. PETCH,
MRS. C. E. HEDGE,
MARJORIE CONROY.

That in these days of profiteering it seems that what goes up, stays up.

That virtue and love ought to be sisters.

That the wise man doesn't try to make a lot of friends; he tries to keep a few.

That a wife is like a car—it's the accessories that cost.

That a first-class price doesn't always indicate a first-class article.

Jack Spratt preferred one flat; His wife preferred another; They quarreled which one they should take, And she went home to mother.

Fordson

The Farmer's Power Plant

"Last spring it rained here until the 20th of May. Then it was too warm for the horses to work. I bought a Fordson and put out my corn in seven days which made me 1,500 bushels of corn more than if I had used horses like my neighbors."

That's what Eli Lughill, Archbold, Ohio, says his Fordson did for him last year. And you know that extra 1,000 bushels more than paid for his Fordson.

"My tractor helped me to raise four bushels more per acre of corn," says W. A. Endicott, Muncie, Ill., another Fordson owner.

A. F. Joseph, Pemberville, Ohio, says, "I am satisfied my Fordson increased my corn crop one-third last year by allowing me to get the seed in on time."

"It enables us to get our crops in in such season as to result often in the difference between a good crop and no crop at all," is the way Martin Brothers, Bagley, Wis., feel about their Fordson.

"The tractor was responsible for at least ten bushels more corn to the acre," writes George Headley, Ellenville, Ill.

These are Expressions from but a few of the 100,000 Fordson owners of the country on the results of Fordson farming as compared with horse farming.

Every one of the farmers mentioned above paid for their Fordson in increased yields **THE PAST YEAR.**

The truth of the matter is you cannot afford to be without a Fordson tractor.

Ask the Fordson owners living near you how their tractors work for them. Then see
