LOCAL NEWS

Lots of Town Happenings Told
In Brief Form.

Beaverton Grange will meet tomorrow, Saturday.

Mrs. Edna Hills has sold her 2 1/2 acre tract to Mrs. J. Skidmore of Portland.

All the threshing is done in the Cooper Mountain district and all report a bumper crop.

O. C. Shindler, of Portland, representing the Perry Mason Company, was a business visitor on Monday, calling on L. R. Dean.

Mrs. R. D. Young and Miss Myrtle Davis were Rose City visitors on Tuesday evening.

We have just received a consignment of "Little Red Riders" for the kiddies. This is the newest thing in a child's machine on the market. Watch our windows. Cady-Pegg Co. Mr. and Mrs. L. A. Kennedy will start on a trip to the Mount Hood district and expect to be gone three days. Lambert Claassen will carry the mail on Route 3 during Mr. Kennedy's absence.

Miss Leita Hendricks is visiting her parents, Mr. and Mrs. E. A. Hendricks.

Mrs. Sidney Adcock, of Berkeley, Cal., is visiting her sister, Mrs. W. A. Smith.

E. Mosher, of Rawlins, Wyoming, is visiting his brother-in-law, Doy Gray and family.

J. W. Cohn moved last week to his new residence recently purchased of Fred Jensen.

New goods arriving daily in the furniture department. It is impossible to display all of them in our windows, so just drop in and see them. Cady-Pegg Co.

Lambert Claassen, A. Rosal and Earl Evans returned last Saturday evening from their trip to Mexico. They report a fine trip.

St. Cecilia School opens next Monday, Sept. 19th.

Mr. and Mrs. W. H. Boyd returned last Friday morning from a two weeks' outing on the Yachats.

Mrs. Emma Wilkie, of Montesano, Wash., and niece, Mrs. Fannie Austin, of Yuba City, Cal., visited during the week with Mrs. E. A. Hendricks.

Mrs. Wilkie is a sister of Mr. Hendricks.

We shall soon offer the Standard Home copper boiler at a special price, account of a lucky purchase recently.

Ask us. Cady-Pegg Co.

A new portable butcher's saw which eliminates all hand work has been patented by James D. Bobroff, a Portland boy, and arrangements are being made for its manufacture.

The saw is equipped with a knife for cutting through meat as well as bone.

Mrs. Frances Wood, of Juneau, Alaska, was a two day visitor here during the week. While here she was entertained by Mrs. J. D. Young, a former Alaskan resident. Mrs. Wood is an expert designer and a coming short story writer. While here she endeavored herself to those she met by the charm of her personality. She intends to return here soon and make Beaverton her future home.

The most noted of L. E. doctors agree that 8 hours sleep, daily is essential to the welfare of the human body; and this amounts to a third of our life. We plan for hours of work, and for our meals and recreation, but how many of us plan carefully in providing for our sleep? Eight hours on an uncomfortable mattress or springs is poor preparation for a good day's work and if you are not blessed with springs that do not sag or mattresses that do not pack, call on us. Cady-Pegg Co.

COOPER MT. NEWS

School opened Monday with an enrollment of 36 students.

Mrs. Blomquist and children have returned from a pleasant visit at Oregon City.

Peter Piluso has built a new woodshed, also a new addition to his barn.

Mrs. J. H. Ellerson is improving from her recent illness.

Genanto Leonetti, of Portland, has

Encouragement is Stimulating

"Never before have I realized the power of encouragement as I have the last few days."

The generosity of friends surrounding Beaverton in bringing in samples of garden truck has been way beyond all expectation, and it not only pleases, but it certainly encourages one to do more and work harder to advertise our country and show to the world what we can do in and around Beaverton.

I am certainly proud of my window display, and I wish to hereby express my heartfelt thanks to all contributors.

E. E. SWENSON

THE REALTOR OF BEAVERTON

been visiting at the Leonetti home here.

Leo Sama has been busy cleaning out his well of late.

Little Jack Barron fell off a horse and broke his arm this week.

Mr. and Mrs. Carlson were guests at the Blomquist home Wednesday.

Otto Bertach is cutting his winter wood and building an addition to his barn.

John Huber has begun fall plowing.

Charles Barron and John Susee have been hauling wood to Beaverton this week.

Dewey Warner departed for Tillamook this week.

Frank Livermore is hauling wheat to Redview this week.

Mr. A. Jacobson has been sick and confined to his bed the past month.

Word from C. Oberg now in Arizona for his health, states that he is about the same.

CHRISTIAN ENDEAVORERS

END SUMMER SESSION

(Continued from Page One.)

cial Club for furnishing autos and for the entertainment of the delegates at the Labor Day picnic; the pastor and trustees of the Congregational Church for the use of the building and other courtesies; the young people of the city for entertaining the delegates with the social on the opening evening of the Conference; the people of Forest Grove for their hospitality and good will; the proprietors of the furniture stores for lending cots and Mr. Broderick for making and donating signs.

We wish especially to thank President Clark, Mr. Blair, Dr. Bates, Miss Taylor, Miss Willard, Miss Farnham, the persons who have prepared and served the food, and all others who have so generously given of their time and energy.

To our own faculty members, Paul Brown, Walter Myers, Lloyd Carrick, Mr. Clark, Miss Walker, Mr. Blair and Mr. Long we are deeply grateful, and with thanks to God for the wonderful success of the Conference we heartily recommend that it be made a permanent thing.

Respectfully submitted,

VIOLA OGDEN

PACIFIC UNIVERSITY NOTES

(Continued from Page 1).

cific University, whose guests we have been; therefore, be it,

Resolved, that we tender a unanimous vote of thanks to Pacific University and to President Clark, to Dean Farnham and to Professor Bates, whose thoughtful attention and anticipation of our needs has so materially contributed to our comfort.

The C. E. Societies of Pendleton and Milton recently held a rally with the young people of the Christian church at Athena for the purpose of organizing a society there. Among the speakers was Chris Loukas, of Pacific University.

Melvin Johnston, of Gaston, who holds the Conference Scholarship from the Rickard High School, will be in the Freshman Class.

Alva Patrick '15, Zenas Olson '15 and Miss Elicy Walker '16 were among those in attendance at the recent C. E. Conference.

Miss Esther Silverman '06 is to teach in Jefferson High school, Portland, this year.

Verle Stanley '20 and Nelson Rogers '20 were recent visitors on the campus. Mr. Stanley will teach at Wallowa and Mr. Rogers at Condon the coming year.

Miss Hazel Jones '23, of Denver, Colo., expects to return to college this year.

Constantine Apostolides, of Portland, was in the office on Tuesday and plans to enter college next week.

The following "Prose Poem" was sent in by a loyal P. U. friend:

Tell me not in mournful numbers that the old school's on the bum; rouse up from your peaceful slumbers and come help us make things hum. If we go to work in earnest

HILLSBORO TEACHER

WINS PRIZE FOR SONG

Zenas A. Olson, of Hillsboro, was tied for third prize of ten dollars, in the republican song contest just held under the auspices of the Multnomah County committee.

Mr. Olson submitted the following song written to the tune of "Marching Through Georgia":

Assemble, Grand Old Party, let us line up for the fight;

Forward, March, at double time and strike with all our might.

Put the ticket over, boys, put it over right

By voting for Harding and Coolidge.

Let's go. Come on. Let's vote the ticket straight.

Come on. Let's go. We'll pledge our glorious state.

To vote for men and issues that will make the nation great

We'll stand by Harding and Coolidge.

Our leaders are strong men and true; our platform points the way;

The party heralds the coming of a better, brighter day;

When peace shall reign and when at last prosperity comes to stay,

We're strong for Harding and Coolidge.

Oh, men, our men, we sure are strong for you,

And then, again, we're going to see you through.

We'll stand by you, and fight for you, and finally win with you,

Three cheers for Harding and Coolidge.

EARNING CAPACITY OF MUNICIPAL PLANTS

(Continued from Page 1.)

paid for construction of additions to the building, additional labor and for juice purchased on the market to take care of operating that could not be met with our present system. And though the year has probably been as good, or better, than former years yet the cost of operating has been much heavier, and still there has been a gain, not taking into consideration cost of depreciation and interest. In justice the bonded indebtedness for light amounting to \$23,000.00 should not be charged against the present plant as it was not created for this plant.

Compare the above figures with the water revenues, taking the same period as a test.

Total receipts from the water system \$10834.30

Total cost of water system 1046.09

Net gain \$9788.21

These figures do not include interest on the \$70,000.00 bonds issued to build the plant, nor do they take into consideration depreciation. There was spent in addition to the above something like \$2400.00 for extension of the water system during this past year.

Compare the water and light returns with the General fund account. We will have to reverse the account.

Total expenditure from the general fund \$15168.44

Total receipts in this fund 11679.95

Deficit for the year \$3588.49

It is plain to be seen that if it was not for the water and light funds from which to draw to meet the expenses of the city that we would have to increase our general taxes quite materially.

From the above figures you will see that the total income from all sources for the year amounts to \$40174.88 and that the expenditures are \$33646.10 or a net gain of \$6528.78, but from this item we must take interest on bonded debt \$5590.00 which still leaves a net gain to the city of \$1048.58 if there has been no mistake in our figures.

But while you are looking at figures you might be interested in examining the items of cost to the city to run its affairs. We pay

For salaries \$12757.80

For fuel 4024.08

For operating 2864.18

For maintenance 4725.97

For miscellaneous 8244.91

For streets 616.83

For fire protection 607.25

Of these amounts the item of salaries stands out with sufficient prominence to cause us to take a second look. (With a business having an income of \$40174.88 a year we pay out to run the job \$12757.80.)

We confidently believe that with the new equipment to the light plant the revenue from this system will increase at least 20% in the next year. We also firmly believe that if the City Council would require a water meter on every service that the revenues of the water system would be nearly doubled. We believe in economy of service, but we also believe that all should be treated alike who enjoy the service.

We trust our readers will study the situation as it is presented with figures. We are confronted with a large warrant debt that must be taken care of immediately. We also have a large intersection debt from the city paying this year which must also be taken care of. We understand that the people will be asked to pass upon a bond issue to take care of the debts that have been accumulating from time to time. Our credit is being put to the test and we must take care of our indebtedness. No man can be a successful business man without he keeps his credit on a sound basis and the same thing applies to a city. We can do it and we are sure the people will take care of the situation in some logical way.

Let Arrows Point the Way

When driving round in your machine To get the country air,

You have no special place to go, In fact, you do not care,

You chat with your friends in the car Or you go whizzing through.

You see the meadows looking green, Also the hillsides, too.

You speed along mile after mile And think of your dimmy,

Returning by another route No arrows point the way.

There's pleasure when you're going out To take a little spin,

To know that if the roads are good There's some way to get in.

When on your week-end fishing trip, Or some such thing as that

You hate to stop at some farm house To find where you are at.

So let's improve all of our roads.

Fordson

The Farmer's Power Plant

"Last spring it rained here until the 20th of May. Then it was too warm for the horses to work. I bought a Fordson and put out my corn in seven days which made me 1,000 bushels of corn more than if I had used horses like my neighbors."

"It enables us to get our crops in in such season as to result often in the difference between a good crop and no crop at all," is the way Martin Brothers, Bagley, Wis., feel about their Fordson.

That's what Eli Lughill, Archbold, Ohio, says his Fordson did for him last year. And you know that extra 1,000 bushels more than paid for his Fordson.

"The tractor was responsible for at least ten bushels more corn to the acre," writes George Headley, Ellenville, Ill.

"My tractor helped me to raise four bushels more per acre of corn," says W. A. Endicott, Muncie, Ill., another Fordson owner.

These are Expressions from but a few of the 100,000 Fordson owners of the country on the results of Fordson farming as compared with horse farming.

A. F. Joseph, Pemberville, Ohio, says, "I am satisfied my Fordson increased my corn crop one-third last year by allowing me to get the seed in on time."

Every one of the farmers mentioned above paid for their Fordson in increased yields THE PAST YEAR.

The truth of the matter is you cannot afford to be without a Fordson tractor.

Ask the Fordson owners living near you how their tractors work for them. Then see

Otto Erickson & Co.

Let funds not cause delay. And every place where roads may cross.

Let arrows point the way. When tourists come a-passing through.

To see our state so grand, We want to have our arrows up And such we must demand.

They will not ask us questions then To tell which way to go, Because the place and miles on them While driving by will show.

Put sign boards up along our roads, Place them so they will stay. Then strangers will know where to go

When arrows point the way.

O. O. SMITH.

ORIENTAL CLASSROOM

NO PLACE FOR SECRETS

The Oriental may be a conservative kind of person, but that he does not share some of our own prejudices is illustrated by an amusing story told

by a Y. W. C. A. secretary, who was teaching her first class of Chinese boys, ranging anywhere from thirteen to thirty years of age.

The class was engaged in reading the lesson, when like a giggle in the midst of a sermon came the question, "Mrs. Job, where did you come from?"

Mrs. Job stopped the lesson to answer, "America."

But the reading had scarcely been resumed when a second question flashed out, "Mrs. Job, how did you get there?"

The teacher registered surprise but that did not intimidate the class because the Chinese are not reluctant about disclosing their ages. Mrs. Job, however, begged the question by answering that she was a "Leo hein-sheng" which translated means "an old teacher."

The lesson then proceeded, broken at intervals by more questions, until by the time it was over the class knew the life history of the instructor bearing her age.

Cut Down the High Cost of Living.

Eat what you can;
Can what you can't.

We are always ready to supply your wants with good groceries at good prices and we are Headquarters for jars, jelly glasses and all canning supplies at reduced prices.

Mystery Tied with Red Tape

The time has long passed when a bank was surrounded with so much mystery and red tape that customers felt ill at ease every time they went to the bank to transact business.

Today, the progressive bank is a FRIENDLY INSTITUTION—designed to give service cheerfully and as a BUSINESS DUTY rather than as a favor.

At least, that is how this bank regards it.

Perhaps that is one of the good reasons why many refer to this bank as "my bank," based on the spirit of friendliness and co-operation they encounter whenever they call.

Perhaps, too, it is another reason why people like to save where they think they are welcome, and where, in addition, they know their money is absolutely safe.

Whether you wish to open a savings or checking account, or wish to transact business in one of the other departments of this bank, you will appreciate this spirit of friendliness which we believe is good business.

BANK OF BEAVERTON
