

# WARREN G. HARDING Your Kind of Man and—

## The Next President of the United States

### The Next President

As certain as anything can be, in this world, is the election of Senator Harding.

To readers of this newspaper, the many family groups to which it comes a regular welcome visitor, Senator Harding's face shines as that of a friend.

Senator Harding, your next President, is your kind of man. You see him, hear a few words, and you know it.

He was born in a small town, has lived there all his life, lives there now, and will live there again when he leaves the White House with his work for the country done.

### How He Lives

He lives as you live, simply, in the old fashioned American way.

The main residence street in any little American town, boasts half a dozen homes more elaborate than Senator Harding's, and many as good.

Millions of men, believing in this country, devoted to its government, SATISFIED with the UNITED STATES, believe that the United States is able to deal with its own problems, and settle its own questions free from outside assistance or interference.

Those millions of men are men of the same sort as Senator Harding.

### What Kind of Man

Harding is a big American in physical size, thanks to vigorous farming ancestors. He is a big American also in heart, in understanding, in sympathy and in simplicity.

You read his speeches and know that he does not imagine himself created to tell all the world what to do. He believes in, and he understands the American people, his friends, the citizens of his own little town, Marietta, Ohio, and the dwellers in thousands of other towns like it.

### Your Servant, Not Autocrat

After you have elected him, you will find in Senator Harding an earnest, conscientious, straight thinking servant of the people, not an autocrat, but a man respecting the traditions of American government, and the Constitution of the United States.

Senator Harding understands that the people will elect him to be President of the United States, not President of the whole world. He will know that he is employed by the PEOPLE of this country to look after the interests of THIS country.

Born on a farm, living all his life close to farmers, he knows and sympathizes with the problems of the farm. Living in the average American way, in the average American small town, he knows the problems of the average American. He understands the printers he employs, and he knows their trade and sets type as they do.

### His Ambition

Senator Harding has no ambition to be called a political superman, or RULER of America. It is his ambition to be known as a good American, a faithful servant of those that trust him.

National politics are discussed this year less than at any election since the republic was founded. Why? Because men do not discuss, to any great extent, that which is DEFINITELY SETTLED.

And this national election is definitely settled as you read this. YOU know it.

But it is important that demonstration of the popular will should be of the most overwhelming kind. Therefore the good citizen will do what he can to increase the vote for Harding, should there be any doubtful votes within reach of his voice.

It is almost ludicrously difficult to find a man or woman that intends to vote the Democratic ticket this year.

But if you do find one, show him or her this picture of the next President. And express in your own way the reasons that inspire you to approve and vote for him.

### What is Senator Harding's outlook upon life? It is YOUR OWN.

Read these extracts from one of his recent speeches:

"This government is your government, not that of somebody who is placed in office."

"You clothe us with authority. We are pleased to execute your will. And one reason I want the Republican party in power once more is because we are responsive to the will of the people of the United States and do not try to tell you that what one man thinks is necessary."

No hallucination there, no idea that Harding was made to rule, and YOU, who read this newspaper, made to be ruled, or presided at from above by your own elected servant.

The duty of the American, whether he be President or simple citizen, is not complicated in Mr. Harding's mind. He says:

"As I said at the outset, government is a very simple thing, government is only the regulation of our relationships to one another. The government's first task is the protection of the minority against autocracy, or the domination of the majority that sometimes forgets the rights of the minority."

"I am preaching the gospel of popular representative government in the United States, a government that does not know any class anywhere in all this Republic."

In his speeches and in his daily life, running for the Presidency or running his country newspaper, Senator Harding is just an everyday American neighbor. This is what he says, as he bids farewell to a crowd of friends:

"I am very happy to see you all this morning. As I have said, I want you to know me, and I am delighted to know you. We are going to work together for the good of the United States, and we are going to hold America first in all our thoughts and in all our actions."

### Women Voting

Women especially have reason to congratulate themselves on the fact that Senator Harding will be the next President.

Their sons are taken in war. Their husbands and fathers are taxed to pay for war. They spend the lonely hours of dreadful anxiety, while the son is away.

They, above all, are interested in having for President such a man as Senator Harding. He does not believe that foreign powers should be allowed to conscript American boys for war beyond the seas.

He does not believe that a Foreign Council should send to America for men and money to settle wars not of our making.

Senator Harding does not believe that this country should be taxed to finance the ambitions or the land greed of foreign nations, and as he believes, so the earnest men and women of this country believe.

When you cast your vote for Senator Harding, you will vote for YOUR KIND OF MAN, the intelligent, straightforward, unpretentious American citizen. President Harding will be an American President, not an international President.

You will have in the White House a man of constructive mind, a plain American with no dreams of world dominion, but with a settled determination to restore normal conditions and normal prosperity to this country.

### After the War

After a war that has destroyed old conditions, cost many lives, squandered many billions in reckless extravagance and dishonesty, and weakened respect for the Constitution, you need for President a straightforward, constructive American.

And you will have such a man in the White House after the 4th of next March, for after that the President of the United States will be Warren G. Harding, your kind of man, one that you would gladly trust with your own affairs, and the affairs of your country.

## As a Citizen of Oregon You Need the Port of Portland.

If you owned a store you could not make a big success unless your business methods were as modern as your competitors'. Unless Oregon develops her shipping facilities she cannot expect to get her share of the world's business. It rests with the citizens of this state whether Oregon shall develop her wonderful resources and reach out for bigger markets, or remain practically an inland state.

To become a real port, a 26 foot channel must be dredged in the Columbia and Willamette Rivers from Portland to the Pacific Ocean. This will enable farmers, stockmen and lumbermen in the interior of the state to reach the markets of the world at a lower freight rate and greater profit to themselves.

The taxing and bonding power to make these improvements can be granted the Port of Portland only by the people of the state. You and every other citizen will benefit if you, on November second,

**VOTE 210 YES ON THE BALLOT—THE PORT OF PORTLAND DOCK CONSOLIDATION BILL.**  
**OREGON PORT DEVELOPMENT LEAGUE.**
