Legislation to compel farmers to destroy Canadian thistles before they bloom is drafted by Ramona Grange of Lion county.

Emerging citizens of Boardman, Morrow county, are negotiating to establish a ferry across the Columbia river at that city.

Oil and gas of a superior quality have been discovered on the Jay Manning ranch in Klamath county at a depth of 1045 feet.

Two hundred farmmen of the Banks district have subscribed \$12,000 for the erection of a cannery and cheese factory in that city.

Nearly a thousand dozen eggs were marketed by the Astoria Cooperative association in November, the price being 75 cents per dozen.

More than 25 sawmills in Klamath county have closed down for the winter. Only three are still running and they may suspend soon.

Four boys whose ages range from 18 to 19 years are in the Lane county jail, charged with the burglary of several stores at Cottage Grove.

The fourth annual automobile show of the Pendleton Automobile Dealers association will be held in Happy Canyon March 10, 11 and 12.

Bobcats are having a hard life in Lane county this fall, bounty on 17 of their hides being claimed at the clerk's office in the last few days.

The city of Albany is trying to obtain a furniture factory to replace the furniture manufacturing plant which formerly operated there.
More than 19,000 head of beef cattle have been shipped from Klamath county since September 1, and 4000 head still remain on the feeding grounds.

Federal game authorities return to consider the suggestion of Eastern Oregon sportsmen that the open season for shooting migratory birds be changed.

Marjory Ellis, 12 years old, was instantly killed two miles south of Hillsboro when a truck driven by her stepfather expired in a collision with another truck.

Mining men of Eastern Oregon, at a conference at Baker to devise means of meeting present conditions, adopted a new wage scale providing for a general reduction.

There are 7 1/2 feet of snow at Anna Spring camp in the Crater National park which is four feet more than there was at that point at the same time last year.

Sparks generated by friction while closing a silk dress in a hand laundry fired the gasoline, set the building on fire and burned the clothing of G. E. Olson, proprietor.

The Delta Sausage company at Florence has shut down its mill and bogging camp while the capacity of the mill is being increased by the addition of another machine.

Silverton wants an armory building. A large delegation of citizens went to Salem last week to urge appropriation of \$100,000 county funds, to add to the city's appropriation.

All travel on the Old Oregon Trail between Pendleton and Echo has been laid and the road is completed except for a bridge near Echo, which will have to be built in the spring.

Among the various amounts asked of congress for improvements in Oregon is an appropriation of \$125,000 for making a survey of the Coos Bay-Wagon road grant lands.

It is reported that the Crown-Willamette Paper company will resume its operations near Seaside within a short time. The Seaside camp employs several hundred men.

Water two feet deep ran down Seaside streets Friday when the surf, whipped by a 56-mile gale, dashed over the board walk and swept through part of the business section.

There were two fatalities due to industrial accidents in Oregon in the week ended December 23, according to a report issued by the state industrial accident commission. The victims were R. M. Thies, miner, of Bourne, and Joseph M. Fitzgerald, laborer, of Salem. A total of 456 accidents were reported.

Work of raising the quota of the state of Oregon, outside of Portland, for the European relief fund is moving forward rapidly and approximately \$75,000 has already been pledged.

Harry Silver, manager of the Pore padour mineral springs near Ashland, has a crew of men engaged in putting down test wells for carbonic acid gas, which the company expects to develop.
On account of the success of the state hatchery established five years ago at Tidewater, the plant has been enlarged to handle 12,000,000 eggs in place of the 10,000,000 handled last year.

Plans have been announced by U. Association of Pacific Fisheries for a nation-wide campaign of education as to the economy and food value of the more plentiful varieties of canned salmon.

F. M. Thies, an underground miner employed at the E. & E. mine at Bourne, in Baker county, was instantly killed when a small rock became dislodged striking him on the back of the neck.

Mrs. Luke Jennings of Medford, 55, a sister of Milton A. Miller, internal revenue collector at Portland, was killed instantly in an automobile accident on the Pacific highway near Medford Christmas eve.

For the second time within the past few weeks Gerrais is without water. The pumping station is ample to supply the demand, but the wells fill with a fine sand and put the pumps out of commission.

Senator Chamberlain of Oregon was operated upon at the emergency hospital in Washington, D. C. Friday. It was said that the operation was a complete success and that the senator was resting comfortably.

Taxpayers of Multnomah county will be called upon next year to meet the latest tax bill that has ever been presented to them. The total will be approximately \$14,710,000, or \$52.44 per capita, based upon 278,258 population as shown by the federal census of 1920.

A squash so large that many people refused to believe it a real vegetable but thought it was an imitation made of paper has been on exhibition for several days in the window of Murphy's seed store in Albany. It weighs 131 pounds.

Two hundred photographs are now in process of manufacture at the Cronaca Photographic company's plant at Albany. Materials are on the way to Albany that will keep the plant operating at the rate of 15 finished cabinets a day.

The Talent irrigation district has filed with the state engineer application for certification of bonds in the sum of \$25,000, to be used for the purchase of additional land in connection with installation of what will be known as the Emigrant reservoir, near Ashland.

Bogus river drydockmen won highest honors in the Oregon Cow Testing association as the result of tests made during November, according to results which have just been given out. That district also led others with 35 cows yielding above 40 pounds of butter fat for the month.

Because of the wave of crime over the entire country, and of the recent burglaries and attempted burglaries and much petty thieving, the Medford city council has added another policeman to the night force, and lights have been placed in all the alleys throughout the business district.

Declaring in their complaint that Union county financially is unable to proceed with road work, that road funds are at low ebb, and that the road conditions should remain as they are until labor and materials are cheaper, William R. Jasper and Walter M. Pierce have enjoined the Union county court from contracting two pieces of road, advertised from the Iowa school house to Corvallis. The distance covered amounts to about 50 miles.

L. E. Bean of Eugene, who recently returned from Washington, D. C. where he went several weeks ago in the interests of the Chamberlain road bill, designed to aid the public land states of the west in building highways, has received a telegram from Representative McArthur stating he had received assurance from Chairman Mandell of the house committee on public highways and other house leaders that legislation providing for appropriations similar to those called for in the Chamberlain bill undoubtedly will be passed in the house.

To promote pure-bred livestock raising, Klamath Falls banks are offering inducements to communities making the best showing. The First National bank has offered a high-class registered bull to the district that first rides itself of all scrub sties and replaces them with purebreds. The First State & Savings bank promises a registered buck of standard breed to the district putting in the greatest number of registered ewes in 1921. To encourage hog culture the Klamath State bank will give a registered boar to the district in which the largest number of registered sows are placed during the next year, and the American National bank, in promote the grading up of dairy herds, offers a high-grade bull to the district making the best dairy record in 1921.

CARNATION COW MAKES NEW BUTTER FAT RECORD
A new world record in production is announced by H. G. Sibbs of the Carnation Stock farms of Seattle. He says Septe Pieterie Prospect, a registered Holstein, completed her year's record on December 19 with 37,341 pounds of milk and 1155 pounds of butterfat.

This record is 3055 pounds of milk and 97.4 pound more of butterfat than the record held by Tilly Ascarra. The average milk production per day was 48 quarts with 68 quarts the highest for any one day. If this record is confirmed by the Holstein-Friesian association, it will give this cow the lead over all other breeds in both milk and butterfat production.

The record of 1103.28 pounds of butterfat made by a Guernsey, a complete account of which record was recently published, gave the Guernsey breed the champion butterfat record over all breeds. Within 30 days of the time the Guernsey raised the butterfat world record by 45.72 pounds, the Holstein again raised it by 51.28 pounds of butterfat.

NEWS ITEMS
Local, Personal and Other City Events Briefly Noted.

J. W. Reynard last week installed at his home at Scholls a 100-light electric light system for his house and barn, which added to the water system installed some months ago, gives him one of the finest modern homes in the county. The installation is of the Milwaukee type which Jack has been urging upon the farmers of this county for several years and his choice of this system for his own fine home fully justifies the claims he has made for it to others. Washington County has some of the finest country homes in the state and with electric lights, water under pressure, telephones and paved roads, city residence has no attractions for the farmer. Incidentally it may be well to note that these fine homes are more plentiful in the Scholls neighborhood than elsewhere in the county which shows what will always follow a good road into a fertile section.

The Willard Service Station for Eastern Washington County is at the Stipe Garage. We take pleasure in testing, not only Willard, but all other batteries free of charge. We re-charge and repair all makes of batteries. Give us your work. You will be pleased with our moderate charges and satisfactory service. 461

Mr. and Mrs. John Zimbrick, of Lebanon, are holiday guests at the home of his parents, Mr. and Mrs. Lewis Zimbrick.

Mr. and Mrs. M. P. Scruggs are now occupying the new modern house which John Frouzner has constructed for them.

Charles Trachsel is spending his vacation at home. He is a student at Pacific University.

George Wilson and Joe Merrill are assisting in Bishop Bros.' store during the Christmas vacation.

Northwest Ayrshire Breeders Association is the name of a new organization recently formed by Ayrshire breeders of this section of the county. Eligibility to membership is any owner of a registered Ayrshire residing in Oregon, Washington, Idaho or British Columbia. J. R. Mayben, of Canby, Oregon, is the president of the new organization and J. U. Smith, student and graduate of Pacific University, is the secretary and treasurer. The dues are \$2.50 per year and the initiation fee is \$2.50. The object is to advertise and promulgate the merits of the Ayrshire breed of cattle.

NOW WAREHOUSES ON WATER
Japanese Said to Have Evolved a Scheme That is Ingenious and Profitable as Well.

The time may probably come when the land is overworked and people begin to live on water. Then we shall be building floating skyscrapers and aquatic parks. At any rate, congenial Japanese have already launched a scheme which in the opinion of the projector hits many birds by one stone. The scheme is the creation of what is called floating warehouses.

During the war Japan built many good-sized wooden ships to aid in the transportation of the allies' goods. After the war these ships were dismissed from the service, and since then lay idle in harbors unable to obtain cargoes due to post-war slumps in shipping.

Taking advantage of this circumstance, a group of men organized a concern called the Marine Warehouse company, with a capital of 10,000,000 yen; bought the wooden ships and started a floating warehouse business.

The company is now engaged in establishing eight floating warehouses of 1,000 tons each in the harbor of Kobe. The ships are to be attended by three launches of 1,000 tons capacity each. The aquatic warehouses, being exempted from extraordinary rent and taxes, and largely free from the danger of fire, in addition to many peculiar advantages consequent to their movable character shall be able, it is claimed, to carry on the business at a much lower rate with greater facility, providing a formidable enemy, in the future, of their terrestrial cousins.—East and West News.

WAS MASTER OF PROFANITY
Intimate of Great Editor Declares Swearing Was More Than a Bad Habit With Him.

Joseph Pulitzer, the famous blind founder of the New York World, was not always a master in language. At least so writes Charles Chaplin, who was for 20 years chief editor of the Evening World in his autobiography, called "Charles Chaplin's Story."

"Sometimes when I was reading to him he would become explosively profane," writes Chaplin. "And how shockingly that blind man could swear! With him profanity was more of an art than a vice. Once when I had read something to him that made him angry with the writer's stupidity he swore so passionately and so loud and grew so choleric and red in the face that I feared something inside of him might snap."

"Suddenly he checked himself and pricked up his ears. There were angry voices in an adjoining room. One of his young sons was having a run-in with his tutor and was forebly telling what he thought of him. A peculiar expression, a mixture of annoyance and amusement came over my employer's countenance.

"Dear me," he said, "I wonder where that boy learned to swear." He didn't utter another oath during the remainder of my visit."

Combustible's Many Uses.
If the farmer can't make the old horse go on straw and carrots he might as well let him go. His tractor and his stationary engine with gas made from them. That's the problem the department of agriculture is struggling with, says the Nation's Business. Already its experimenters have run an automobile with the new combustible and used it for lighting and cooking.

FOREST GROVE MASONS AND STARS INSTALL

One of the most enjoyable social events of the season was that which participated in at Masonic Hall on Monday night of this week when Holbrook Lodge No. 30, Ancient Free and Accepted Masons and Forest Chapter No. 42, Order Eastern Star, jointly installed officers.

Nearly 175 members of the two orders and their near relatives enjoyed the occasion.
At the appointed hour outgoing Worshipful Master Clarence Lee Bump called the assembly to order and requested his brother, Daniel Deronda Bump, a past master of Holbrook Lodge, to officiate in the ceremony of installation of Masonic officers. This he proceeded to do with the best of grace for he has performed that duty so often that it becomes second nature for him. He was ably assisted in this work by that veteran Marshal, Charles O. Roe, who has been marshal since the mind of man runneth not to the contrary.

These are the newly elected and appointed officers:
Worshipful Master—Harry T. Giltner.
Senior Warden—G. C. Richards.
Junior Warden—E. V. Burlingham.
Treasurer—C. A. Deakins.
Secretary—D. R. Cheney.
Senior Deacon—E. V. Roe.
Junior Deacon—L. I. Mills.
Senior Steward—J. G. Lenneville.
Junior Steward—L. E. McKeever.
Chaplain—Rev. W. Walter Blair.
Tyler—J. H. Cummins.
Marshall—Charles O. Roe.

W. J. Mills here sang a very pleasing solo which was enthusiastically received, responding with a delightful encore number.

The Eastern Star officers were installed by retiring Worshipful Master Mrs. A. E. Todd, who had as her marshal Mrs. A. Hinman, and the work was very creditably performed. The new officers are:

Worshipful Master—Mata Ahlgren.
Asso. Master—Colla West.
Secretary—Mrs. J. G. Lenneville.
Treasurer—Mrs. A. J. Demorest.
Conductress—Mrs. N. A. Frost.
Asso. Conductress—Mrs. J. B. Conger.
Chaplain—Miss Mary Stalley.
Marshall—Mrs. Wm. Pollock.
Organist—Mrs. Hazel Carmack.
Adah—Gertrude Anderson.
Ruth—Edith Hanner.
Esther—Mrs. C. A. Brodersen.
Martha—Mrs. I. J. Hoar.
Electa—Bertha Giltner.
Warder—Mrs. Ridgley.
Sentinel—C. A. Brodersen.

Following the installation a social season and banquet was enjoyed by all present.

Sentiment Rules.
Ponderous government machinery gave way to sentiment when Maj. Gen. John A. Lejeune, commandant of the marine corps, authorized the resumption in Los Angeles of two Armenians who served in the A. E. F. Peter Mosogofian and Perosh Noranian, for the purpose of joining the marines on the United States steamship Chattanooga, now at Constantinople, in order that they might locate their relatives in the Near East.

Both of these young men speak Armenian, Greek, Arabic, Bulgarian, French and English, and understand Russian. They will leave Philadelphia this month, via the United States steamship St. Louis, for Turkish waters.

Philippine Coal.
Signs of industrial expansion in the Philippine islands are seen in the recent formation of a company which is developing the Cebu coal mines as well as those in Mindanao. It is expected that within a comparatively short time the output of these two islands will be sufficient to supply the needs of the whole archipelago as regards good steam coal. The Mindanao product, which comes from what is known as the Sibuguey coal field, is asserted on the one hand to be superior to any other Philippine coal or any coal imported into the islands, while on the other hand it is said to be liable to deteriorate if not used promptly.

New Aircraft Rises Vertically.
Stimulated by recent offers of large money prizes a number of French aeronautical engineers are busy with the construction of vertically rising, heavier-than-air machines. The largest of these is a helicopter, characterized by its unusually large size and substantial construction, says Popular Mechanics Magazine. The wings resemble in plan the leaves of a four-leaf clover, and are carried on metal tubes which radiate from a central upright. This upright is mounted on the middle of the metal fuselage and is revolved by a nine-cylinder radial engine.

Had a Home-Made Lock.
A few years ago we were enjoying a vacation trip in a little car of ancient vintage. This little car had been built originally without a windshield; later we had improvised one, using a bent wood frame. One day while I was waiting for my wife another motorist walked up to me and said: "Do you know that car of yours doesn't look so bad until one sees the wind shield, and then any one can tell you made the whole thing yourself."—Exchange.
