COMMENCEMENT
How truly is commencement, as ob-
served in our schools, the beginning
of larger things. Too often is the
meaning of the word forgotten. To
many it is merely the end of a period
of school, but it is fortunate indeed
that the name at least shall carry the
message of the significance of the
period. Commencement is a begin-
ning and in no sense is it truer than
when applied to the recognition of the
thoroughness of the student's prepa-
ration for the duties of life. School,
properly conducted, is merely a train-
ing period enabling the student to
get a better start in the race of life,
much the same as the "warming-up"
exercises at the opening of a race.
The end of this period marks the real
start of the important event. To
some, perhaps to many of these stu-
dents this graduation marks the end
of actual school attendance. May it

mark only the beginning of prepara-
tion for life work. May these young
men and women continue to be stu-
dents throughout their lives, con-
stantly growing in power of accom-
plishment and in service to mankind.
May the coming week be truly for
them a commencement.

Election notices have the past
week been posted about the city an-
nouncing the special election which is
to be held throughout the State of
Oregon on June 7th. Five important
measures will be voted upon at that
time including the following: Legisla-
tion Regulation and Compensation
Amendment; World War Veterans'
State Aid Fund; Constitutional
Amendment; Emergency Clause Veto;
Constitutional Amendment; Hygienic
Marriage Examination and License
Bill; Women Jurors and Revised Jury
Law.

delegate to the National Head Camp
which convenes in St. Louis in June.
—The Forest Grove Woman's Club
has secured an option on a beautiful
lot on College Way and will build

Hellig theater in Portland, taking the
part of the King in Macbeth, and re-

The Grand Canyon of the Colorado
Here is an unparalleled spectacle—
a sight never to be forgotten—one of
nature's most stupendous wonders.
The Grand Canyon is about 250
miles long—with a width at its top
varying from 5 to 12 miles. At some
places it descends to a depth of a mile
below the plateau surface. Its best ef-
fect, as revealed by extreme depth and
brilliance of coloring, is from a point
opposite the Kalbar Plateau—about
65 miles north-west of Flagstaff, Ari-
zona.
Motor roads lead to the Grand Can-
yon through Ashfork, Williams and
Flagstaff, Arizona—and all the way
you can get "Red Crown," the all-
refined gasoline.
You'll be glad if you make your
Grand Canyon trip a "Red Crown"
trip.
Look for the "Red Crown" sign on
service stations and garages.

"Boaked" Family Doctor.
After a Kentucky judge had fined
his family doctor \$30 and costs for
speeding and had sentenced him to jail
for three days, he went out to say:
"You and I are friends. I am your
lawyer and you are my doctor, but I
am here to administer justice as I see
it. And you will serve that sentence
in spite of our friendship or what any
of our friends may do." Just wait un-
til it comes Doc's turn to sit in judg-
ment on that judge!
Good Manners Make for Comfort.
Good manners are a highly system in
society. In a large sense the whole
human race is society. We count it
good practice to keep to the right, and
those who keep to the left are guilty
of bad manners as well as bad
practice. Good manners is good sys-
tem in behavior. System is always
labor saving, and we need to look to
our manners in this modern day for
that reason.
MAY FESTIVAL TO BEGIN AT 2:30
A new custom is to be inaugurated
this year in the celebration of the May
Festival. The crowning of the May
Queen and the presentation of the
pageant will be in the afternoon at
2:30 instead of the morning as for-
merly.
This change has many advantages
it will be more convenient for out of
town visitors and the people of Forest
Grove, as well as giving the college
people more time for preparation,
which will doubtless be appreciated
when we remember the early morning
rush of former May days to have the
throne ready on time.—P. U. Index.
High-Blood Pressure Curable.
High blood pressure can be overcome
in most cases by exercise, says the
Canadian Life. This cause of the many
rejections to life insurance is not usu-
ally a permanent disorder. It can be
cured by exercising, gently at first,
and increasing up to a reasonable
amount. Clients who have been re-
jected on this account should be ad-
vised to take up some moderate form
of exercise, and in the course of a few
months they may be acceptable.
