PITT—REIFF

New Location of Cabinet Shop Inspires Mrs. W. J. Alexander to Write Verses Praising His Work

A news item in the Times last week calling attention to the new location which W. A. Smith and W. I. Noyes have secured for their respective businesses has inspired Mrs. W. J. Alexander to write the following in praise of Mr. Smith's work.

"Promptness and Efficiency" his motto.

In behalf of the whole community I wish W. A. Smith the best of success in the new location of his cabinet shop.

If you have a chair with a broken back Take it to Smith;

The rest of your household goods Which are badly bruised and in need of repair,

Just take it to Smith, to W. A. Smith He is the handiest man in town;

For promptness I vouch he can't be beat As for that he is world renowned.

MRS. W. J. ALEXANDER.

THE PISKY POTATO BUG

Note—Potato bugs have been discovered in East Portland gardens and means for their destruction will be applied.

The potato bug is now here I'll say it is a shame Of them we did not have no fear

Such things we had no dread They're gaining on us more and more (We wish they all were dead.)

Small gardens are some people's pride They like to dig the ground

To Evans' office came the news The bugs are getting fierce

The growers will be paid And for to settle every bill

And how they came it has been traced From cargoes that were shipped

Inspectors came and viewed the bin Injunctions came about

A burner now they plan to take With flames burn up the vines

FIND RELICS OF PRE-HISTORIC SEA HERE

Well Diggers in Sorrento Unearth Prints of Marine Animals in Rock Far Below Surface.

Additional evidence that the Tualatin Valley was once part of the ocean bed was found this week when G. W. Baker and son, Jesse, put down a well for E. D. Horner on the property which he recently purchased in Sorrento.

Many evidences of former sea level have been found in this locality but none more conclusive than these recent findings of fossils.

The well was down a depth of 42 feet Tuesday evening and four feet of water came in over night, which will probably effectually prevent any further discoveries in this particular well.

COUNTY AGENT'S NOTES

Guernsey breeders are preparing for an all-day picnic on July 9th at the home of W. A. Goodin on Baseline, two and one-half miles west of Hillsboro, according to the plans of the Washington County Guernsey Club.

Registration of Pure Breds. The County Agent is often called upon to assist breeders in getting pure breeds registered several months or even two or three years after sale has been made.

The proper time to have animals registered and transferred is at the time the sale or purchase is made. It only piles up additional cost and trouble and often causes a loss to the purchaser if the matter of the registration and transfer is not attended to promptly.

Onion Maggots. Onion growers in the county generally are troubled with onion maggots this year, which has taken quite a percentage of the crop in certain localities.

Certain onion growers in Washington county have stated that they expect to follow the Canadian method of control this next year, and no doubt other growers' meetings will be scheduled for a complete discussion of this subject during the coming late fall or winter.

Many Beaverton members of the Masonic orders are planning to attend the Shriner's Picnic at the Oaks, Friday, July 8.

Miss Dorothy Huntley is visiting friends in Portland.

Henry's Defiance advertisement featuring an illustration of a man in a suit.

The house of burgesses of Virginia of which Patrick Henry was a member went into a committee of the whole on May 20, 1776, to consider the Stamp act, seven resolutions were introduced on that occasion, which brought forth a "bloody" debate. Five were passed. Moses Colt Tyler in his life of Henry, writing of the orator's defense of the resolution says, "Reaching the climax of a passage of fearful invective on the injustice and the impolicy of the Stamp act, he said in tones of thrilling solemnity, 'Caesar had his Brutus; Charles the First, his Cromwell; and George the Third (Treason), should be struck from all sides of the room.' The orator passed in stately defiance on these rude exclamations was ended, and there, rearing himself with a look and bearing of still prouder and fiercer determination, he so closed the sentence as to baffle his accusers, without in the least flinching from his own position,—and George the Third may profit by their example. If it be treason, make the most of it." He was elected from Virginia, to be a member of the first Continental Congress, which met in Philadelphia in September, 1774. This meeting brought him into national prominence. John Adams of Connecticut wrote to his wife about Henry, "He is a lawyer and the completest speaker I have ever heard."
