5015 W. M. SNIPES.

GROVE WILL PULL FOR KNIGHTS OF PYTHIAS HOME
Many Forest Grove people believe that there is an opportunity to secure another Fraternal Home here and the past few weeks considerable activity has been going on with a view to vigorously presenting this city's advantages along that line.
Committees from the Knights of Pythias lodge and the Commercial club are working to have the Oregon and Washington Pythian home located here. Fifteen acres of ground on the site of the Behrmann registered Jersey farm east of For at Grove will be donated to the lodge as an inducement for the home, and a campaign for funds will follow the definite selection of a site by the grand lodge committee, which meets February 15.

The site selected here is across the road just east of the new Masonic home. The Oregon Electric railway may lay a temporary spur track from Haines station to the site, in order to save expenses in transportation of building materials.
Committees named to push the campaign for the home follow: Knights of Pythias—E. P. Wirtz, W. J. McCready, A. O. Killin, E. R. Sapington, W. C. Schultz, Commercial Club—J. A. Thornburgh, A. E. Scott, and C. A. Liffler.

Small Town's Many Advantages.
The small town suits America, because, instead of being a place of hotels, restaurants and amusements, it is a place for normal living—where men walk home to lunch from their place of business and mow their own front lawns and weed their backyard gardens and bid their neighbors across either fence the time of day; where they not only live in today, but remember yesterday and plan for tomorrow; where families and communities retain cherished and treasured traditions, there beats the heart of America.—Dodge County (Wis.) Star.

FARM BUREAU ELECTS OFFICERS

Continued From Page 1)

department has displaced six scrub bulls with pure-bred, assisted Holstein breeders in selecting the county herd for exhibition purposes, and arranged a Jersey tour and Holstein picnic for breeders in this county.
The value of formaldehyde for increasing the onion yield was illustrated in a table prepared by J. C. Leedy, who conducted a demonstration on his farm last fall. The results showed that land treated with formaldehyde had yielded from three to five times as much tonnage as that not treated. The acre average had a sack ratio of 864 to 88 1/2.

Better organization of boys' and girls' club work was urged by speakers, who asserted that definite results had already come from the two calf clubs now active. Two stock-judging teams formed under the bureau's direction have taken part this year in district and state fairs.

Among other activities of the bureau, which has had the co-operation of O. T. McWhorter, county agent, have been the establishment of three horticultural demonstration centers for promoting better pruning and orchard soil management, the holding of four poultry culling demonstrations and a beekeepers' demonstration, furtherance of potato certification among twenty-two potato growers of the county, and co-operation with the Oregon Wool and Mohair Growers' association and Oregon Co-operative Grain Growers in signing up wool and wheat.

George A. Mansfield, state president of the bureau, praised the legislative work of the agricultural bloc in congress, declaring that "the group which is called by its enemies the agricultural bloc is not legislating for the farmers, but for the people of America at large." Mansfield's address dealt with taxation and mortgage problems of the state, and touched upon the Dairyman's league situation.

"The Dairy league will live again," he flatly declared, in speaking of what he considered the temporary failure of the organization. Tax dodging was said to be the principal reason for Oregon's high levy.
Colonel William A. Aird, secretary of the state farm bureau, spoke of organization problems, urging increased interest in the federation.

ST. ANTHONY'S CHURCH NOW HAS A PASTOR
The Reverend J. E. Boesch, a Native Son of the Golden West from San Francisco, and lately attached to the Madeleine Church of Portland, has been appointed Pastor of Saint Anthony's Church, Forest Grove, by the Most Reverend Alexander Christie, Archbishop of Oregon City.

Reverend Father Boesch will hold services at Saint Anthony's Church on Third Street, between Second Avenue and Third Avenue, on Sunday, January the Eighth.
The Mass will begin at 10:30 A. M. The sermon will be on the gospel of the day.
Father Boesch now resides at Saint Anthony's Rectory, 226 Second Avenue South, and the telephone number is Main 1201.

Our Liner Column is always interesting. There are bargains your neighbors have to dispose of. Read and use it weekly to your advantage and ours.

Miss Ruth Adams has been quite ill this week with tonsillitis and inflamed ears, which necessitated operations on both ears. Dr. Mason was the attending physician and took Miss Ruth to Portland where Dr. Chas. T. Chamberlain performed the operations. Ruth is resting easily and seems on the way to complete recovery. She is the six year old daughter of Mr. and Mrs. E. M. Adams.

RARE MUSICAL TREAT PROMISED FOR JAN 12
At considerable expense the local Shrine Club has succeeded in bringing to Forest Grove the Portland Exposition Quartette, which will give an entertainment at Masonic Hall on Thursday evening of next week, January 12th.
In order that the general public may have the benefit of this excellent musical treat it has been decided to invite everybody to this entertainment at an admission of 50 cents. Tickets will be on sale at the News-Times office and by D. R. Cheney at the Forest Grove National Bank. If you would enjoy a program as outlined below you are cordially invited to attend.

(a) Exposition Song—"In 1925" Knowlton. (b) The Bells of St. Mary's, Adams. (c) Now the Night (Sextette from Lucia) Donizetti—Exposition Quartet.
(a) Sognat, Schira. (b) An Open Secret, Woodman—Miss Georgia Baldwin.

USE CONVICTS ON HIGHWAYS
Gangs From Sing Sing and Other Prisons in New York Employed in Building Roads.
Three hundred convicts, made up in almost equal numbers from Sing Sing and other prisons are working on the construction of highways in New York state. The prisoners have given their word of honor not to try to slip away from their guards. The inmates receive one and a half cents a day wage.

AUTHORITY ON ROAD TRAFFIC
William Phelps Eno, Graduate of Yale College, is an Expert on Highways.
William Phelps Eno of Washington, D. C., a graduate of Yale college, in the class of 1882, is an authority on highway traffic regulations, having been closely identified for many years with the working out of the traffic problem in large cities in various parts of the world.
Four-Handed Twin-Grand Piano.
A twin-grand piano, the first of its kind ever constructed, was recently demonstrated at an orchestral concert at Leipzig, Germany. This novel instrument, of which a photograph appears in Popular Mechanics Magazine, is like two grand pianos placed end to end and included in one frame, excepting that it has only one soundboard. Consequently, the keyboards are at opposite ends, and the players face one another. The soundboard is constructed so that there is no intermingling of sound waves.

GOOD ROADS
BUILDING FEDERAL HIGHWAYS
Mileage Nearly Sufficient to Encircle the Globe When Construction is Finished.
(Prepared by the United States Department of Agriculture.)
Of the 22,030 miles of federal-aid roads which have been built or are now under construction, more than two-thirds are earth roads, sand-clay, or gravel, says the chief of bureau of public roads, United States Department of Agriculture. These have cost less than one-third of the total amount expended as compared with nearly 90 per cent of the estimated cost applied to 4,500 miles of hard-surfaced roads. A study of local conditions by an engineer of the bureau is necessary before a road project may receive federal aid.
The type of road to be used and the most suitable surface with respect to the traffic of the locality must be determined. Service must be satisfactory, while costs must be kept low, both for building and maintenance. There must be a careful analysis both of the engineering and economic conditions for each particular project. There are individual considerations in every case which affect the determination as to the best type of road material for that locality.
The mileage of federal-aid roads which have been built or are now under construction is nearly sufficient to encircle the globe. This is the record of work accomplished since July, 1916, when the federal government first stepped in to aid in the enormous task of building highways that are now called upon to carry more than 9,000,000 motor vehicles plus a very substantial horse-drawn traffic in the forty-eight states.
The federal-aid law is well named. The Department of Agriculture has given the broadest possible construction to the law for the purpose of providing the greatest mileage of highways suited to the traffic to be carried over them at the minimum expense. An analysis by the bureau of public roads of the projects under contract shows that all types of roads, from the graded earth road up to the finest paved surfaces, have been built.
On March 1 of this year, 22,030 miles of highway, extending into every state, had been completed or were in process of construction, says the bureau, at a total estimated cost of \$301,940,828. The percentage of this total

HOME TOWN HELPS
TO A MAN'S TOWN
What should a man boast more for than his town?
The place that shelters all his life holds dear,
Furnishes his granddaddy's ashes and the tale
That old tradition couples with his name?
What should a man be prouder of than his town?
The corner of his neighbors and his friends,
The place where smiles of greeting start
And mark the close. His town is this and more.
It has been wisely said of man that he has two homes. One is where he sits and reads
When evening's come and where his children sleep,
The other one is that which makes him safe.
Assures him protection with his friends,
A home that keeps his home—and that's his town.
One is his heart's desire. He plans for it
And works and saves, then works and saves some more.
The other may have it, and the other one gives him the first one and makes it secure.
What should a man boast more for than his town?
—J. H. Adams in Interurban Labor Journal, South Bend, Indiana.
