final total equitably distributed. The finances of a town of this size are always a problem and they are doubly so when located so near to the city. Here people are used to all the city's conveniences and the council faces the problem of providing them with the limited income available from the small amount of taxable property within the town. That the present council has operated the town so long without the indebtedness is much to their chedit.

## MAGICIAN COMING TO BEAVERTON MONDAY

The Beaverion High School is pre-senting Prof. B. B. Waring in the auditorium Monday evening, the twenty-third, in a very entertaining program of mysticiam and magic. Peof. Waring introduces his program with emphasizing the fact that we see what we wish to see and are look-ing for; that what we get out of life is measured in terms of what weak-pert. He demonstrates the deceits t. He demonstrates the deceits magic and spiritualism. He is en-wed throughout the country by testors and ministers becaue of the uths driven home in a two hours ogram of illusions that are present as such and not as facts.
