BEAVERTON, OREGON, FRIDAY, MARCH 31, 1922.

NO. 13

## E. E. FISHER FILES TO SUCCEED HAWLEY

Beaverton Man Would Go to Congress—Platform Is Comprehensive—Opposes Japanese Tenancy

With a platform filled with the burning topics of the day, E. E. Fisher, member of the Oregon house of representatives, local school teacher and former publisher of the Beaverton Owl, has filed for the Republican nomination for Congress from the Second Oregon district to succeed W. C. Hawley, present incumbent.

Earl E. Fisher is a resident of Beaverton of long standing and a man respected and admired by his neighbors whose support he will receive at the polls almost without exception. Almost every part of Washington county has known him as a teacher who was untiring in his efforts for the benefit of his pupils. A few years ago he had some experience in the newspaper field as publisher of the Beaverton Owl and there are people in Beaverton today who aver that the Owl was the best of them all.

Fisher is versatile. He sings well. He plays any band instrument with facility. He makes a very good speech. His thoughts are clear and far reaching. As a farm hand he was without a peer and today many farmers would pay him better wages than any other man. For nine years he helped with the development of Washington County in the building of roads and the excellent condition of Washington county roads owe their part to E. E. Fisher. He is a cartoonist of no mean ability.

"I will serve the public interests by voting with Congressman Stinnott for 60 per cent surtax on incomes, against the millionaire shifting his taxes onto the farmer and business man of small income.

"I will fight with the farm bloc and Oregon State Grange for the farmer.

"A bonus and square deal for the soldiers.

"Make Oregon harbor the best in the West.

"Against purse seine fishing. Give the poor fisherman a chance.

## SPRING OPENING HELD HERE DECIDED SUCCESS

The Spring Opening held last Saturday by the local mercantile firm of A. G. Hoffman Co., was a decided success in every way.

Everything was conducive to making the day a grand success even to the ushering in of a fine sunny Spring day. High degree of interest was manifested throughout the entire day by the many people of Forest Grove, many by towns and surrounding communities who availed themselves of this opportunity to call and see the new fabrics styles, and footwear of Spring, 1922.

The Spirit of Spring was suggestive in the timely decorations for the day. The window and interior artistic decorations and arrangement showed the new Spring goods to fine advantage. The many new things, which have been added to the store's large stock of merchandise, show expert choice of selection to meet the needs and desires of the people.

Forest Grove is indeed fortunate to have a store of this high standard which carries the best merchandise which it is possible to secure and is established in its own building so well and comfortably equipped for the shopper.

W. G. Hill sued Lily May Hill for divorce. They were married at Vancouver, Wash., in 1916, and the husband swears that the lady traveled with unfit companions and contracted the habit of drinking "budge," much to his chagrin. ## WOODRUFF CHAIRMAN OF CLUB DIRECTORS

Comfort Station Plans Approved. Improvement of Crossings Asked.—Right of Way Discussed.

The newly-formed Board of Directors of the Beaverton Commercial Club met and organized Friday night by selecting E. W. Woodruff as chairman and R. H. Jones as secretary. E. E. Swenson, president of the club, called the directors together. R. H. Jones read the amendment to the by-laws of the club which authorized the election of the Board of Directors and provided their duties. He also presented a report from the committee on the comfort station and after discussion a motion by E. E. Swenson, which was seconded by Doy Gray and carried, provided that the directors recommend to the club that the triangle west of the Stevens barber shop be accepted under the items offered by Raglo Rossi and that funds be raised, a comfort station erected and a drinking fountain be installed, provided that arrangements can be made with the town for the care of the comfort station.

A short discussion of the advantages of having the club incorporated did not lead to any action on the matter. Attention of the directors was called to the condition of crossings on Watson street and the secretary was instructed to write a letter to the town council, requesting that they be fixed. Attention was called to the condition of the right of way of the Southern Pacific west of Watson street, and the matter was ordered brought before the club at its next meeting.

It was recommended that the offer of Miss Alice Genevieve Smith to furnish a harp contest on April 21 be accepted by the club.

An Episode  
A lady barber comes to town  
And all the married women frown.

There is no reason for alarm,  
A lady barber means no harm.  
She shaves the men, perhaps they pur,  
But that means nothing much to her.

Don't worry, wives. Do not be vexed,  
A man to her is merely "Next."

## NEW FORD SEDAN IS MUCH IMPROVED CAR

The new Ford Sedan and Coupe will make their appearance at the Otto Erickson garages next week. These attractive closed cars are far superior in appearance to those formerly offered. The upholstery is improved 100 per cent and the cars present a very classy appearance. Mr. Erickson thinks the prices offered this season will prove very attractive to local buyers and anticipates placing a number of closed cars with people who have formerly driven open cars. Get in early boys, the new Ford closed cars will certainly be driven by the winners.

## GALES CREEK PIONEER MERCHANT PASSES ON

N. C. Lilly Is Suddenly Stricken By Heart Failure—Masonic Burial Saturday.

The many friends of Nicholas C. Lilly, pioneer merchant of Gales Creek, were greatly surprised and deeply pained last Thursday afternoon to learn of his sudden demise.

Mr. Lilly had not been unusually ill, but was a sufferer from heart trouble, and on the day in question he was at his home where his nephew by marriage, James Churchill, was reading to him. The two men had been commenting on certain features of the news of the day, Mr. Churchill continuing to read and finally when Mr. Lilly failed to respond to questions asked him, he looked up to find that he had suddenly expired.

For thirty-seven years Mr. Lilly had been engaged in the general merchandise business at Gales Creek, and was well and favorably known by almost every person in that community.

## FILMS SHOW FACTS OF LIFE'S BEGINNING

Fair Audience, Mostly Young People, Greets Lecturer from Oregon Social Hygiene Society.

Monday night at Pacific Theatre, J. E. Waggoner, of the Oregon Social Hygiene Society of Portland, presented the films, "How Life Begins," with an explanatory talk to Beaverton people. There was a fair crowd of mostly young people present, the heavy rains undoubtedly keeping many people away.

The Times man was out of town that night, so he can only tell you what some others say of the films, but from what we can gather the films were interesting and instructive, although perhaps of too scientific a nature for all except those with a knowledge of physiology. The photography was exceptionally fine and the reproduction was well-nigh perfect.

The explanatory lecture was delivered in a pleasing and easily understandable manner.

While there is a difference of opinion as to the value of these films from an educational point of view, the fact remains undisputed that the present methods of the Oregon Social Hygiene Society are the best that have yet been tried and if the subject is to be presented at all outside of the sanctity of the home, it must be in the manner of these films.

Mr. Waggoner is a gentleman with a wide understanding of human nature and is especially interested in the work of the association. Hence, he brings to the work that rare combination of devotion to duty and love for mankind that makes even ordinary work seem inspired. He has as his immediate superior, Mr. Grant, a man experienced in school work, thoroughly imbued with the importance of the work he is doing and inspiring the workers with his own perfect faith.

No arrangements have been made for additional lectures.

## 2100 EX-SERVICE MEN OUT OF EMPLOYMENT IN PORTLAND

A report on unemployment conditions in Oregon sent to Lemuel Bollen, National Adjutant of the American Legion, by Harry N. Nelson, Adjutant of the Oregon Department, disclosed the fact that there are 2100 men registered with the Legion employment Bureau in Portland, 900 of them badly in need of work and practically half of those registered either married or have dependents. It is a crying shame, reads Adjutant Nelson's report, that some two thousand veterans of the World War are out of employment in the city of Portland alone.

Herculean efforts are being made by the American Legion with the opening of its nation-wide drive to provide "short time" and permanent jobs for its buddies. Local Posts all over Oregon are cooperating with civic and fraternal organizations, business men and others to provide employment for the World War veterans.

Local Posts learning of positions open in the communities are urgently asked to communicate with State Headquarters of the Legion.

## Farm Pointers

Barley seeded in on a poor wheat stand grows a bad mixture to what it is too hard to separate. It is all right in some cases for feed but not for market.

Where a little corn can be grown with sunflowers the mixture makes a better silage than the sunflowers grown alone.

Cutting off the blossom ends of potatoes of size to weigh 1 1/2 to 2 ounces as each one and saving to plant by themselves on new ground or on land that has not grown potatoes for several years, will produce better yields and a better quality of seed.

Many Willamette valley farms are short in clover acreage. It is hard to start clover on run down grain and grass land. The best method is to sow it alone in April or May or early June on a well prepared firm seed bed.

Don't Skip Sprays  
Commercial orchardists cannot afford to omit any of the scab or codling moth sprays in western Oregon. While some of the applications are always the most important, it is impossible to foresee exactly which these will be. Observations have shown that one year the delayed dormant might be the most vital spray while the next year the calyx or "pink" spray or both might be the important ones, depending on weather conditions. These conditions cannot be predicted—hence the orchardist cannot afford to take a chance.—O. A. C. Experiment Station.

If you owe the Beaverton Wood and Coal yard, pay in person to G. H. Wolf, or leave at Beaverton. This applies to all accounts prior to March 29, 1922. G. H. Wolf, 1314
