Going East?

Fords Are Better This Year

The leading automaker has announced that his company will produce the best year-round car this year. This year we are going to build a car that will be better than last year's car, and we are going to build it on the same basis as last year's car, but with improvements that we have been working on for the past two years.

Fords are different this year, for the first time we have a car that does not lack anything. It is a perfect car in every way. It is not only the best car we have ever built, but it is also the best car that anyone has ever built.

Fords are better this year.
