

MAKE OREGON SAFE FOR THE REPUBLICAN PARTY

RE-ELECT Ralph E. Williams REPUBLICAN NATIONAL COMMITTEEMAN

The Only Westerner Ever Elected Vice-Chairman of the Republican National Committee.

KEEP THE WEST IN POWER

The Republican National Committee consists of one member from each state in the Union and is the political organization of the party. In June, 1921, at the committee's first meeting after the inauguration of President Warren G. Harding, every state cast its vote for Ralph E. Williams of Oregon for vice-chairman of the Committee, recognizing by their unanimous vote his fitness and ability as a leader to fill this responsible position.

A vote for Ralph E. Williams for Republican National Committeeman will confirm the action of the forty-eight states in electing him vice-chairman of the Republican National Committee, a position never before held by a Western man.

Ralph E. Williams of Oregon, as vice-chairman of the Republican National Committee, is directly in line to become National chairman, the highest position attainable in the Republican organization.

A National Committeeman on the National Committee does not make or execute the laws, but carries out the policies and platform of the party adopted by the delegates at each previous National Convention.

Mr. Williams is senior member of the National Committee. Seniority in this committee gives one the same power as seniority in the U. S. Senate.

VOTE TO KEEP HIM THERE

(Paid Ad. by Committee of Republicans, C. L. Starr, Sec'y, 617 Board of Trade Bldg., Portland, Ore.)

Matt Blomquist purchased some fine pigs this week. Mr. Graeber is falling timber on the Housden place. Dorothy Cole has been busy selling garden seed for a special premium.

Charles Barron has been blasting stumps on this ranch. The Easter egg hunt at school was enjoyed by the children. Friday

Black bread Good for Teeth.

Presidents of those European countries where black bread is eaten usually have exceptionally good teeth.

A Feminine Contributor Says—In matters of generosity a woman acts first and reasons afterward; a man reasons first—and generally forgets to act.—Boston Transcript.

Pity the Poor Auto.

Jay Jasper bought a runabout, resplendent, fresh and new; went in the hole five hundred plunks—so has to fret and stew. Not having wherewithal to build a cover for his car, it's standing out in rain and snow and wheezing with catarrh. Yet Jay, he loves his gas machine, and boasts of it with joy; he'd no more think of selling it than parting with his boy. His mower, which he's had four years, is sheltered with a shed, while auto stands in all outdoors, with naught about its head.—Exchange.

Squaw-Flower.

A variety of trillium is called squaw-flower. It is also called bath-flower, birth-root and three-leaved nightshade. This dark trillium grows coarse and rank compared to the wake-robin. The blossoms are a dull red, with white stamens. The leaves are much larger than those of the painted trillium, though the general shape is the same—a diamond design.

Ended Embryonic Love Affair.

The first girl I ever called to see was entertaining me in the presence of another couple of young folks, when she reached over and pulled what she supposed to be a thread off my vest. She pulled about two yards out before she grasped the fact that she was unraveling my underwear. It was the last of that love affair.—Chicago Journal.

Marriage, Hey!

You said you were married, I think? Well, I suppose it is wise, after all. It settles, centralizes and confirms a man. I have heard. Yes it makes the world definite to him; it removes his morbid subjectiveness, and makes all things objective; one small child, for instance, may be considered objective. Marriage, hey! A fine thing, no doubt, no doubt—domestic—pretty—nice, all round. So you are married! —From "Pierre" by Herman Melville.

"We believe ZEROLENE is the most efficient lubricant made for the modern automobile engine. If it were possible to make a better oil than ZEROLENE this company would make it."

The President of the Standard Oil Company (California), author of the statement quoted above, is right in believing that Zerolene is the best motor oil made. The lubrication engineers of this company have proved it repeatedly by means of thousands of dynamometer and road tests of Zerolene and competing oils.

The reasons for Zerolene's superiority are: First, that the Standard Oil Company (California) possesses resources of crude oil and of manufacturing equipment and personnel that are unsurpassed in the entire petroleum industry. Second, that the engineers and chemists of this company have, from the beginning, been given carte blanche to make full use of these exceptional resources, and to spend all the time and money needed to develop a lubricant ideally suited to the needs of the modern internal combustion engine.

At the President's request, we are undertaking to tell the motorists of the Pacific Coast the story of Zerolene. We shall do this by means of a series of signed statements in the public press. These statements will set forth in plain language the requirements of an efficient motor lubricant, and the detailed reasons why Zerolene meets these requirements perfectly.
