RE-ELECT Ralph E. Williams 

REPUBLICAN 

NATIONAL COMMITTEE MEMBER 

The Only Mayor-Elected by Federal Electors of the Republican National Committee.

KEEP THE WEST IN POWER

The Republican National Committee invites one hundred thousand dollars from each state in the district and in the political organizations of our party. In June, 1931, at the convention meeting after the first Iowa Primary, President G. K. Boring, every state and the New England states, chose Ralph E. Williams of Oregon to represent their interests. He has efficiency and ability as an energetic leader. Ralph E. Williams is described in the Portland Oregonian as 'one of the ablest men in the Republican party.'

A vote for Ralph E. Williams for Republican National Committee will mean the difference between the successful or failure at the Republican National Convention of 1932. The highest position available in the Republican organization.

A National Committee of the National Committee does not make or endorse the laws but carries on the platforms and platforms of the party adopted by the delegate in the Republican National Convention.

Mr. Williams is a member of the National Committee. Another vote in this convention gives you the same ability to lead as in the U. S. Senate.

VOTE TO KEEP HIM THERE

(Payable to Committee of Ralph E. Williams, C. L. Burns, Secretary, 1777 Broadway, Portland, Ore.)

Fords Are Better This Year

First only better things since this year. International in the handling of engine and transmission. But better. Price are lower. There are 30 beautiful cars of different makes.

ACCUSATIONS WITH SPEEDY RECOIL

30 EAST TO ATLAS

Everytime should stand your place and stand the "Standards," as they are fixed, higher. They no waters would, or would not, if we have to climb the mountain, but that the need is to get lower the needs may rise or may and do not change. As we have done, and with the fact in the mind, and make this resolution. A perfect caliper will save your time.

"We believe ZEROLENE is the most efficient lubricant made for the modern automobile engine. If it were possible to make a better oil than ZEROLENE this company would make it."

The President of the Standard Oil Company (California), author of the statement quoted above, is telling in believing that Zerolene is the best motor oil made. The lubrication engineers of this company have proved repeatedly, by means of thousands of dynamometer and road tests of Zerolene and competing oils.

The reasons for Zerolene's superiority are: First, that the Zerolene Company (California) possesses refinements of crude oil and of manufacturing equipment and personnel that are unattained in the entire petroleum industry. Secondly, that the engineers and chemists of this company have, from the beginning, been given every chance to make full use of these exceptional resources, and to spend all the time and money needed to develop a lubricant ideally suited to the needs of the modern internal combustion engine.

At the President's request, we are undertaking to tell the motorists of the Pacific Coast the story of Zerolene. We shall do this by means of a series of signed statements in the public press. These statements will set forth in plain language the requirements of an efficient motor lubricant, and the detailed reasons why Zerolene meets these requirements perfectly.
