UNCLE SAM AND YOUNG MEN

Opportunities for young men increase as older men learn more of the science of government. Boys who are growing to manhood today have opportunities for education and entrance into business that their fathers never enjoyed. They have chances for enjoyment, privileges of improvement and opportunities for travel never before enjoyed by the youth of any land.

Not the least of the new opportunities that have opened up for young men is the offer of the Government to entertain them one month each year at the Citizens' Military Training Camps with all expenses paid, even to transportation to and from the camps, theatre tickets and physical examination.

To be able to leave home the latter part of July and return again the latter part of August, learn the principles of military training, enjoy athletics, theatres, social functions, pleasure trips and new country, to be of some use to the Nation and at the same time to benefit physically and mentally, without the incurring of any obligation for further military service is an opportunity no young man can afford to overlook. Yet this chance is open to any young man between the ages of 17 and 27 who is in good health and reasonable physical condition.

Three courses are offered: The Red Course: Ages 17 to 25—No previous military experience of any kind necessary.

White Course: Ages 18 to 26—For those who have had Red Course, Grammar school education or its equivalent necessary.

Blue Course: Ages 19 to 27—For civilians having completed Red and White Courses. High school education or its equivalent necessary.

White Course qualifies student to become non-commissioned officer in Organized Reserves if he so desires and Blue Course an officer in the Organized Reserves.

Ex-service non-commissioned officers, not older than 35 years of age who have high school education or its equivalent, may enter Blue Course.

With conditions in the turmoil that exists in Europe and China today, America is in a position that she may be called upon to take further part at any minute. Young men will not escape military duty because of ignorance of its principles but they are at a decided disadvantage without a knowledge of those principles and the government has a decided advantage if a reasonable number of its young men are versed in the rudiments of its military practices. Hence the plan for summer camps which do not entail any obligations for further service.

Mrs. J. A. Erickson entertained the class of '23 of Beaverton High school one evening recently at her home in Huber, her son, Herbert being a member of that class. The class colors were harmoniously used in decoration with flowers and greenery, giving a very pretty and festive appearance. Place cards and favors done in the colors added beauty to the table. The evening was spent merrily as only a bunch of young people know so well how to do and Mrs. Erickson was voted a most delightful hostess.

The Huber Ladies Social Improvement club was entertained at Mrs. Lundberg's on Thursday afternoon. A girls club is to be started this week under the auspices of the H. L. S. J. Club, with Mesdames Jackson and Clark as leaders. BOY SWALLOWS WHISTLE

TAKEN TO HOSPITAL

Three weeks ago Jennifer Blomquist was playing with an organ reed as a whistle at his home on Cooper Mountain, suddenly he swallowed the whistle and was supposed, after two weeks at school the teacher noticed that the boy had a peculiar cough and spoke about it, so sure enough on Sunday the cough got worse and the boy was hurried to a Portland hospital. With several X-Ray pictures the whistle or reed was located, but not in his stomach but in one of the bronchial tubes of his windpipe. He was given chloroform an operation performed and the brass reed was removed. Jennifer is home again and recovering.
