Let Us Do Our Duty.
Let us do our duty in our shop or our kitchen: in the market, the street, the office, the school, the home, just as faithfully as if we stood in the front rank of some great battle, and knew that victory for mankind depended on our bravery, strength and skill. When we do that, the humblest of us will be serving in that great army which achieves the welfare of the world.—Theodore Parker.

To Clean Paper.
To make a paste that will clean wall paper, mix a quart of flour with five cents' worth of ammonia and enough water to make a stiff dough, and knead until smooth. Then wipe the paper with the dough, working it so that a clean surface will be presented with every stroke, and the wall paper will look like new.—New Haven Journal Courier.

Theory.
"Why is there no great American dramatist?" asked the art pessimist. "Because," replied the sardonic manager, "when an American is capable of thinking up a first-class practical plot and dressing it up in good speeches he doesn't bother about the theater. He goes into politics."

Cow Was Drunk, Not Wild.
A Virginia husbandman, alarmed by the indecorous performances of an ordinarily mild and gentle cow after munching a ration of ensilage, appealed to the sharps of the department of agriculture, thinking the cow had gone wild or mad. Investigation revealed that "bossy" had feasted on fermented cornstalks and had simply got drunk on the raw bourbon whiskey.

Daily Thought.
And if you do but live long enough you get past the bad bits of the road.—Mrs. Humphry Ward.

NAVY ORDERS ENGLISH SHELLS

British Contractor Bids Lower Than Americans.

Home Institutions Expected to Reduce Prices in View of New Policy
—Eight-Hour Law Applies.

Washington, D. C.—Determined to learn whether foreign manufacturers can sell the United States navy shells of equal quality for one-third less than the lowest price Americans will offer, the Navy department has awarded a contract to the Hadfield Steel Foundry, of Sheffield, for 500 out of a total of 5500 armor-piercing projectiles contracted for.

The department officials believe that if the English product measures up to the test, the avowed intention of the government to buy abroad when necessary to meet exorbitant domestic bids, will result in a substantial lowering of American prices.

The Hadfield company received the contract for 500 12-inch projectiles at \$187 each. To the Bethlehem Steel company went 1500 12-inch shells at \$279.40 each, and 500 14-inch shells at \$500 each; to the Washington Steel & Ordnance company, 500 12-inch shells at \$277 each, and 1000 14-inch shells at \$490 each, and to the Crucible Steel company of America 1000 12-inch shells at \$274.75 each and 500 14-inch at \$500 each.

The Hadfield share amounts to \$93,500 out of a total of \$1,915,950. This company received none of the 14-inch projectiles, although on them it bid almost \$100 less apiece than its lowest American competitor and was the only concern that offered to undertake the entire contract.

Attorney General Wickersham has prepared an opinion advising the Navy department that the eight-hour law will be made to apply in the shell contracts equally to American and foreign builders.

Contracts were also let for large quantities of shells other than the 12 and 14-inch armor-piercers, on which only American companies bid.

SACRIFICE IS FATAL.
Cripple Who Gave Withered Limb for Girl He Never Saw Die.

Gary, Ind.—"I guess I'm some good, after all."

Billy Rugh, the 41-year old cripple whose withered leg was amputated to save the life of a girl by a skin-grafting operation at a hospital here, spoke these words and then died.

Pneumonia was said by the physicians to be the cause of death. The ailment, however, resulted directly from his self-sacrifice, having been due to irritation of the lungs by the ether that was given him when his leg was cut off to furnish skin for the body of a person whom he had never seen.

Rugh had no relatives, and since coming to Gary several years ago made his living selling newspapers on the streets. He had to be trusted for the first bundle of newspapers with which he started business.

Miss Ethel Smith, the girl for whom he sacrificed his leg and later his life, had been terribly burned in a motorcycle accident. It was just two days since her recovery advanced sufficiently to permit her removal from the hospital in which Rugh died.

Big Fire at Arsenal.
Benecia, Cal.—The Benecia arsenal, the government's principal storehouse for army supplies on the Pacific Coast, was wiped out by fire. The loss is estimated at between \$3,000,000 and \$4,000,000. Spontaneous combustion or crossed electric wires are assigned as the cause.

Sixty thousand stands of small arms and 12,000,000 rounds of ammunition were destroyed.

Owing to the explosion of the cartridges the work of fighting the fire was extremely hazardous.

Heavy Fighting in Balkans.
Constantinople—Heavy fighting is reported in progress throughout the region about Kirk-Kileseh, northeastward of Adrianople. Large forces are engaged on both sides. Turkey's endeavors to reach Greece from the confederation of Balkan states have failed. Greece has openly declared war against the Ottoman Empire. The departure from Constantinople of the Balkan ministers was not attended by any hostile demonstration. Thousands of Greeks were permitted to depart to join their forces.

Aviator Escapes in Fall.
Colfax, Wash.—John M. Bryant, an aviator of Oakland, Cal., had a narrow escape from death here when he lost control of his biplane in a heavy wind and crashed into a low hill two miles from Colfax. Bryant had reached a height of 600 feet when he was struck by a heavy gust and driven far from his course. The biplane started to fall, but he regained partial control before he struck the ground. He was badly bruised and the biplane demolished.

Persian Capital in Peril.
Teheran, Persia—The Persian capital is menaced by 800 horsemen under command of Salar Ed Dowleh, the rebellious uncle of the reigning Shah. It is believed the people sympathize with him, as they are dissatisfied with the present government. The national council is hastily collecting cannon and troops to defend the city.

60 YEARS THE LEADER TRY IT TODAY

LUNATIC AS DOCTOR.

While a prominent specialist was absent from the consulting room in Berlin the other day, a lunatic managed to obtain admission, and posed as the doctor to the many patients who called, giving them prescriptions and advice. There appeared to be nothing unusual in his manner until a lady who was a constant patient asked him if he was acting as substitute during the holidays. The impostor laughed, and told her to take peppermint lozenges for her lung trouble. The woman raised the alarm, and the madman was taken into custody. Considerable anxiety is felt for the other patients, for whom he may have prescribed poison. All the pharmacists have been advised of the affair.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy in use for their children during the teething period.

Easily Made Coathangers.
A coathanger may be improvised from a newspaper in the following manner: Fold a newspaper through the center and continue folding or rolling it until it is a compact piece about three inches wide. Bend it downward in the middle and tie with a cord, forming a loop. It will answer the same purpose as a hanger of wood or metal and requires only a few minutes to make.

Pettit's GOOD FOR EYE SORE SALVE
Embarrassment of Riches.
"Wealth doesn't always bring happiness," remarked the youngster with the large spectacles. "Naw," asserted the other kid. "Look at me cousin yonder. He's got two cents and he can't decide between lollipops and ice cream."—Pittsburg Post.

Didn't Concern Him.
The tramp did away with a sandwich handed to him by the latest farmer wife he had favored with a call. She had wrapped the sandwich in a section of newspaper, which the tramp scanned with the eye of carelessness characteristic of his kind. "My idea of nothin' to git nutty about," he remarked to himself, after glancing at a market report, "is the advance of \$2 a ton in the price of car wheels."—Judge.

BACKACHE NOT A DISEASE
But a Symptom, a Danger Signal Which Every Woman Should Heed.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Read about Mrs. Woodall's experience.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

One of Chief Towns Taken.
Podgoritz, Montenegro—The Northern Montenegrin army under General Vukovitch, which recently crossed the border into the Sanjak of Novinszar, gained a firm foothold by capturing Bylopolje, one of the chief towns of the province. Bylopolje fell after prolonged fighting, but no information has been received regarding the losses. The Montenegrins have set up a provisional government. The Serb inhabitants of Bylopolje welcomed the Montenegrins as liberators from the Turkish yoke.

New Alfalfa is Solution.
Washington, D. C.—Secretary Wilson expressed belief that the agricultural problem in the arid lands of the West had been solved by the alfalfa brought from Siberia. "Draw a line from the northern boundary of North Dakota down to the Gulf of Mexico," said Mr. Wilson. "That's arid land. Up in Siberia they are getting alfalfa and that hardy product we will put into the arid section. It will be the salvation of the arid country."

ASSASSIN FIRES AT ROOSEVELT

Bullet Penetrates Clothing and Makes Flesh Wound.

Colonel Proceeds to Hall and Makes Brief Address, Then Retires to Private Car.

Milwaukee, Wis.—Colonel Theodore Roosevelt was shot in the abdominal region shortly before 8 o'clock Monday night, while sitting in his automobile in front of the Gilpatrick House in Milwaukee, about to start for the auditorium to deliver his scheduled address. According to latest accounts the bullet is imbedded in the muscular tissue and the wound is not serious.

The attempted assassination and all its accompanying scenes were dramatic in the extreme. The would-be murderer was John Shrenk, of New York city, a man apparently demented on the subject of the third term. He was captured and locked up.

Unconscious of his wound, Colonel Roosevelt proceeded to the auditorium, and when his condition was discovered, in spite of the protest of his physician, he made a stirring address on the subject of his attempted murder. Weakened from loss of blood and at the conclusion of his speech he was taken to the Emergency hospital, where, after an examination by physicians, the nature of his wound was ascertained. It was not considered serious enough to compel a stay in Milwaukee, and at 12:50 a. m. he was taken aboard his special train on a slow run to Chicago.

The colonel announced that he would spend the night on the train and after a few hours here would go on to Indianapolis to fulfill his engagement there.

Chicago—Colonel Roosevelt arrived in Chicago at 3:30 o'clock Tuesday morning. The colonel was said to be resting easy. He had experienced no discomfort during the trip from Milwaukee. He had slept all the way. His temperature was normal and his pulse 84.

That the wound was not more serious was due to the fact that the bullet was spent from passing through the colonel's army overcoat, spectacle case and the manuscript of his contemplated speech.

Henry F. Cochems seized the assassin and held him until policemen came up. A mob surged around the man, who apparently is a radical on the subject of Roosevelt's running for another term for president.

The assassin, who is small of stature, admitted firing the shot and said that "any man looking for a third term ought to be shot."

In notes found in the man's pockets at the police station were statements that the man had been visited in a dream by the spirit of William McKinley, who he said, indicating Roosevelt, "This is my murderer; avenge my death."

The colonel felt no pain at the time the shot was fired and was not aware that he was shot until he was on his way to the auditorium. His attention was then called to the hole in his overcoat, and he found that he was not badly hurt. A superficial examination of the wound was made when he reached the auditorium, and three physicians agreed he was in no immediate danger.

Colonel Roosevelt's life was probably saved by the manuscript of his speech which he made. The bullet struck the manuscript, which retarded its force as it passed through into the flesh.

The assassin was prevented from firing a second shot by Albert H. Martin, one of Colonel Roosevelt's two secretaries. Colonel Roosevelt had just stepped into an automobile when the assassin pushed his way through the crowd to the street and fired. Martin, who was standing in the car with the colonel, leaped to the man's shoulders and bore him to the ground.

A wild cry of "lynch him" went up from the crowd. Colonel Roosevelt spoke to the people and told them to spare the would-be assassin.

In spite of the entreaties of physicians, Colonel Roosevelt insisted upon delivering his address.

"I will make this speech or die, one or the other."

Has Pig for Her Pet.
Miss Ethel Albright of Palmyra, N. Y., has an unusual pet, a tame pig, which she raised by artificial means. It was taken from the litter when a few days old. The little animal shows great affection for its young mistress, following her about, as would a dog, and showing its jealousy of her other pets.

Uncle Pennywise Says.
"A girl with several applicants for her hand is apt to worry because the demand for her is so much greater than the supply."

W.L. DOUGLAS SHOES

\$3.00 \$3.50 \$4.00 \$4.50 AND \$5.00
FOR MEN AND WOMEN
Boys wear W. L. Douglas \$2.00, \$2.50 & \$3.00 School Shoes, because one pair will positively outwear two pairs of ordinary shoes, same as the men's shoes.

W.L. Douglas makes and sells more \$3.00, \$3.50 & \$4.00 shoes than any other manufacturer in the world.
THE STANDARD OF QUALITY FOR OVER 30 YEARS.
The workmanship which has made W. L. Douglas shoes famous the world over is maintained in every pair.

Ask your dealer to show you W. L. Douglas latest fashions for fall and winter wear, notice the **short vamps** which make the foot look smaller, points in a shoe particularly desired by young men. Also the **conservative styles** which have made W. L. Douglas shoes a household word everywhere.

If you could visit W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.

CAUTION.—To protect you against inferior shoes, W. L. Douglas stamps his name on the bottom. Look for the stamp. Beware of substitutes. W. L. Douglas shoes are sold in 78 cities, stores and shoe dealers everywhere. No matter where you live, they are within your reach. If your dealer cannot supply you, write direct to factory for catalog showing how to order by mail. Shoes sent everywhere, delivery charges prepaid. W. L. Douglas, Brockton, Mass.

Likely to Keep Him Busy.
Mrs. Bacon—I never saw a puzzle my brother couldn't do. He's really a wonder. Mr. Bacon—I wish you'd take this timetable down to him and see if he can make anything out of it.
—Yonkers Statesman.

His Reply.
She (for the 'steenthundredth, more or less, time)—"Oh, darling, do you really and truly love me?" He (a trifle grimly)—"Now, look-a-here, Gladys! Do you want me to put up a cash bond?"—Judge.

Golden Rod Oats. Golden Rod Pancake Flour.
Golden Rod Wheat Flakes. Ralston Select Bran.
Golden Rod Wheat Nuts. Golden Rod Chick Food.

VALUABLE RING RECOVERED.
Under remarkable circumstances a valuable gold ring, set with sapphires and pearls, belonging to a resident of Rochester, near Uttoxeter, Staffordshire, England, has been discovered after being missing for over four years. It is assumed that the ring must have been carted away with ashes, for while working on a nearby farm a balliff found the ring in a field. Although it had been missing for such a lengthy period the ring was not in the least tarnished. The man who was working in the field with the balliff happened to remember the loss of this ring.

Said More Than He Meant.
The Candidate (having quoted the words of an eminent statesman in support of an argument)—"And, mind you, these are not my words. This is not merely my opinion. These are the words of a man who knows what he's talking about."

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

70 Years with Coughs
We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it, as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one.

Made by the J. C. AYER CO., Lowell, Mass.

OUT OF TOWN PEOPLE
can receive prompt treatment of skin diseases, such as itching, eruptions, etc.
