**INFERTILE EGGS KEEP BEST**  
Large Part of Loss Can Be Obligated, According to Investigation Just Completed.

A large part of the heavy loss from bad eggs can be obviated by the production of infertile eggs. This has been demonstrated beyond a doubt by the investigations concerning the improvement of the farm egg which during the past two years have been conducted in the middle west by the Bureau of animal industry of the department of agriculture.

Secretary Wilson of the department of agriculture estimates that, between the producer and the consumer, there is an annual loss of \$45,000,000 in the egg crop of the United States, the greater portion of which falls on the farmer, who is by far the largest producer. Of this enormous loss, about one-third, or \$15,000,000, is caused by heat which develops the embryo of the fertile egg, causing what is known to the trade as a "blood ring." As it is impossible to produce a "blood ring" in an infertile egg, such an egg will stand a higher degree of temperature without serious deterioration than will a fertile egg.

The secretary says that if farmers and others engaged in the production of eggs would market their male birds as soon as the hatching season is over, a large saving would be made, as practically every infertile egg would grade a first or second if clean and promptly marketed.

No more simple or efficient method for the improvement of the egg supply of the country could be adopted than the production of infertile eggs.

**The Rothschilds.** What chiefly struck one at the funeral of the late Baron Gustave de Rothschild was the great multiplicity of relatives descended from his father, the first Baron James, the shrewdest and most funnily humorous member of the Paris branch of the Rothschilds, that he founded. Among these descendants were a son, grandsons, and great-and-great-grandsons—Rothschilds, Lamberts, Leoninis, Ephrussis, Sterns, Sassoons, Gubbays. They represented not only the principle of blood relationship, but the finance of Paris, Brussels, Genoa, Milan, Odessa, Bombay and Calcutta. Among the numerous multi-millionaires descended from the first Baron James there was one who devoted himself to medical science, dramatic literature and the collection of autographs of great writers—Baron Henri, only son of the second Baron James.

**Salt Roasted Pumpkin Seeds.** In some of the rural districts of Macedonia the peasantry consume large quantities of pumpkin seeds, salted and roasted brown. The taste of this "nut," like the taste of caviar, is an acquired vice and some persons never succeed in acquiring it.—New York Press.

It's one of the rules of the club I belong to that none of its members shall marry a man who won't shave every morning." "Oh, that's all right," replied Ben; "but what about the mornings I don't get home in time? I belong to a club, too."—Lippincott's Magazine.

**COMMISSION MEN ARE INDICTED**

**Portland Produce Dealers Alleged to In Trust.**

**Fifteen Prominent Merchants Receive Attention of Federal Grand Jury.**

Portland, Or.—Grand jurors in the Federal court have returned indictments against 15 fruit and produce dealers on Front street, charging them with unlawful conspiracy in restraint of trade and in violation of the Sherman anti-trust act. The men indicted assert their innocence of law-breaking.

Every commodity that the average family requires for its daily food supply, with the exception of meat, it is alleged, is controlled by the group of men under indictment, with the result not only that the prices to the consuming public are greatly increased, but that all dealers not members of the alleged combination are and have been prevented from doing business.

Eleven of the 15 men against whom true bills were returned have been arrested and have given \$1000 bail each. They are E. A. Bamford, C. N. Dilley, Timothy Pearson, W. A. Mansfield, W. H. Dryer, Herbert B. McEwen, Mark Levy, Charles R. Levy, Ed B. Levy, Ben Levy and G. W. Cardwell. W. B. Glafke, John A. Bell, Fred A. Page and John J. Cole are under indictment, but have not been arrested.

Glafke because he is visiting his mother, who is ill, and the three others because they are out of the city. They have been advised by their associates to return and submit to arrest.

The defendants, individually and collectively, are among the leading commission men on Front street. Many of them have been in business here for a long time. While they admit the existence of the Produce Merchants' association of Portland, they deny that it tends to stifle competition or that it manipulates prices.

The center of activity during the grand jury's investigations and the probable star witness when the case comes to trial is J. W. Bunn, the secretary of the organization, who has been granted immunity by the Federal prosecutors.

**FIND SHIP WITHOUT A CREW Afloat in Ocean, All Ship Shape, Without Soul on Board.**

Newport News, Va.—Another mystery of the deep, practically paralleling the unexplained disappearance of the crew of the schooner Marie Celeste several years ago, has been reported here by the British tank steamer Roumanian. On January 19, churning along ten days out from Port Arthur and near the Azores, she picked up the Norwegian bark Remittent, seaworthy, provisioned and fully rigged, but without a soul aboard and with no indication of the crew's fate. The Roumanian, after towing the Remittent to within 100 miles of Cape Henry, lost her in a violent gale. The Marie Celeste was found at sea with a pot boiling in her galley and her captain's papers on the cabin table and every indication that her crew had been aboard within a few hours of her discovery. But nothing ever was heard of her skipper or crew.

**Allies Attack Turk's Rear.**

London.—The Bulgarians are devoting their chief attention to the bombardment of Adrianople and an attempt to capture the Gallipoli peninsula and so take the Turkish forts in the rear. An official dispatch issued at Constantinople indicates that the Bulgarians have been successful in their first operations in the latter quarter, and, according to a Sofia dispatch, the capture of Gallipoli is the chief objective of the Bulgarians for the time being.

**Man Gets Brain of Dog.**

Ann Arbor, Mich.—The brain of a dog was transferred to a man's skull in University hospital here Thursday. W. A. Smith, of Kalamazoo, had been suffering from abscess on the brain and as a last effort to save his life this remarkable operation was performed. Opening his skull, the surgeons removed the diseased portion of his brain and in its place substituted the brain of a dog. Smith was resting comfortably at last reports, and the surgeons say he has a good chance to recover.

**10,000 Wounded, Say Janinans.**

London.—An Athens dispatch to the Telegraph says that three prominent citizens of Janina, who escaped to the Greek lines, assert that there are 10,000 wounded in the town, which would have surrendered but for the influence of the Austrian consul.

A Constantinople dispatch to the Telegraph says the Bulgarians have retired from the Tchatalja and have made their headquarters at Tcherkeskeui.

**Duluth's Oldest Citizen Dead.**

Duluth, Minn.—John Flynn, the first white man to push a trail through the wilderness from St. Paul to the Indian trading posts on the shores of Lake Vermillion, and who was Duluth's oldest citizen, is dead at his daughter's home here. **PISO'S REMEDY FOR COUGHS AND COLDS**

Continent of Trees. The idea of an extensive forest generally calls to mind the forests of South America or the heart of Africa, but it is a surprising fact that in proportion to its size Europe is much more extensively wooded than the rest of the globe. It is calculated that nearly a third of the surface of Europe is covered with trees, whereas the proportion over the whole land area of the world is only about one-quarter. Finland and Sweden have the greatest extent of forest land, half of their surface being covered with trees. Britain and Portugal are the least wooded of European countries, only a twentieth part of their area being covered with forests. Though southern Britain is richly wooded, the trees are for a large part in hedgerows and are not collected into for-

**WOMAN SICK FOURTEEN YEARS**  
Restored to Health by Lydia E. Pinkham's Vegetable Compound.  
Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.  
"If these lines will be of any benefit you have my permission to publish them."—Mrs. SARAH WILLIAMS, 42 James Street, Elkhart, Indiana.  
Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ailments we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.  
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

**NEAT PACKAGE HELPS PRICE**  
Butter Wrapped in Tidy Parcel of One Pound Each Will Attract Eye of Fastidious.

You may not believe it, but farm butter put up in square packages of a pound neatly wrapped in oiled paper will bring a better price in any market than the same butter loosely packed in a tin bucket or jar.

A butter mold costs a trifle and oiled paper with your name printed on it costs but a little more, and if butter is put up in square packages it will bring from two to three cents per pound more than if packed in jars or tins.

Fastidious customers in the city, who are in the habit of getting nearly everything they consume in fancy packages absolutely will not buy butter that is scooped out of the pail and sent to their homes in wooden dishes.

In spite of this fact which nearly every farmer ought to know, 95 per cent of the farm butter is sold without being put up in this form and it all goes together in one mass at the creamery, where it is worked over, molded into pound packages, wrapped and stamped with the name of the creamery and sold at a profit, all of which might have been had by the farmer if he would do the same thing and sell direct to city consumers.

Of course it is not always possible to sell direct to consumers, but even if butter is sold to the stores it will bring a much better price if put up in oiled paper in pound packages. In fact the making of butter is not all there is in the business.

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

**As Usual.** "I'm so glad to see that you have recovered from your illness." "Yes; but I had a narrow escape. The doctor said if I had waited a day longer it would have been hopeless, and they all said it was the only case of its kind on record. The doctor is going to write it up for a medical paper. The only thing that carried me through was my wonderful vitality."—Exchange.

**How Kansas Got Its Name.** The late Colonel Inman always insisted that Kansas got its name through mistake of a proofreader. The early Kansas Indians were Kaws, a diminutive of Kaussas. In revising the works of a missionary the proofreader mistook the "a" for an inverted "n" and changed it to "n." Since then it has been Kansas.

**Almost Too Much to Believe.** A gunner of the royal marines tells a story, says an English paper, of how a seagull rescued an exhausted flannel from the sea and deposited it on the deck of a warship.
